U-BOAT CASE CLEARS

MENACE NOW FADES AWAY

Submarine Issue Takes on More Satisfactory Status.

NO NEW DISTURBING DEVELOPMENTS COME

Admiral Gleaves Believes Kingstonian Not Among U-Boat Victims.

Washington, Oct. 12.—The whole submarine situation both as to the recent raid on the New England coast and the broader question of agitation in Germany for a ruthless resumption of the warfare shows signs in official quarters of having practically cleared up.

No new developments are reported and no new disturbing information has come to the state department according to officials to change the decision arrived at by President Wilson and Secretary Lansing.

As to Neutrality Patrol.

While no immediate steps are in contemplation for the actual establishment of a naval neutrality patrol along the Atlantic coast as a result of the German submarine raid, the navy department has completed a definite plan to be put into operation if the campaign continues.

The entire destroyer force, active and reserve, assisted by the light cruisers, navy tugs and other auxiliary craft would be employed to protect American territorial waters and also to prevent the establishment of any secret bases ashore or communication between shore and radio stations and belligerent craft.

The possibility of mobilizing the force of privately owned motor boats along the coast which have been enrolled with their crews as a part of the naval reserve was first considered but various obstacles were encountered. Naval militia officers and men already have been assigned to reserve ships for service if necessary.

No Kingstonian Sunk?

Rear Admiral Gleaves, commanding the Atlantic destroyer flotilla, reported today his personal belief that no steamer Kingston or Kingstonian was sunk by the German submarine during its operations off Nantucket light ship. After several days of search the destroyer force has found no evidence that a ship of that name was in the vicinity and if Admiral Gleaves theory is correct only five ships were sunk. Admiral Gleaves' report follows:

"Destroyer continued the search until midnight Tuesday from Montauke Point to the Nantucket light ship. It is my personal belief that all survivors have been accounted for and that there was no steamer Kingston or Kingstonian, the name Knudsen having been understood by hail to be Kingston. Destroyers have returned and search discontinued."

The captain of one of the sunken ships said that he had hailed a passing vessel which was later destroyed and understood her name to have been given as Kingston. The Knudsen was destroyed by the submarine in the same vicinity.

The navy department today received a report from Rear Admiral Knight, at Newport, giving detailed accounts from the commanders of four of the steamers sunk by a German submarine off the New England coast. Naval officials refused to comment upon its contents and it will be transmitted to Secretary Lansing for study in connection with the determination of the policy of the United States.

ENCOUNTERED TOO MANY DISCOMFORTS LAST YEAR

Public School Teachers of City Decide Not to Go to State Meeting.

Declaring that too many discomforts were encountered last year while attending the annual meeting of the Indiana State Teachers' association at Indianapolis, the public school teachers of Fort Wayne have decided unanimously not to attend the gathering this year. This decision was announced at the meeting of the principals of the various schools held at Prof. Justin N. Study's office Wednesday afternoon.

The principals reported the vote of the teachers at each of the various schools. The state meeting will be held this year on October 26, 27 and 28.

The teachers also consider the fact in making their decision that there are too many breaks in the first semester of school and attending the state association meeting would cause another one.

Superintendent Study will arrange for any teacher who is on the program at a sectional meeting or connected with the association in any way to attend this meeting if he or she desires to do so. The schools, however, will not be closed.

PROBE REGISTRATION FRAUDS AT DETROIT

Prosecutor Contends 20,000 Names Are Illegally on the Books.

Detroit, Mich., Oct. 12.—Investigation was being continued today into alleged irregularities in the recent registration of voters here. The election commission, following a report made by Prosecuting Attorney Charles H. Janowski, has ordered a complete checking up of the 130,000 or more names written upon the latest registration books.

The prosecuting attorney who made an investigation of charges of irregularities in presenting his report expressed his belief that more than 20,000 fraudulent entries were made upon the books. With his report he handed in resignations from thirty-nine precinct officials.

John E. Kinnane, United States attorney for the eastern district of Michigan, has received permission from Washington, it is said, to supervise the November elections in Detroit, should he deem such action warranted.

DECLARES PEONS WOULD RUSH TO VILLA'S AID

Fear and Hate Bandit, But Believe U. S. Seeks Conquest.

El Paso, Texas, Oct. 12.—Notwithstanding the sufferings of peons in the district in which Villa is now operating, they would rise to a man in Villa's behalf if the American punitive expedition were to attempt to move south of its present base, according to the report made to his superiors today by a Mexican protestant missionary, who has just returned from a visit to central Mexico.

The peons, he explained, fear and hate Villa, but they have been taught to believe that the Americans would go after Villa only with the masked purpose of seizing and annexing the country. Many refugees, the missionary, reported, who come out of the interior for the United States are stopped at Chihuahua City by Carranza recruiting agents who tell about the difficulties in passing the American inspectors at El Paso and persuade the men to enlist.

PETITION ASKS SCOTT DECLARED BANKRUPT

Petition has been filed in United States district court, asking that Ross J. Scott, proprietor of the Star bowling alleys at 306 West Williams street, be adjudged a bankrupt. He is alleged to have liabilities in excess of $1,000. On Sept. 28, 1916, it is alleged, he transferred to William J. Steckbeck, a cigar manufacturer at 2217 Lafayette street and a creditor, all of his stock of merchandise with the idea of making him a preferred creditor on a claim of $336.25.

Creditors of Scott and the sums he is owing them are as follows: Heit Candy Company, $235.57; A. H. Perfect & Company, $71.99; Coony Bayer Cigar Company, $48; Mary J. Schneider, $26; Frank J. Motherwell and George H. Schmiedes, $25.90 each; Al Hazzard, $72.75, and L. F. Aumann, $52.80.

EX-KING OTTO, LONG INSANE, DEAD, REPORT

London, Oct. 12.—Former King Otto, of Bavaria, who has been insane for many years, has died suddenly, according to a Copenhagen dispatch to the Exchange Telegraph, quoting a Berlin official announcement. The mad king died at Fuerstenried castle, near Munich, where he had been confined since 1873.

King Otto was born on April 27, 1848, and succeeded his brother, Ludwig II., in 1883. Ludwig also was insane, and drowned himself in Starnberg lake. King Otto was deposed on Nov. 5, 1915, and was succeeded by the present monarch, Ludwig III., formerly regent.

HEALTH OF TROOPS BETTER.

Improvement Is Shown in Report from Mexican Border.

Washington, Oct. 12.—Health of national guard and regular army troops on the Mexican border showed an improvement for the week ending Oct. 7 over the previous week. A report made public today by the war department gave the sick of the militia as 1.31 per cent, with three deaths. The regulars reported 2.35 per cent sick, with five deaths.

RUMANIANS IN FLIGHT

With Teutonic Troops in Hot Pursuit in East Transylvania.

FRESH AUSTRIAN ARMY UNAVAILING

Cadorna's Success for the Italians Seems to Be Important One.

Today's War News Given in Summary

Gen. Cadorna's reported success in the breaking of the Austrian lines at several points southeast of Gorizia in the sudden renewal of the Italian drive toward Trieste is declared by entente correspondents at the front to have been effected in the face of strengthened Austrian lines to which fresh troops recently were sent.

Vienna in its latest statement claims that the Italians have been driven out of many trenches they had penetrated and that fighting is being continued for possession of others. The Austrians took 1,400 men of the attacking forces. Rome has reported the capture of more than 5,000 prisoners in the course of the advance.

Latest reports on the situation in Greece are that the Greek authorities have yielded to the entente demands for the turning over of virtually the entire Greek navy and the dismantling or surrender of forts on the seacoast. Control by the entente of all material for naval operations and of railroad, mail and telegraph service so as to render impossible its use to the detriment of the entente forces is reported to have been included in the demands.

A lull again seems to have set in along the Somme front in northern France following the heavy fighting of the last day or two. London reports that no incidents of moment occurred last night.

Berlin, Oct. 12.—Teutonic troops are pursuing the Rumanian forces on the whole eastern Transylvanian front, says the official statement issued today by the German army headquarters staff. The second Rumanian army, the announcement adds, has been driven back into the frontier position.

All attacks made yesterday by the Anglo-French forces against the German position on the Somme front, according to today's German official statement, were repulsed.

FIRST MONTH SHOWS INCREASE OF 334

At the close of the first month's work in the schools of the city, an increase of 334 pupils is shown in the reports submitted by the principals. This is a very large gain and school officials are pleased. A gain of nearly a hundred is expected for next month and a very large gain is expected at the beginning of the second semester's work.

The enrollment in the various public schools at the end of the first month's work is as follows: Normal, 28; high school, 926; vocational school, 108; Adams, 139; Bloomingdale, 616; Clay, 391; Franklin, 223; Hamilton, 412; Hanna, 541; Harmar, 578; Hoagland, 442; Jefferson, 449; Lakeside, 278; McCulloch, 146; Miner, 460; Nebraska, 423; Rudisill, 224; Smart, 722; South Wayne, 351, and Washington, 361. This makes a total of 7,818 pupils in the schools.

THIEVES MAKE RICH HAUL AT DRUG STORE

Meyer Brothers' Establishment at Calhoun and Wayne is Visited.

Thieves made a rich haul some time Wednesday night or early Thursday morning at the Meyer Brothers' drug store at Wayne and Calhoun streets. Between $30 and $40 in money was taken from the three cash registers, six dozen of the best fountain pens in the store, the finest safety razors and many other articles which cannot be determined until after an invoice is taken.

Entrance was gained through the rear door, which was "jimmied." The rear door is off of a small hallway from Wayne street, which is the entrance to the stairway leading upstairs. It would be very easy for thieves to "jimmy" the door without being detected and after once inside they could work without much danger of being seen from the outside on account of the high showcases.

The job was done in a manner similar to other downtown robberies within the last few weeks. The police are of the opinion that they were committed by local talent and have been conducting their investigations accordingly.

The thieves who entered the Meyer Brothers' store left no clue whereby their identity might be revealed. That they knew their business was indicated by the fact that nothing but the best was taken. For instance, the cheaper fountain pens were not disturbed. The same is true of the safety razors. They apparently had no use for the dollar kind. Many other articles are believed to have been stolen, but there is no way of telling until a thorough invoice has been taken.

The robbery was not discovered until after 9 o'clock, as the clerks opening Thursday morning were not on duty when the store was closed Wednesday night. They noticed that there was no change in the cash registers, but did not think much of it until they later discovered that the fountain pen case was empty. The police were immediately notified.

SOLICITORS COME RIGHT BACK AGAIN

Aid Given Them in No Way Aids Local Fight on Tuberculosis.

Halted by newspaper articles, which set out clearly that aid given them in no way assisted in the local war on tuberculosis, a corps of women selling literature for the benefit of a New Mexico institution, returned to Fort Wayne Thursday morning and began operating in the residential districts of the city. On previous visits, the aid was sought in stores, offices and similar places of business.

The bulletin of the National Anti-Tuberculosis league has assailed the work of the organization which these women represent, and declares they are sent into the various states to sell literature on a commission. The Anti-Tuberculosis league of Fort Wayne Thursday authorized a reiteration of the statement that the ladies are in no way connected with the local society to combat tuberculosis, and that no part of the revenues they derive from the sale of literature goes to the work in Fort Wayne.

GRAND JURY INDICTS NINETEEN VILLA MEN

Deming, N. Y., Oct. 12.—Nineteen Mexicans held by army authorities at Colonia Dublan for alleged connection with the Villa raid on Columbus, N. M., March 9, have been indicted by the Luna county grand jury, it became known today. All are charged with murder.

Because officers with the punitive expedition cannot absent themselves to attend court now, the prisoners will not be tried at this term but held at field headquarters. Seven Mexicans already have been convicted here on similar charges, six of them being hanged and the sentence of one commuted by Governor McDonald to life imprisonment.

INDIANAPOLIS HAILS WILSON

Enthusiastic Acclaim for President at Indiana Capital City.

TALKS TO FARMERS AND GOOD ROADS MEN

Trip Into Indiana Brings Wilson an Ovation at Every Point.

Indianapolis, Ind., Oct. 12.—On his second middle western trip of the campaign President Wilson came to Indianapolis today to speak to farmers and good roads advocates. He arrived here at 11:30 o'clock, facing a strenuous program which promised to keep him busy every minute until his departure at 5:45 o'clock this afternoon.

At the railroad station and along the streets he was greeted by cheering crowds.

Plans Were Non-Partisan.

The reception to the president was arranged by a non-partisan committee. Following a lunch at a hotel, however, he reviewed an automobile parade, and as he passed through the streets, stood and bowed frequently to the crowds.

Many of the buildings along the route of the parade were decorated with American flags and the windows were packed with people. A crowd was jammed in front of the hotel where the president had luncheon with Governor Ralston, of Indiana, and a group of guests. The first set speech by the president was arranged to be delivered before a good roads meeting at the state fair grounds, following the automobile parade. Another speech to a group of farmers was to follow almost immediately. At both meetings the president planned to speak extemporaneously. After the second address he was to hurry to his private car to begin his trip back to Long Branch, N. J.

Greeted Along Route.

The president was cheered by large crowds at several towns in Ohio and Indiana on the way here. He appeared first at Dayton, Ohio. When urged to appear at Richmond, he said: "I am not making speeches, but it is mighty fine to see you. It makes my heart warm to have you come out and greet me in this way," and observing that

DOES NOT BELIEVE BERLIN WILL UPHOLD

Dutch Minister Asks Explanation of Sinking of Grain Ship.

The Hague, Wednesday, Oct. 11.—(Via London, Oct. 12.)—"I cannot believe that the sinking of the Bloemersdijk will be upheld by the German government," said Minister of Foreign Affairs Louden to a representative of The Associated Press this afternoon. Minister Louden, after having received a report on the case from the envoy of the Netherlands government in Washington, was just about to dispatch a note to Berlin which in the customary diplomatic terms asked for an explanation for the sinking of this grain ship in the Atlantic off the New England coast during the German submarine operations of last Sunday.

"He said he could not explain the act other than that it was committed in a misinterpretation of orders by a hot-headed submarine commander (flagrant examples of such action he noted having occurred before) who, having ascertained that the cargo was grain and that the ship would touch at Kirkwall had sent her to the bottom without heeding the fact that the grain was consigned to the Dutch government. If Admiral von Tirpitz had been at the head of affairs in Germany it would be understandable," added the foreign minister, "but I cannot believe it of Chancellor von Bethmann-Hollweg, and I fully expect, nay, I am sure, that Germany will disavow the act of her commander and tender reparation for this absolutely unjustifiable act."

Boston, Oct. 12.—The Boston Americans are again the world's baseball champions.

Before 42,620 persons, the largest crowd that ever witnessed a contest for the highest honors in baseball, the American league champions defeated the Brooklyn Nationals this afternoon by a score of 4 to 1 in the game that decided the world's series.

Ernest Shore, Boston's big righthander held the national league pennant winners to three hits, one a scratch.

The Bostons peppered Pfeffer when runners were on the bags waiting to score.

Of the five games necessary to decide the present pennant race, Boston won the first, second, fourth and fifth games, while Brooklyn captured the third contest.

The National commission announced the following figures for today's game: Attendance, 42,620; receipts, $83,873; each club's share, $37,742.85; National commission's share, $8,287.30.

Announcement of the batteries sent Pfeffer and Meyers into the points for Brooklyn, with Shore and Cady for Boston. The fielding of both teams in practice was snappy and brisk.

The outfield stands were jammed to capacity, and it looked as though a new attendance record would be set for a world series game. The air was crisp and clear, but south winds had tempered somewhat the chill of the earlier hours of the day.

PLAN SKAT TOURNAMENT.

The first skat tournament as planned by a committee of the Turners will be given on Sunday, Oct. 29. This date was chosen at a meeting held Wednesday evening. The classes at Turners have a fair membership and everything points to a successful year. Thirteen members were admitted Wednesday evening.

TODAY'S GAME PLAY BY PLAY.

FIRST INNING.

Brooklyn—Myers up; strike 1; strike 2; Shore brought two out curves over the plate for straight strikes; Myers fanned on three pitched balls without offering at any of them. Daubert up; ball 1; strike 1; ball 2; foul strike 2; Cady threw out Daubert at first taking his easy roller in front of the plate and throwing him out. Stengel up; ball 1; ball 2; Scott took Stengel's grounder and threw wildly to first, Stengel, however was held at first. Wheat up; ball 1; Wheat fouled out to Hoblitzell. No runs, no hits, 1 error.

Boston—Hooper up; strike; foul strike 2; ball 1; ball 2; ball 3; Cutshall threw out Hooper after the count was 3 and 2. Janverin up; ball 1; strike 1; Mowrey threw out Janverin. Shorten up; ball 1; ball 2; strike 1; Shorten flied to Wheat. No runs, no hits, no errors.

SECOND INNING.

Brooklyn—Cutshaw up. Ball 1; ball 2; ball 3; Cutshaw walked on four straight balls. Mowrey up. Mowrey sacrificed, Hoblitzell to Shore, Cutshaw moving to second. Olson up. Gardner threw out Olson at first, Cutshaw reaching third. Meyers up. Ball 1; Cutshaw scored on a passed ball; strike 1; ball 2; Scott threw out Meyers at first. One run, no hits, no errors

Boston—Hoblitzell up. Ball 1; ball 2; strike 1; foul strike 2; ball 3; Pfeffer threw out Hoblitzell. Lewis up. Strike 1; strike 2; ball 1; Lewis shot the ball to the left field fence for a three base hit. Wheat played the ball badly ond it bounded over his head. Gardner up. Lewis scored on Gardner's sacrifice fly to Wheat. Wheat's throw to the plate was very wide. Scott up. Scott sent up a high foul to Mowrey, who dropped the ball. Foul strike 1; strike 2; foul; Scott got a foul out to Meyers. One run, 1 hit and one error.

THIRD INNING.

Brooklyn—Pfeffer up. Ball 1; strike 1; foul strike 2; Pfeffer struck out, missing a fadeaway by a foot. Myers up. Gardner took Myers' easy roller and threw him out. Daubert up. Shore took Daubert's grounder and nailed him at first. No runs, no hits, no errors.

Boston—Cady up. Cady singled over Daubert's head. Shore up. Foul strike 1; ball 1; Meyers almost picked Cady off first having called for a pitchout. Shore fouled to Meyers trying to bunt. Hooper up. Ball 1; ball 2; ball 3; Hooper walked, Cady goink to second. Janverin up. Strike 1; foul strike 2; ball 1; Cady scored when Olson fumbled Janverin's grounder and then threw wildly past Cutshaw. Hooper went from first to third on the play. Janverin was safe at first. Olson got two errors on this play. Shorten up; strike 1; strike 2; ball 1; Janverin was out stealing, Meyers to Olson. Ball 2; Hooper scored on Shorten's blazing single to center. Hoblitzell up. Strike 1; foul strike 2; foul. Shorten out stealing, Meyers to Olson. Two runs, two hits, two errors.

FOURTH INNING.

Brooklyn—Stengel up. Ball 1; strike 1; Stengel sent up a lofty fly to Shorten. Wheat up. Strike 1; strike 2; ball 1; Wheat struck out. Cutshaw up. Ball 1; strike 1. Shore took Cutshaw's weak tap and threw him out. Shore was pitching a superb game, not a hit being made off him in the first four innings. No runs, no hits, no errors.

Boston—Hoblitzell up. Ball 1; ball 2; ball 3; Hoblitzell walked, Pfeffer pitching four straight balls. Lewis up. Lewis sacrificed, Daubert to Cutshaw, Hoblitzell going to second. Gardner up. Ball 1; foul strike 1; Cutshaw threw out Gardner, Hoblitzell going to third. Scott up. Strike 1; Olson threw out Scott. No runs, no hits, no errors.

NATIONAL BODY IS WATCHING FT. WAYNE

Work for City Planning Now Going on is Attracting Much Attention.

(By Mrs. John E. Lathrop.)
(Special to the Sentinel.)

Providence, R. I., Oct. 12.—The Indiana city planning tour of the State Real Estate association, the city planning exhibition in Fort Wayne, and the movement for the passage of laws there this winter for modern city planning and modern housing received immense attention here at the annual conference of the National Housing association.

The conference was really a great gathering. Here were representatives of all phases of housing science, men and women who lead along that and other lines of civic action in the United States. I wonder if the people of Fort Wayne and Indiana realize the character of the publicity which has been given to them through this channel. The brilliancy of the plan—to create a statewide movement towards the best of latter-day thought for a whole commonwealth—and the energy and thoroughness of its execution caught the imagination of this body.

Indiana and especially Fort Wayne are much in the eye of these people here. Of all the projects for progress in this character of recent years, that one out there certainly takes the lead. Many persons who attended the conference expressed the desire to get into touch with the people who are engineering it. I congratulate you Indianans on the results already achieved. It should be a better Indiana when this work has been carried to its present conclusion; and it appears to be certain that the work will be continuous through the years.

The feature of the Indiana plans which seemed most to impress the delegates was the idea of keeping at it for a stated period; of "carrying through," as the golfers put it. "There will be no slicing or pulling in that game," was the way one delegate phrased it, after hearing of the plans.

KOKOMO PLANS WELCOME.

City Planning Tourists Will Be Given Royal Reception There.

(By F. D. Miller.)
(Special to The Sentinel.)

Kokomo, Ind., Oct. 12.—The city planning enthusiasts here are awaiting the coming of the city planning tourists of the State Real Estate association, who are due soon from Gary. We purpose to give them a royal welcome, and turn over the town to whatever use they care to make of it.

Word came on from Gary, Hammond and Michigan City that yesterday's meetings were immense successes. Kokomo does not expect to permit those towns to get anything on it in the matter of throwing itself into the procession, and getting into line for the support of city planning laws this winter at the legislature in Indianapolis. Wait for our report after the meeting here today. It will be a humdinger.

FEW OF 'EM "SANITARY."

West Virginia Food Men Must Not Use Word in Advertising.

Charleston, W. Va., Oct. 12.—The word "sanitary" as applied to food distributing agencies and producing plants is a misnomer and its use in such connection is a violation of the state law relating to fraudulent advertising, according to a ruling by the state board of health made public today. The department declares there is hardly a food or plant in the country that is truly sanitary. Prosecution of those using the word is urged by the state board.

SPECULATION RIFE OVER GERARD'S RETURN.

The arrival of James W. Gerard, United States ambassador to Berlin, and Mrs. Gerard, shown here, has begun speculation as to the reasons for his departure from Germany. Gerard has denied he bears any peace overtures. The bouquet Mrs. Gerard is shown carrying was presented to her by a reception committee of prominent city, state and national officials.

MISSIONARY FROM PHILIPPINES HERE

Rt. Rev. Joseph Hurth, C. S. C., bishop of Neuva Segovia, Philippine islands, spent Wednesday in Fort Wayne as the guest of Rt. Rev. Bishop Herman J. Alerding and the brothers of the Holy Cross. He is a member of the latter order, and visited the Central Catholic high school Wednesday morning. He spoke to the student body and encouraged them in their duties. Bishop Hurth was for many years bishop of the diocese at Dacca, India. He has a long and interesting apostolic career in the missionary field. He visited Fort Wayne in the interest of his work in the Philippines.

ATTENDED DAM MEETING.

City Planner Consents to Go Over River Project Plans.

At a meeting held Wednesday night of those interested in the St. Joe dam improvement project John E. Lathrop, director of Fort Wayne's city planning show, consented to go over the plans with the understanding that the engineers would have to pass finally on the practicability of the enterprise. "As to the desirability of the improvement there is no doubt," declared Mr. Lathrop. The improvement calls for a dam in the St. Joe river and a recreation park north of the city.

"Fort Wayne is just at its point of development where provision for the play of the people should be made," said the city planner. "That play is as much of an economic and industrial necessity as a mere matter of having fun," the city planner said. "Citizens could not have a healthy, productive, efficient community without play centers.

"I suggest the reservation of long stretches along the river banks for camping spots for boys and also for families, who could go there for a week-end outing. Such a feature is one of the most attractive things in the scheme of the development of the great Palisade park across from New York city in New York, and New Jersey. It would be great for boy scouts and other boys who should be taught how to make campfires, cook food, make themselves comfortable in the open, and most important, camp without dangers from fires which destroy timber and other property. The river banks should belong to the people. They should not be owned by individuals. They should be public parks. In that respect this country is backward. Our river banks are usually a disgrace. They should be clean, attractive play places for all."

SPEAKS AT DECATUR.

R. E. Peters Urges Voters to Stand by the President.

"There is a peculiar responsibility resting upon the shoulders of every American citizen in this campaign," declared R. E. Peters, of this city, secretary to Congressman Cyrus Cline, in an address Wednesday evening to more than two hundred voters at the democratic headquarters in Decatur. "We must determine by our ballots in November whether we shall continue to have a government administered in the interest of all the people or whether we shall go back to the days when the people's government was but an instrument through which representatives of pillage and greed promoted their private interest.

"Woodrow Wilson and the democratic party stand for the things in which the young men are vitally interested," Mr. Peters continued. "They stand for human justice, social equality, industrial freedom and peace with honor. I believe the young men will join the hosts of patriotic American citizens who intend to re-elect President Wilson by a decisive majority."

Harry H. Hilgemann, formerly prosecuting attorney of Allen county, and Walter Stump, of Auburn, were the principal speakers Wednesday night at a meeting held at Spencerville under the auspices of the Young Men's Democratic league.

RUMANIANS IN FLIGHT

spondent on the Italian front as outlining the work of the artillery. The correspondent states:

"I followed the battle yesterday morning from a central point between Novavas and Villanova. It was a fantastic fight. The Austrian trenches were converted into heaps of rubbish by the big shells which shot columns of smoke and dust 300 feet into the air. At 10:30 reports came that though the trenches and barbed wire entanglements had been wiped out, the enemy were hidden in caves awaiting the infantry attack. The artillery opened a fresh fire on the second and third Austrian lines, the bombardment reaching its climax at 10:30. A colleague who was present in several wars declared he had never seen such a spectacle of destruction.

"The infantry attacked at 2:50 with splendid dash and the triangular redoubt and fortino fell after a desperate struggle. The enemy went down everywhere before the Italians, notwithstanding a stubborn resistance. After a few hours' fighting at Novavas a thousand prisoners were taken, among whom all Austrian nationalities were represented. We obtained proof that far from withdrawing troops, the Austrians had sent several fresh battalions to aid the battered defenders."

CALLS IT UNEVENTFUL.

London, Oct. 12.—An uneventful night along the British lines in the Somme region is reported in today's official statement on military operations. It adds that "during the night five raids were undertaken by us in the Messines, Bois Grenier and Haisnes areas, in the course of which we took prisoners and inflicted casualties on the enemy.

Gen. Zimbrakatis has been appointed minister of war in the Greek provisional government, organization of which is being completed at Saloniki, says a Reuter dispatch from Saloniki, under date of Oct. 11. The seat of the government, it is stated, is undecided, but is believed it will be Mytilene.

A Reuter dispatch from Christiana announces the sinking of the Norwegian steamer Birk, of 715 tons. The crew was saved.

steamships flying the flags of the entente allies are awaiting advices from agents of those governments as to whether it is safe to leave this port for Europe in view of the possible danger from the German submarine U-53.

Among them are the White Star line steamer Adriatic, due to leave today with about 250 passengers and nearly 18,000 tons of cargo, most of which is said to be war material. The Atlantic Transport line steamer Minnehaha is loading 14,000 tons of cargo also said to be war munitions, and the Cunard line steamer Pannonia is understood to be ready to sail for London carrying freight only. The others were smaller freight vessels most of which are loaded and lying in Gravesend Bay waiting for a favorable opportunity to get away.

Officials of the White Star line declared the Adriatic would leave at noon for Liverpool, notwithstanding a previous announcement that her departure would be postponed indefinitely. They denied she would be convoyed by an entente war vessel.

No information of further activities of the U-53 had been received here early today.

Indications that an American naval patrol has been placed along the north Atlantic coast was given today when Captain McDonald, of the steamship Munamar, in from Cuban ports, reported that off the Jersey coast at 6 this morning an American destroyer dashed up through the mists and circled his ship several times. Captain McDonald said that he broke out the national colors and the destroyer immediately headed northeast, soon disappearing.

CADESSIA GROTTO TO GIVE MASQUERADE

Social Event of Interest is Scheduled for Evening of October 25.

Cadessia Grotto lodge, No. 50, M. O. V. P. E. R., has set a pace for preparations for a Hallowe'en masquerade dance. It has the honor of being the first organization which has announced its plans for that evening. The affair which promises to have everything else "faded," will be given on Wednesday evening, October 25. Plans were discussed at the regular meeting, Wednesday evening. A committee has been appointed and is composed of Earl Tract, Pete Standish and Clarence cavish. The place has not been selected but every prophet will be notified in plenty of time.

The next event on the lodge's calendar will come off on November 27. This is the date for the annual ceremonial at which time the fall class of candidates will be initiated. Officers of the organization state that there will be at least seventy-five new members taken in on this date.

INDIANAPOLIS HAILS WILSON

(Continued From Page 1.)

most of his hearers were working men, added, "I am a hard working man, myself."

Band Was Too Late.

At Greenfield, Ind., a band came hurrying down a street just as the president's train pulled out. It did not have time to play. Mr. Wilson shook hands with people as rapidly as possible and waived to them as the train left.

On his arrival here Mr. Wilson was escorted by a band and a guard of mounted police during his ride from the railroad station to the hotel. The sidewalks were lined with people and as the hotel was neared the handclapping and applause grew in volume. The reception committee which met the president was headed by Governor Ralston of Indiana.

Across the street at several points were banners praising the president for keeping the country at peace. Following his arrival at the hotel the president and Mrs. Wilson were immediately escorted to a suite of rooms. A special committee received Mrs. Wilson.

The automobile parade was to be started by the booming of cannon immediately after the luncheon given by Governor Ralston in honor of the president. Governor Ralston was selected chairman of the fair grounds meeting.

ON WAY THROUGH OHIO.

On Board President Wilson's Special, Columbus, O., Oct. 12.—President Wilson passed through Ohio today on his way to Indianapolis on his second middle western trip of the campaign. Although the two speeches the president is due to make in Indianapolis are classed as non-partisan by his advisers, his visit to Ohio and Indiana today was considered a political event. The president passed through Columbus early this morning. He has turned down invitations to speak at several places enroute to and from Indianapolis, but planned to appear on the observation platform of his private car at each stop to shake hands with people.

Commission Is Named.

On board his train last night President Wilson announced the appointment of members of the advisory commission, to be associated with the Council of National Defense, created by congress at the last session. At the same time he gave out a statement saying he hoped the council will "become a rallying point for civic bodies working for the national defense."

The seven members of the new advisory commission named by the president last night are Daniel Willard, president of the Baltimore & Ohio railroad; Samuel Gompers, president of the American Federation of Labor; Dr. Franklin S. Martin, of Chicago; Howard E. Coffin, of Detroit; Bernard Baruch, of New York; Dr. Hollis Godfrey, of Philadelphia, and Julius Rosenwald, of Chicago.

CHEERED BY THRONGS.

On Board President Wilson's Special, Richmond, Ind., Oct. 12.—President Wilson was greeted by crowds of cheering people at Dayton, C., and Richmond, Ind., as he passed through this morning enroute to Indianapolis. He refused to make political speeches, but at Dayton declared it did his heart good to receive such welcomes.

Leaning over the observation platform of his private car at Dayton the president was almost mobbed by a good-natured crowd of several thousand people who sought to shake hands with him. Something like four or five people had hold of each of his hands at one time. In the shouts from the crowd the railway eight-hour law was most frequently mentioned. The president made the trip on a private car attached to a regular train. With him were Mrs. Wilson, Secretary Tumulty and Dr. Cary Greyson, the white house physician.

The train to which the president's car was attached backed into a crowd at Richmond and several persons nearly were caught under the president's car. John Q. Slye, a secret service man, pulled one woman out of the way just in time.

INDIANA MAN IS CHOSEN.

D. C. Peyton New President American Prison Association.

Buffalo, N. Y., Oct. 12.—D. C. Peyton superintendent of the Indiana reformatory at Jeffersonville, Ind., was elected president; Joseph P. Byers, of Philadelphia, was elected general secretary of the American prison association which ended its annual congress here today. Next year's meeting will be held at New Orleans.

REALTY MEN AT KOKOMO.

Kokomo, Ind., Oct. 12.—The real estate men touring the state in the interests of better city planning were guests of the Kokomo real estate board at a luncheon today. They spent last night at Gary, where a number of addresses were given. Short talks were made here. The party will be in Lafayette tonight.

THE STORE THAT DOES THINGS

REMODELING COMPLETE; PARIS HAS AN OPENING

Remodeling and altering the store building of The Paris has been completed and beginning Thursday morning the store will have a three days' formal opening. This new store which deals in ladies' ready-to-wear and millinery goods, is now one of the most attractive appearing stores in the city.

Special attention will be given to all visitors during the next three days. Every lady in Fort Wayne and vicinity is cordially invited to visit the store.

There is no need of climbing stairways after entering the building as an electric elevator will convey anyone to any of the three floors. The large and attractive show window contains the sample of goods which will be found inside the store.

AID WILLING WORKERS' SOCIETY

Jefferson Movies Give Benefit Matinee for Children on Friday.

The remarkable pictures of Fort Wayne's pageant are to be shown at the Jefferson theatre Thursday and Friday, with a special matinee for school children on Friday afternoon, the Willing Workers' Aid society to be the beneficiary. The aid society needs funds to complete the furnishings for its new home, needs them badly. The kindness of the Jefferson management in donating receipts is greatly appreciated, and if the crowd is a big one, the society will have something to its advantage.

WHITE DOVE IS PRISONER.

Feathered Visitor Bears Band With Inscription "U-53."

Edgewater, N. J., Oct. 12.—Police are holding prisoner a white dove with a band of yellow metal on its leg bearing the inscription "U-53," the number of the German submarine which made its memorable raid off Nantucket last Sunday. The dove fluttered in the window of a business office here yesterday. Its captors do not know whence it came.

OLD RAM TO BE TARGET.

Dreadnaughts Will Test Rifles by Firing at Katahdin.

Norfolk, Va., Oct. 12.—To test their fourteen-inch rifles against the navy's latest armor plate, the dreadnaughts Pennsylvania, Nevada and Oklahoma will shoot in a few days at the hull of the ram Katahdin, which has just been covered with new armor. The Katahdin rests on the bottom of the Chesapeake, near the mouth of the Rappahannock.

CITY STREETS MUCH LIKE AN ARMED CAMP

Bayonne, N. J., Oct. 12.—The streets approaching the Constable Hook section of this city resembled today an armed camp. Thousands of strikers from the plants of the Standard Oil company, Tidewater Oil company, Vacuum Oil company, Pacific Coast Borax company and the General Chemical company maintained a "dead-line" across the approaches to those plants. Inside this line, between the strikers and the oil plants nearly 100 policemen were stationed in a fire engine house guarding the plants from attack while a fe wother policemen and seventy-five deputy sheriffs held possession of the main police headquarters.

There were no signs of a cessation of the labor war which caused the clash yesterday of police and strikers in which one woman spectator was shot and killed and fifteen or twenty strikers were wounded. This fight took place, according to the police, when the strikers interferred with the firemen attempting to fight a blaze and cut the hose. About 12,000 men have quit work in various plants at Constable Hook and virtually have besieged the police.

ANNUAL BANQUET.

Will Be Given by Sunday School of Third Presbyterian Church Oct. 12.

Annually the Sunday school of the Third Presbyterian church gives a banquet. The event this year will be given at the church Thursday evening, October 12. Two hundred people have already signified their intentions of being present and undoubtedly there will be a far larger number in attendance.

Rev. Mahlon C. Tunison, pastor of the South Wayne Baptist church, will be the principal speaker at the occasion. An interesting program consisting of literary and musical numbers will be rendered. Several local speakers have also been asked to be present and a general good time is in store for all.

The church is still without a pastor but it is expected that a new man will be selected within a few weeks.

Columbus

by Charles R. Driscoll

In jumper, cap and overalls
He trudged his weary way,
From wealthy man to statehouse halls,
And back again, each day.

He talked about a world unfound,
A continent unseen,
And wise men said, "His feet are sound;
The trouble's in his bean!"

The papers called him "Nutty Chris"
Upon the comic page,
The school kids used to hoot and hiss;
They mocked him on the stage.

One day he borrowed someone's coat
And went to see the queen.
He said, "I want a leaky boat,
You gather what I mean!"

Columbus thought a continent,
While other men thought dimes,
And so his name resounding went
Throughout all states and times.

He dreamed a dream so grand and vast
Men scoffed—they always do—
Then while the scoffers stood aghast,
He made his dream come true!

OSSIAN NEWS

Ossian, Ind., Oct. 12.—Mrs. Charles F. Goshorn left last evening for Huntington to spend the remainder of this week in the home of Dr. and Mrs. M. W. Strauss.

Miss Gay Bunn is expected home this week. She has been visiting for the past month with her uncle, David Bunn, and wife, of Akron, O., and with her aunt, Mrs. Jennie Galehouse, of Doylstown, O.

Robert Baker, youngest son of Rev. and Mrs. Frank K. Baker, fell from a high wagon the other day while playing on it at the end of their yard and broke his collar bone near the left shoulder.

The M. E. Sunday school, under the management of E. H. Roe, their superintendent, is making great preparations for a big rally day service on next Sunday morning. The exercises will begin at 9:30 and they have set their mark for an attendance of five hundred. As an introduction to this meeting a general canvass of the town and country will be made Friday afternoon by about eighteen teams, going two together, and inviting all those interested in Methodism to attend their rally. F. M. Price, of Fort Wayne, will make the address Sunday morning. Mr. Price is president of the Men's Civic League of Fort Wayne and is also superintendent of the Hoagland city school. He comes highly recommended as a fine speaker. Special music will be furnished by a colored male quartet, of Wren, O., known as the "Golden Gate" quartet. The church decorations, which are to be elaborate, will be in charge of Mrs. Carl Wilson and her class, the Daphne Girls.

The Pleasant Word circle had a very good meeting Tuesday evening at the home of Mrs. Fred Vananda. Mrs. Walker Roe conducted the devotional exercises. The program consisted of recitations and piano music. The hostess served a nice lunch. Those present were Mesdames Hazel Mahnensmith, Emma Vananda, Harley Osborn, Homer Goshorn, Ada Henline, Hattie Parkinson, Edna Koons, Bertha Hoover, Dessie Swaim, Lillian Henline, Effie Roe, Minor Hoover, Hazel Wilson, Margaret Kellogg, Carrie Melching, Bessie Richey, Stella White, Bessie Cotton, J. O. Powell, Maude Miller, James Crabill, Maude Swihart, Orin McMullen, her sister, Miss Adah Hammond, and Miss Lucile Davis. The meeting next month will be with Mrs. Will Cotton.

Mr. and Mrs. J. G. Stirling and Mr. and Mrs. E. H. Roe visited the first of the week with Mr. and Mrs. Frank Huebler, of Hoagland.

Miss Lois Dragoo and her mother, Mrs. Dragoo, of Fort Wayne, visited the first of this week in the home of Mr. and Mrs. Harry Bunn. Miss Dragoo was a school friend of Miss Jennie Bunn.

The Twilight club and the King's Daughters of the Hebron Sunday school will hold a box social at the Caston schoolhouse Friday evening. Each young lady who attends is expected to take with her a box.

The local W. C. T. U. met Wednesday afternoon at the home of Mrs. T. A. Doan. Their state convention will be held at Huntington on Friday.

Mrs. Ellen Gibson, Mrs. Samuel Hughes, Mrs. L. F. Chalfant and Mrs. Sarah McBride spent yesterday visiting with Mrs. Theodore Crowl at her country home south of Ossian.

Miss Adah Hammond, who has been working at Van Wert, O., for the past few weeks, came Tuesday evening for a short visit with her sister, Mrs. Orin McMullen.

Mrs. L. F. Wilson was hostess for the Sargasso club Tuesday evening. For roll call the ladies told about some college. Papers were read on the French school by Miss Allen; the Dutch school, Mrs. Rector, and the Scandinavian school, Mrs. Poffenberger. "The Development of Schools in Indiana" was discussed during the conversational hour. A nice two-course lunch was served by Mrs. Wilson. Those attending were Mesdames Charles Clark, E. D. Poffenberger, S. L. Gorrell, D. C. Wybourn Charles Weirich, W. W. Hoopengardner, C. G. Pepe, W. W. Fryback, F. M Rector and Misses Nan Johnston and Jennie Allen. Mrs. C. A. Hostetter and Mrs. King, of Poe, were guests. Mrs. Fryback will be hostess for their next meeting.

Clem R. Hartman, superintendent of the M. E. Sunday school at New Haven, was in Ossian Sunday to see the Ossian M. E. school.

Mrs. S. L. Gorrell will entertain her Sunday school class, the Olive Branch, on Friday evening at their yearly social function.

Mrs. Genevieve Beaty Bloom, of Spokane, Wash., came to Ossian from Fort Wayne Monday to spend this week with her father, C. A. Beaty, and family. Mrs. Bloom recently recovered from an operation for appendicitis and has since been visiting with her husband's people in Fort Wayne.

Stanley Allen returned today from a hunting trip in northern Michigan. He went with some friends from Auburn.

The U. B. church ladies are serving a chicken supper in the Presbyterian church basement this evening.

Mrs. L. B. Hissem was called to South Whitley Tuesday on account of the critical illness of her mother, Mrs. Sarah Overhaultzer, who had recently suffered two strokes.

Henry Herbst has resigned his position as clerk for G. G. Koons in the interurban grocery. He left yesterday for Ashley, where he has accepted a similar position. His family will move to Ashley this week.

The Daphne Girls are to hold a banquet in the M. E. church this evening. The guests of honor will be Rev. and Mrs. J. O. Powell, Mr. and Mrs. E. H. Roe and Mr and Mrs. Minor Hoover—these gentlemen motored the girls to the park last summer and thus they are showing their appreciation. Each lady may also invite a young man. An interesting program, a social time and a good supper are promised.

Miss Marjory Nill entertained the E. T. C. club Tuesday evening in a very pleasing way.

The Rev. Dr. Lea Luquer, age 80, has been the rector of St. Matthew's church in Bedford, N. Y., fifty years. He went there immediately after he was ordained in 1866.

IF KIDNEYS AND BLADDER BOTHER

Take Salts to flush Kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.—Advertisement.

SUCCUMBS TO INJURIES SUFFERED IN SMASH-UP

Steve Shaw, a Farmer of Whitley County, Dies at Hospital.

Steve Shaw, the Whitley county farmer who was injured Sunday in an automobile accident near Arcola, died Wednesday night at the St. Joseph's hospital. He was fifty-two years of age and was a member of the Fort Wayne lodge of Elks and was well known in Fort Wayne. Mr. Shaw died as the result of injuries which he suffered in the smash-up Sunday afternoon.

Shaw, with his son, Thomas, and Fred Hendricks, and two other friends, had been to Fort Wayne and were returning to Columbia City by the way of Arcola. While making a turn in a road the machine went into the ditch and Shaw was hurled from the rear seat through the wind shield and struck a telephone post. His friends, seeing his condition, left the man lie at the side of the road and in full speed went to Columbia City to summon aid.

Shortly afterward Jack Morley, a Fort Wayne motorcyclist, passed the spot and seeing the injured man, took him to Arcola, where aid was summoned from Fort Wayne. He was brought to St. Joseph's hospital, where it was found that his injuries consisted of a broken leg, a broken arm, several broken ribs, one of which had punctured his left lung.

Coroner J. E. McArdle was called Wednesday evening and he will conduct a thorough investigation of the affair.

DAMAGES ARE DENIED.

Warsaw, Ind., Oct. 12.—After being out for six hours, during which time they answered a number of interrogations, the jury returned a verdict for the defendant in the suit of Fred O'Connor against Ralph Gunter, for damages. O'Connor demanded $3,500 damages for injuries received when he fell through a hole in a corn crib floor while in the employ of the defendant.

No More Backache for Her.

Mrs. J. M. Gaskill, Etna Green, Ind., writes: "I suffered from severe backache and sharp pains shooting through my back until I could not stoop over and get up without aid. Urinary trouble seemed to be the cause of it all. A single box of Foley Kidney Pills gave me such relief that I cannot praise them too highly." This standard remedy for kidney and bladder ailments can be taken with safety for backache, swollen ankles and rheumatic pains. Dreier Drug Co.—Advertisement.

DAILY BIBLE READINGS FOR THE HOME

Romans 8:1-14.

1 There is therefore now no condemnation to them which are in Christ Jesus, who walk not after the flesh, but after the Spirit.

2 For the law of the Spirit of life in Christ Jesus hath made me free from the law of sin and death.

3 For what the law could not do, in that it was weak through the flesh, God sending his own Son in the likeness of sinful flesh, and for sin, condemned sin in the flesh:

4 That the righteousness of the law might be fulfilled in us, who walk not after the flesh, but after the Spirit.

5 For they that are after the flesh do mind the things of the flesh; but they that are after the Spirit, the things of the Spirit.

6 For to be carnally minded is death; but to be spiritually minded is life and peace.

7 Because the carnal mind is enmity against God: for it is not subject to the law of God, neither indeed can be.

8 So then they that are in the flesh cannot please God.

9 But ye are not in the flesh, but in the Spirit, if so be that the Spirit of God dwell in you. Now if any man have not the Spirit of Christ, he is none of his.

10 And if Christ be in you, the body is dead because of sin; but the Spirit is life because of righteousness.

11 But if the Spirit of him that raised up Jesus from the dead dwell in you, he that raised up Christ from the dead shall also quicken your mortal bodies by his Spirit that dwelleth in you.

12 Therefore, brethren, we are debtors, not to the flesh, to live after the flesh.

13 For if ye live after the flesh, ye shall die: but if ye through the Spirit do mortify the deeds of the body, ye shall live.

14 For as many as are led by the Spirit of God, they are the sons of God.

Where Do You Want the Change

Republican speakers and republican newspapers, urging the cause of Mr. Hughes in frantic fashion during these closing weeks of the campaign, declare there is need of a radical change in governmental affairs, and that, therefore, President Wilson should be supplanted in the white house by Mr. Hughes, and that the democratic congress which has given the nation a record of progressive legislation that towers far above the achievement of any previous congress, should be ousted. One can understand the natural desire of those who are out to get in, and the personal equation that appears in the case as the inspiration of many of the complainants is quite immaterial. To the people at large, however, it is vital to consider just where the change is desirable and what the consequences of the proposed change are likely to be. Let us look at the situation a bit.

President Wilson has succeeded in keeping us out of the embroilment of the European war. Do you want a change from the present state of peace?

President Wilson has held out steadfastly against armed intervention in Mexico. Do you want the alternative to this?

The administration has given us tariff revision for which the entire country was insistent in its demand; it has given us the federal reserve banking law; it has given us the rural credits law; it has created a tariff commission; it has enacted laws for preparedness for national defense and the president is supplementing these by the appointment of expert advisory boards for the army, the navy and the industrial phases of national defense; it has provided federal aid for good roads and in addition has put into law many other modern conceptions of progressive government. The country is admittedly prosperous.

Where do you want the change? How much of the superb legislative structure erected in the past four years do you want wrecked? What would you have undone—and, what is fully as important, what would you have in its stead? None of the professional supporters of President Wilson's opposition have been able to give answers that will stand the acid test. The voter should make his own analysis. He will not be cajoled or harassed into voting for a change until he is satisfied he is going to get something better, and most assuredly there has been nothing like that offered up to the present moment.

The Chicago citizens' committee, after an investigation of vice conditions there covering a period of three months, has submitted a report in which the conclusion is reached that the presence of vice indicates a corrupt police force, and that "without police collusion organized vice could not thrive as it does in Chicago." Perhaps it may be true, too, but in fairness it should be stated that in placing entire blame for bad conditions on the police, no investigation is going deep enough to reach the real cause. The police, as a rule, are rather human sort of fellows. They are carrying out orders or at least are attempting to follow a course they believe will make their jobs secure, and placing to the best of their ability their own interpretation on directions often delivered with a wink. Back of the police are other authorities, and still back of them are the people themselves who cannot hope to escape responsibility. It will be noted as a usual thing the people get either the sort of government they want or the sort they are willing to tolerate rather than take the trouble to insist on something better.

More than 26,000 allowances of increased pensions to soldiers' widows have already been made under the new law passed but a few weeks ago, and further allowances are being made at the rate of 2,000 per day. Yet there was a time not so many years ago when the republican party set up the claim to being the only real friend of the soldier. The Wilson administration throughout has shown a fine and wholly deserved consideration for the soldier and for those whom he left dependent.

Senator Taggart, in a statement to the western democratic national headquarters at Chicago, declares that Indiana will give Wilson and Marshall a substantial plurality next month. And it may be remarked in passing that there are few more accurate political forecasters in this country than Mr. Taggart.

That Whitley county republican, 97 years of age, who voted for Zachary Taylor and has cast his ballot for every republican nominee since the organization of the party, but who this year announces his intention of voting for Wilson, demonstrates once more that it's never too late to mend.

And it might as well be admitted that those Indianapolis fellows have a bit of edge on Fort Wayne when it comes to picking weather in which to hold a centennial celebration.

Yes, sir; that was a mighty fine country Mr. C. Columbus discovered when he landed some 434 years ago today.

The Big Return

THE NEWEST FASHION IN CRIME.

(Toledo Blade.)

It is somewhat curious that this country which has a store of traditions and legends about highwaymen and stage-coach robbers should be one of the last to have to deal with the automobile hold-up.

But so it is. The thief who specializes on night traveling motor cars was known to England years ago. In Germany he became so common and developed such vicious disregard for human life that devices were invented to break or cut or otherwise render futile the ropes which the robbers stretched across the roads for the purpose of wrecking machines. In some of the war photographs these contrivances can be seen. They have been adopted by the military for operating cars in territory beset by spies or containing a population unfriendly to the army in occupation.

Yet, though the American thief lags behind in this matter, he is no less ruthless, no less daring, than his brethren across the Atlantic. There have recently been a number of automobile hold-ups of a particularly atrocious kind. In Illinois, a gang that preyed upon motorists and had no compunctions about using firearms for more than threatening, was found to be made up of boys in their teens. The New Jersey hold-up in which one rider was killed and another wounded, was also, it is supposed, to have been planned by amateurs. In both cases, the highwaymen betrayed that they were as ready to do murder as robbery.

As in the instance of other crimes of recent development, the country is likely to be afflicted with an epidemic of automobile stick-ups. The underworld, too, has its fashions. A number of promising young bandits may have to be put at hard labor before there is an end to the business.

Used it Eleven Years.

There is one remedy that for many years has given relief from coughs, colds, croup and whooping cough. It is probably the best known family cough medicine in the world and because it contains no opiates is strongly recommended for children as well as adults. Mrs. Chas. Rietz, Allen Mills, Pa., writes: "I have used Foley's Honey and Tar for eleven years and I would not be without it." It promptly relieves hoarseness, tickling throat, bronchial coughs, inflamed and congested membranes and permits refreshing sleep.—Advertisement.

MEETS COLORED WOMEN.

Delegation of Colored Residents Seek City Planner on Housing Conditions.

John E. Lathrop, director of the Fort Wayne's city planning show, met Mrs. Sadie D. Harrison, social worker among the colored residents, and other colored residents Wednesday to discuss the difficulty with which colored residents are finding suitable quarters in which to live.

Mrs. Harrison declared the increase in colored population was rapid and that many more were being brought from Mississippi and other states, making the problem serious. She said many of the colored people were crowded six in a room. "It is not because they want to live there, but because they cannot find other homes," said Mrs. Harrison.

Members of the Women's League club will do what they can to improve conditions.

FALLS DOWN STAIRS.

Mrs. Alsinas Fickes, Weighing 300 Pounds, is Seriously Injured.

Waterloo, Ind., Oct. 12.—A fall down stairs Tuesday afternoon proved very painful to Mrs. Alsinas Fickes, who had both her arms broken just above the wrists.

Mrs. Fickes, who is a heavy woman, weighing nearly 300 pounds, had gone upstairs for something and when at the top she became dizzy and fell to the bottom and was knocked senseless.

Two ladies who were helping her in some work, secured assistance and it required six men to pick her up and care for her. Mrs. Fickes is a sister of Mrs. Fred Mohr, of Auburn, who with her husband were at the Fickes home Tuesday evening.

They found Mrs. Fickes suffering a great deal of pain, but reports from her bedside Wednesday were that she was resting easily.

POISONING IS RECALLED.

Bluffton, Ind., Oct. 12.—The divorce case of Charles Oliver and his wife, Sylvia, came to an end at Decatur, Monday, when a divorce was granted Mrs. Oliver after the judge stated that neither party was really entitled to a divorce, is the report received in this city. Mrs. Oliver filed a suit for a divorce here, and later it was venued to Adams county, where it came to trial Monday. After Mrs. Oliver filed suit, her husband filed a cross complaint. After the parties came to a property agreement, the court gave Mrs. Oliver an absolute divorce and judgment for $200 alimony and $25 attorneys fees, and $6 per month for support of a child, Irene Oliver, whose custody the mother was granted. The Olivers came into the public eye some years ago when Mr. Oliver and his farm hand were poisoned on a farm near Roll. The case created quite a lot of comment, but nothing ever came of the investigations made. The couple have not lived together since according to the evidence, and soon afterwards she filed a complaint for divorce.

ADAMS COUNTY REGISTRATION.

Decatur, Ind., Oct. 12.—The last of the registration inspectors came in late yesterday afternoon and filed his registration. The registration shows a total of 5,209 votes registered. In 1912, the last presidential election was held and at that time the vote cast on the presidential ticket was 4,805, so that the registration this year is 404 more than the total vote cast that year. It is not expected, however, that the full registered vote will be cast, but the probabilities are that the vote will exceed that cast in 1912.

REFUSES TO TALK.

John Spahr Has Made No Statement Since Tragedy at Markle.

Huntington, Ind., Oct. 12.—There have been no new developments in the case in which John Spahr, Markle section foreman, is in jail there, confessed slayer of R. A. Littler, Erie agent at Markle on Monday evening. John Spahr, who is in jail here, has made no statement since Monday night, and on the advice of his attorney, refuses to talk at all. He has not been arraigned as yet. It has been definitely arranged that the regular fall grand jury, which has not yet adjourned, shall assemble on Friday to take up Spahr's case. Owing to the many details of the evidence the coroner has not completed his investigation and will doubtless not deliver his verdict until Thursday.

HIT ROCKS AGAIN.

Decatur, Ind., Oct. 12.—When Robert A. Andrews, well known Monroe veterinarian, and Della A. Andrews, who were divorced January 11, 1915, rechartered the matrimonial bark and were married again in May, 1915, they probably hoped that the matrimonial sea would be smoother sailing. But it seems that such is not the case. Their bark has again struck the rocks of adversity, and it resulted in the filing of a suit in the circuit court by Mr. Andrews in which he asks for a divorce and the custody of the child born to them in their former marriage. He asserts that they lived together until one day this month, when their separation took place.

MAY FLY OVER KENDALLVILLE.

Kendallville, Ind., Oct. 12.—If you see an aviator guiding an aeroplane, east bound, over this city or vicinity any day within the next week, do not be frightened. It will not be a German or British aerial raider, but one of America's champion birdmen—Victor Carlstrom. Carlstrom is to attempt a non-stop sunrise to sunset aeroplane flight from Chicago to New York. By permission of the government he will carry United States mail. The trip is under arrangement of the New York Times. Mr. Carlstrom expects to fly over Kendallville, this city being on his projected route. So be on the lookout. You may see a sight worth while.

WILL NOT SEND FLOAT.

Portland, Ind., Oct. 12.—The city of Portland will not be represented at Indianapolis in the state educational day parade in connection with the centennial celebration of the Hoosier state. This was agreed upon Tuesday night at a meeting of citizens held in the Commercial association rooms, those interested thinking that because of the short time intervening between now and the date of the event, it would be impossible for anything like proper arrangements to be made in the preparation of a float, depicting the city's enterprise. While in session those interested discussed the proposed centennial jubilee sale, but this did not develop into any definite action.

BUILT PORTLAND COURT HOUSE.

Portland, Ind., Oct. 12.—George W. Beall, aged eighty-four years, is dead at his home in Marion, where he resided for the past forty years. The widow and three children survive, being Mrs. W. E. Thompson and Mrs. W. L. Starrett, of Anderson, and Miss Mae Beall, of Marion. Mr. and Mrs. Beall celebrated their sixtieth wedding anniversary last December. The deceased was a building contractor and in 1869 built the court house in Jay county, just recently razed to be replaced with the structure now being erected. He was well known among the older people of Portland and Jay county.

NEW MANAGER AT DELPHOS.

Delphos, O., Oct. 12.—H. W. Brunell, for the past year a power engineer for the Northwestern Ohio Light and Power company, has been promoted to the position of manager of the local office of that company. The promotion is brought about by a change made in the local force whereby Clarence Bielharz, who has been manager of the local office for several years past, is transferred to other duties in the various properties of the company in northwestern Ohio.

RECEIVES FATAL INJURIES.

Bluffton, Ind., Oct. 12.—Morris Swathwood received a telegram Wednesday from Grand Ledge, Mich., stating that his brother, William Swathwood, formerly of this city, had been seriously injured while helping unload rails from a railroad car with a crane. The message was from the father, Arla Swathwood, and urged Morris to come to Michigan at once. By this it is taken that the man was fatally hurt.

BLUFFTON MEN ON COMMITTEE.

Bluffton, Ind., Oct. 12.—C. G. Dailey and J. A. McBride are the Bluffton members of the reception committee for the Scottish Rite fall convocation meeting at Fort Wayne, November 14, 15 and 16. A large number of the local members will attend.

PROMINENT RESIDENT DEAD.

Hartford City, Ind., Oct. 12.—Thomas Swindler, 72, prominent resident living two miles west and one-quarter mile north of Roll, died on Wednesday morning after an illness of several weeks with paralysis. Mr. Swindler had been a resident of Blackford county for twenty-seven or twenty-eight years. He was born in Ohio. He formerly was a member of the K. of P. lodge at Roll and was a member of the Church of God.

DISTRICT MEETING.

Warsaw, Ind., Oct. 12.—A meeting of the Knights of Pythias of the Fifth district will be held in this city the latter part of November. The district comprises eighteen lodges in Whitley, Allen, Huntington and Kosciusko counties. A fish fry will be a feature of the entertainment, according to announcement which has been made by District Deputy O. R. Evans, of Warsaw.

CHIROPRACTORS ARRESTED.

Hartford City, Ind., Oct. 12.—Charged with practicing medicine without license, Dr. A. W. Tindall and Dr. Tora Bell, chiropractors of this city, have been placed under arrest following the returning of an indictment against them by the grand jury. Dr. Win Cook, of Montpelier, was arrested on the same charge. They have each given bond in the sum of $200 for their appearance in the October term of court.

CHURUBUSCO WOMAN HURT.

Churubusco, Ind., Oct. 12—While carrying an armful of clothes into the house from the back yard at 4 o'clock yesterday afternoon, Mrs. Jesse F. Lock, of North Main street, fell, severely injuring her hip. After an examination by a local physician she was taken to the Lutheran hospital at Fort Wayne.

FALLS UNDER WHEELS OF TRAIN.

Hartford City, Ind., Oct. 12.—Carl Deveraux, son of Mrs. Amos Sthroms, of this city, was perhaps fatally injured yesterday afternoon when he fell under the wheels of a train at his home in Coal Bluffs, Ind. Deveraux had been employed as an operator on the railroad for several years.

LEE URGES WOLF LAKE.

Advocates Establishment of Armor Plate Plant on Indiana Line.

Washington, Oct. 12.—Henry W. Lee, of Chicago, presented to the armor plate plant board of the navy department an argument for the establishment of the $20,000,000 armor plate plant at Wolf Lake, on the Indiana-Illinois state line, near Chicago. Mr. Lee called the attention of the board to the fact that Wolf Lake is in the center of the great Calumet region, where more than a hundred steel plants are situated, and to the excellent railroad facilities of the place. He said there are forty railroad lines running through the Calumet region. He urged the fact that Wolf Lake would be inaccessible to a foreign power in time of war and still convenient by railroad to the points where United States warships are built.

CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

Look, Mother! If tongue is coated give "California Syrup of Figs."

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomachache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."—Advertisement.

UNDERWOOD TO SPEAK ON EIGHT-HOUR LAW

Senator Arrives in City for an Address at the Moose Home.

A large part of the address of United States Senator Oscar Underwood tonight at the Moose auditorium will be devoted to a discussion of the eight-hour law, just enacted by congress. Senator Underwood led the Wilson fight in the senate for the law and will be able to explain in detail and to the interest of organized labor. Mr. Underwood is author of the Underwood tariff bill and his address along many lines will be one of the most vital of the campaign.

Committees for the meeting include the following: Assemblage, James Ford, Oscar Schlebecker, Henry Stalhut, Thomas Hartel; music, Peter Collins, chairman, Maurice Niezer, Lester Baade, Oscar Schirmeyer, Alex Karthol, Will Young, Val Ewig, Louis Piel; decoration, Frank Schlebecker, Clem Lanternier, John Brewer, August Moring; publicity, Henry Cohen, chairman, C. B. Hayes and Michael F. McCarthy.

Following a meeting which Senator Underwood will address at Auburn this afternoon he will be escorted to this city by a committee of local democrats. While in the city he will stay at the Hotel Anthony. He will be escorted to the Moose hall, corner of Wayne and Webster streets by the Elks' band and the Jefferson drum corps at 7:30 o'clock. Members of the reception committee are requested to meet at the hotel at 7 o'clock.

Guy Colerick, city attorney, will open the Underwood meeting, introducing William H. Grout as chairman. Mr. Grout, a life-long republican, is endorsing President Wilson and the democratic ticket this time. He has been for many years a passenger conductor on the Grand Rapids & Indiana railroad. Congressman Cyrus Cline will also be present and address the people at the Underwood meeting on the issues on behalf of his re-election to congress from the Twelfth district.

The members of the reception committee are: Joseph Shaw, Robert Hillegas, W. A. Johnson, Eugene Smith, Henry Becker, Samuel Randolph, John Habecker, Samuel Hooper, Dr. C. M. Glock, George V. Kell, Jacob Agne, Edward Schroeder, August Stalhut, Oscar Sherer, Ollie Burlage, Henry Pfeiffer, S. P. Zimmerman, Matthew Drennan, R. E. McNally, A. R. FUTURE RESTAURANT KING FLOPS EGGS DURING VACATION TIME.

"JOHNNIE" THOMPSON WORKING AS A WAITER.

Chicago, Oct. 11.—If you could cross the country in Pullman or touring cars to cool spots in the Rockies, would you cut the trip, stick around home for the summer and hand out ham and eggs to the ravenous public?

You betcha wouldn't unless you were an exceptional person like "Johnnie" Thompson, called millionaire, dishwasher, waiter and general restaurant helper.

"Johnnie" spent the summer washing dishes and serving "ham and" in Chicago, but as prospective owner of nineteen-six restaurants strung from New York to New Orleans he has his reasons. He is the son of the man who girdled the country with help-yourself restaurants.

"I want to learn this restaurant business from the ground up—from flapping an egg to hiring a superintendent," says young Thompson. "I'm not saying I'd rather do this than sail a yacht or play golf, but I'm going to make good at this business and I want to learn the rules."

Thompson is twenty-two and will be graduated from Yale next year.

Watch Your Step

Many people fail to realize that the common habit of coffee drinking may, sooner or later, handicap ability and hinder progress.

It is a scientific fact that coffee contains a harmful drug, caffeine, which with many, through regular use, causes nervousness, headache, heart flutter, or other annoying ills.

The wise move is to quit coffee and use

POSTUM

Made of wheat and a bit of wholesome molasses, this famous pure food-drink has a rich, snappy flavor much like mild Java coffee, yet contains no drug nor other harmful element.

Postum comes in two forms. The original **Postum Cereal** must be boiled; **Instant Postum**, a soluble form, is made in the cup with boiling water—the same delicious drink—**instantly**.

A look to health now smooths and brightens the path of the future.

"Bad Cough" writes: "I have a bad cough and cold in my head. My ears ache and my whole system seems full of cold inflammation. Please prescribe."

Answer: There is nothing which will relieve your condition more surely and quickly than the use of mentho-laxene syrup. Secure from your druggist 2½ oz. esence mentho-laxene. Mix this with one pint of sugar syrup or honey, and take according to directions. You should receive immediate relief and benefit. The mentho-laxene is slightly laxative, and drives the cold inflammation out of the system.

"Mr. W." asks: "What can I do for a long continued case of constipation? I have headache and dizziness and my complexion is sallow. At night I can't sleep I'm so nervous."

Answer: Continued constipation affects the blood and makes it impure. You need a good blood purifier and laxative. Use three grain sulpherb tablets (not sulphur). They aid digestion, act on the bowels and clean and purify the blood.

"S. F. E." writes: "I have a very severe case of dandruff. My scalp itches and my hair is coming out in handfuls."

Answer: Get a jar of plain yellow minyol at your drug store. Wash the hair and while still wet rub well into the scalp plain yellow minyol. Rinse out thoroughly and your scalp will feel clean and active. Repeat this treatment three or four times after washing and in a few weeks all your dandruff should disappear and your hair become healthy and soft.

"Corpulent" asks: "What will overcome corpulency? I am so fat as to be in my own way. I'm short of breath and cannot stand exercise."

Answer: To reduce safely, use five grain arbolone tablets. They are the most reliable reducers I could prescribe. Many are pleased with results from arbolone.

"Misery" writes: "I have been a worn-out man for the past few months. My physicial and mental forces are much impaired. I do not seem to be able to think clearly. I am much depressed all the time and my usual ambition and energy seem to have died. I have headache and pains in my back."

Answer: Your condition is identical to thousands of others brought to my attention yearly. Yes, your physical and mental forces are, as you say, much impaired, but you need not be alarmed over your condition. The use of three grain cadomene tablets should soon put you back in normal condition and fit to combat any troubles. Cultivate regular habits of living.

"Mite" asks: "I seem to be shrinking in size. I am very pale and thin. I do not feel sick, but I'm very weak. I want to increase my weight."

Answer: You are anaemic and the food you eat does not properly nourish your system; three grain hypo-nuclane tablets cause proper food assimilation and increase weight and strength. Take them with your meals. Sold in sealed packages.

"Mrs. Ella M." writes: "Please prescribe for me again. This time for my kidneys. I have chills and fever, look bad, have puffs under my eyes and my urine is dark in color and of bad odor. Sometimes my back hurts."

You should get almost instant relief from the use of balmwort tablets. I have prescribed these in numerous cases of kidney trouble and they have given excellent results. Most drug stores carry these tablets and they come in sealed tubes with proper directions.

OF INTEREST TO WOMEN

A WINTER PICTURE HAT

WHEN you say "picture hat" you immediately conjure up a scene of a garden party with pretty girls in lingerie frocks and each one sporting some particular brand of flopping hat known as the "picture hat."

Now here is a picture hat which will probably never see a garden party unless it is a roof garden party. It is entirely of silk and velvet and is probably called a picture hat because the wearer is tempted to adopt picturesque poses under its flopping brim by means of its graceful streamers.

The silk material used is a Chniese yellow printed in oriental designs of black, showing the new oriental influence in dress very clearly. On the right brim an applique piece of black velvet is embroidered rather stiffly with a few blossoms in natural colors. The streamers are black velvet ribbon to match the appliqued piece, and the silk hat is stitched closely row after row to give it body.

OUT WITH THE SPOT

THIS is the season of fruit stains, mildew and various other spots, and the man who can invent a universal spot remover will make a fortune. But many of the simple "home remedies" are very efficacious, if one could only remember them at the right time. And the right time, generally speaking, is while the spot is fresh. Many stains are "set" if they are sent to the laundry first, and grease spots have a way of gathering unto themselves dust and dirt, thus making them even more conspicuous, as well as more difficult to remove.

Benzine, chloroform, ether, household ammonia or naphtha soap and water will remove most grease spots. For candle grease, scrape off all the wax you can, then put clean blotting paper over the spot and press with a warm iron until all grease is absorbed. For wagon grease, simply cover spot with lard or oil and wash in soap and water.

Chocolate stains can be removed by soaking in cold water, with borax spread on the spots. Tea stains should be soaked in glycerin, then washed. Coffee strains, as well as fruit and wine stains, will all disappear if material is laid over a basin and boiling water poured thru. The kettle should be held a foot or two above the basin. If the stain is stubborn, try washing in boiling water and ammonia.

Varnish and paint spots must be softened by soaking in alcohol or turpentine. Rub with clean cloth. Repeat until spot vanishes. Old paint takes more time. Use one-half turpentine and one-half ammonia on old spots. For delicate colors, use chloroform.

Grass stains should be wet with molasses or soaked in milk, then washed. Another way is to rub with alcohol.

Mildew, a difficult stain to get rid of, can be either soaked in buttermilk, then bleached, or covered with a paste of lemon juice and raw starch, or with a paste of soft soap and salt. Another simple and sure way is to rub with raw tomato. In all cases the material must be bleached in the sun and the process repeated until the disfiguring spots fade out.

Yellow stains on white clothes will soon leave if they are soaked in buttermilk before washing.

Dry cleaning can be easily accomplished at home. Make a powder of one-third salt, one-third borax and one-third flour. Shake this generously into the garment and fold it away in a box for several days. Take it out and shake or brush it with a soft brush, and you will be pleased with the result.

FASHIONGRAMS

METAL cloth combined with fur is something of an innovation for a hat and muff and scarf set. Gunmetal cloth and mole fur combine to make one good-looking set.

One-sided effects prevail quite promiinently in dress at present. The collar may be buttoned askew, or one side of the shoulder cape be longer than the other, or one hip dip and the other remain sationary in the skirt yoke.

Hooded coats, especially for evening, are picturesque. There is an effort to imitate some Russian national headdresses in the hoods of capes to be pulled over the coiffure.

Velvet cassocks over slips of satin are slightly different from the polonaise style, but give the same long-coat effect.

GARDEN PREPAREDNESS

THIS is the time for people who believe in preparedness to get ready for next year's flower garden.

The iris, Madonna lily, Oriental poppy and peony should be transplanted now, in fact, any of the plants that have flowered and are now resting can be safely moved at this time.

For early spring pansies plant seeds late in the fall. Use light soil, water thoroly before sowing, cover lightly, shade until the seeds are up. Dust with flowers of sulphur and keep moist. Transplant to frames or sheltered beds, where they may be wintered over. Try a frameful under a double-glazed sash and you can have blossoms most of the winter.

SPEAKING OF SUITS

HAVE you noticed how long some of the suit coats are becoming? Some are fairly as long as the regulation top coats, which range from three-quarter to full length this year.

Also have you perceived that some of the suits for winter are to be of satin? And liberally fur-trimmed?

The photo is a very good example of this type of suit. The satin emphasizes

one of the season's highlights, for satin is the material par excellence this year.

Fur bandings are used on almost every suit that has a claim to dressiness. The materials used in this suit are a Russian green satin with bandings of seal. The shawl collar of seal is part of the coat, and the fullness is gathered in at a becoming waistline with a narrow ribbon of the satin. The small barrel muff of seal and ermine has been chosen to match the fur on the suit.

ANSWERS TO CORRESPONDENTS

New Combinations

Can you suggest some good-looking combinations for winter clothes? Straight colors have been worn so long that I would like some new idea, and the town where I live has not many large shops. Miss D. McB.

Prominent shops show such combinations as blue and yellow, blue and gray, tan and brown for blouses; green and black and blue and purple for suits, and hats follow their own will in the matter of color. Plum color and buff are popular, both by themselves and in combination, especially for suits.

The Rising Popularity of Topcoats

I am asking your advice in regard to purchasing a topcoat. Do you think it practical for this winter? Will they be worn? And what color would you suggest so that the coat could be used at night as well as in daytime? What material would be suitable? Would velvet do, or would it not be warm enough? Mrs. M. L. J.

The materials that seem to be in most demand this year are principally velour in all colors, duvetyne, bolivia cloth, plush, especially for evening coats; "kitten's ear" and broadcloth. Velvet is being worn also. The coming coats are to be made on loose lines, and many of them are to be long-waisted. Velour or plush would be wearable, both at night and in daytime, but broadcloth and the others are in almost equal demand. Select a bright blue, a mustard color or one of the burgundy or plum shade.

The hour of 8 o'clock this evening will present at the Palace theater, when the curtain rises on the opening scene of grand opera, "Faust," an audience that will fill the theater and will represent the society and music lovers of the city on the alert with anticipation. It will be a pity that all who love music for its own sake, will not be able to be present. There are to be many disappointments, for not everyone who tries will be able to get a dollar seat at the "rush." And that number will include, in many instances, the genuine lover of music—those who would be willing to stand in line for hours provided there was a certainty of getting a seat. And there will be many who go who have pinched in order to get tickets and who will not be in evening gowns or dress suits, but they will enjoy looking at those who are so clad and whose due appearance will contribute to the brilliancy of the audience and convey to the singers that Fort Wayne is some town. For grand opera must of necessity be on a magnificent scale and its patrons must of necessity have wealth, so that the two are thus associated. And as the performance begins at 8 o'clock, perhaps everyone will break the record and be seated at that time.

Mr. and Mrs. George Bailhe entertained about seventy friends at a musicale last evening at their home in Lakeside and during the time discussed the opera "Faust" and illustrated it musically. Mr. Bailhe's sister, Mrs. Harry Walker, of New York city, a splendid pianiste, played a Liszt rhapsodie, No. 12, and also illustrated excerpts from the opera as Mr. Bailhe analyzed it. Other musical numbers were piano work by Miss Leah Gardner, Miss Helene Spindler and Miss Jane Anderson and songs by Miss Margaret Plow, of Peoria, Ill. Mrs. Bailhe presided at the victrola with many excellent records from the opera. Following the program refreshment was served in the solarium with Mrs. Ferd Urbahns and Mrs. Page Yarnelle presiding at the table and Misses Elizabeth Porter, Louise Tyger and Irene Jones assisting in serving. Pink roses formed a beautiful decoration and the informality of the gathering, after the lovely program, delighted everyone.

AT THE MAJESTIC

"RAMONA" GREATEST OF ALL.

"Ramona," the W. H. Clune cinema operatic spectacle reproducing for the theatre Helen Hunt Jackson's world famous romantic novel of the same name, is a striking example of the superiority of cinematography to the spoken drama in certain branches of the art of the theatre. More than fifty times great dramatic producers have attempted to transfer the matchless story from book to stage—and every one failed. Heedless of this ominous history of attempted adaptation Mr. Clune used the work for a quarter of a million dollar film spectacle with the original title and it has proved no less a successful venture for him than was his participation in the making of "The Birth of a Nation." "Ramona" will be seen at the Majestic theatre next week.

AT THE PALACE

THE KIDDIES SATURDAY.

Payne Children and Alice Teddy at the New Palace.

With the Payne Children and that ever lovable old she bear Alice Teddy on the bill, the New Palace holds forth a world of promise for the kiddies Saturday afternoon. The Payne youngsters are juvenile singers and dancers that will appeal alike to the children of their own age and the adults in an audience. They are clever kids who have had a natural aptitude for dancing sharpened by years of constant intelligent training. Alice Teddy, the big brown bear, is an institution with Fort Wayne youngsters, who have on several occasions enjoyed the bruin's roller skating, dancing, bicycle riding, etc.

On this same bill which will open Friday afternoon with no performance this evening, are DeLeon and Davies in their own songs and ideas about singing them; the darling singing comediennes, the Shirley Sisters; and Bell and Fredo, the singing laborers. The fun will be provided by the quaint little comedy sketch, "All Wrong," which is from the pen of Frances Nordstrom, famous alike for her skill as an actress and for the half score of successful vaudeville sketches she has written. She will appear in her own production.

Charley Grapewin Coming.

The vaudeville star of stars, Charley Grapewin is on the bill for the first portion of the coming week in the split-second-comedy, "Poughkeepsie," in which he is supported by Anna Chance.

The age of a Japanese woman is indicated by the character of her hairpins.

TO DARKEN HAIR
APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a 50-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.—Advertisement.

Donald Boice, who has been undergoing a severe siege of typhoid fever, is now convalescing nicely.

Twenty-one auto loads of tourists from our neighboring village of Harlan, Ind., invaded this village one day the first of the week to take in the Main street improvement. While here they paid their compliments to our townsman, S. D. Merchant and family. They came in such numbers Doc got somewhat "fussed up," but was able to welcome them.

In a desk calendar the dates are carried on a reel in such a manner that thirteen weeks are visible at a time and the background causes the figures for any week desired to appear more prominent than the others.

BOYS TO LEARN OF DAM ADVANTAGES

Proposed Structure Will Afford Camping Sites Near the City.

Hike of all boys in the city is planned by the Citizens' Dam committee in order that the lads may learn of advantages of the $50,000 dam to be placed in the St. Joe river, to afford swimming, skating, fishing and other acquatic advantages. The boys will meet on Oak Knoll for the tramp, it was decided at the Commercial club, Wednesday night.

Similar hike for older citizens will be carried out later. The people will be conducted to the site of the proposed dam. Depth of the water will be pointed out. Advantages of camp sites near the city will be shown.

John E. Lathrop, in charge of the city planning exhibit here this week, made an address before the meeting and lauded the plan of installing the dam. Pledge cards will be prepared and a campaign to raise money for the structure, by popular subscription, will be launched soon.

DRESSES, GLOVES, SILKS AND SUITS

Tells women how to dry clean everything with gasoline and save $5.

It is very easy and inexpensive to dry clean and brighten all the ribbons, laces, yokes, neckties, silks, net work, satins, shirtwaists, kid gloves and shoes, furs, children's clothes, suits, caps, woolen garments, fancy vests, Swiss, lawn, organdie and chiffon dresses, draperies, rugs, in fact, any and everything that would be ruined with soap and water.

Get two ounces of solvite at any druggist and put it in two gallons of gasoline, where it immediately dissolves. Then immerse the goods to be cleaned; rub a little and out they come looking bright and fresh as new. You will find nothing fades, shrinks or wrinkles, requiring no pressing.

These few moments' work saves any household five to ten dollars. Try it and you will find dry cleaning just as easy as laundering. Your grocer or any garage will supply the gasoline and the drug store will furnish the solvite, which is simply a gasoline soap. Then a wash boiler or large dishpan completes your home dry cleaning outfit.—Advertisement.

TWO MASHERS GET SEVERE SENTENCE

Judge Kerr Promises to Inflict Heavy Fine on Those Who Flirt.

Two mashers, a white man and a negro, were fined $25 and costs each, on charges of accosting women on the streets, in police court Thursday morning. The men were unable to pay their fines and will serve thirty-five days in the county jail. They were the first victims of the police order that flirting on public streets must stop.

"This order is going to be made impressive if I have anything to do with it," Judge Kerr said. "Chief Lenz is starting a fine movement when he orders that insolent fellows be taken from the streets. I will see that women are not bothered for quite a while by the men who are brought before me."

Ernest Johnson, 28, employed at the plant of the Western Gas Construction company, was the white man. He followed Joseph McConnel, 216 First street, and his daughter, Kathlyn, and a neighbor woman for several squares on Columbia street Wednesday night. He walked up beside the women.

"You had better turn back," McConnel told him.

"I'm goin' along," Johnson said.

McConnel called Patrolman Johnson when the party reached Calhoun street. The intruder had turned back. Johnson and McConnel went after him. He was placed under arrest and taken to the station. He pleaded guilty to the charge of bothering women.

"I had a few beers," was his excuse.

Other Masher a Negro.

Leonard Smith, 40, colored, who came here recently from Chicago, was the other victim of the anti-coquette campaign. He stood directly in front of two women and tipped his hat to them and offered friendly greetings Wednesday evening. Detective Sergeant Joseph Brennan saw him speak to three women on South Calhoun street.

"I was jes tryin' to be polite," Smith said in police court.

"Take your politeness, that bothers women, over to the county jail for a month," Kerr said.

Postponed His Decision.

Judge Kerr will render his decision in the case of Leonard Benward, 18, charged with malicious trespass, on Saturday. Benward is charged with entering a Nickel Plate railroad car and removing several articles belonging to workmen. The youth says he had been employed by the company and the goods belonged to him.

Other Police Court Cases.

Fines imposed on charges of public intoxication were: Edward Smith, $5; Patrick Welsh, $5; Albert Watson, $5; Frank Childs, Frank Crawford and John Miller were released.

Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Pullen, Carpenter, 94 C Marcellus avenue, Manasquan, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.—Advertisement.

WHAT'S THIS WE'RE BUYING?

800 ATTEND BANQUET.

Eight hundred people attended the annual banquet given Wednesday evening by the Fort Wayne Lutheran City League at the Minuet hall. The banquet was a three-course affair and was followed by a very interesting program. Rev. F. Schuessler, of Chicago, and Rev. Mr. Wilk were the speakers.

WIERD PROMISES FOR FRIDAY, THIRTEENTH

Signs Are Bad for Candidates and Fort Wayne Citizens in General.

Friday, the thirteenth, will visit Fort Wayne on the morrow.

Coming as it does in the month of goblins, spooks and firey black cats, the signs are especially ominous. Light gray mists are already settling over the city to cover the shapes of witches who will be abroad early this year because of the calendrical trick. The spirits will no doubt wrack their displeasure on all who start on any sort of venture on Friday.

We would not be surrised if fireballs bounded on to of the court house on the ill-fated thirteenth. Dire calamity is promised all "mashers" and auto drivers who turn to the left and folks who step from street cars backwards. Brooms may sweep the wrong way for housewives, chimneys echo the plaintive calls of long forgotten ghosts and all babies born Friday, the thirteenth, are sure to be pigeon-toed.

Police Chief Lenz wants it understood that his birthday anniversary is not on this Friday. It is Friday, the twentieth. There is more than a week's difference in the dates, he believes. If he became a year older on the thirteenth he is sure that all policemen working under him would turn bald-headed; the court bailiff would break his gavel and the city clerk would mark "seventy-six" every time he tried to make "twenty-seven."

Two city firemen start their two weeks' vacation on the date, which was first marked with a blood-red pen. The men are Frank Stahlhut and Fred Shultz, chauffeurs at No. 1 station. They are sure that their dreams will be clouded by vivid pictures of seven-story buildings wrapped in flames or black fiends toying with the engines of the big trucks.

Cross-eyed candidates fear the day most of all. If their cigars fail to stay lighted on Friday they are sure to be outnumbered at the polls and old politicians say that if there is two feet of snow and water runs up hill and jitney drivers travel slower than fifteen miles an hour on Friday that Allen county may go republican.

Anyway the scourge of sprites and evil spirits will be abroad on Friday the thirteenth. Business men should bury their opal rings for sixty days. Candidates should talk constantly until after November 7. Housewives should keep their fingers crossed. School children should be careful how they toy with figures.

For there may come the tugging at the left ear. The left shoe may be lost for forty-nine days. There is danger of becoming tongueties for seven years.

Fort Wayne, beware, Friday, the thirteenth!

TURNED OVER TO UNCLE SAM.

Cleveland Police Surrender Three Suspected Car Robbers.

Cleveland, O., Oct. 12.—Three persons under arrest here on suspicion of being members of an organized band of car robbers which has been operating between Cleveland, Chicago and St. Louis for three years, were turned over to federal authorities today on charges of violating the interstate commerce act. Search is being made for the leader of the gang, who is said to have been a prominent member of the famous Apaches of Paris.

Nancy M. Shobe has filed suit in superior court against John H. Grisamer for $2,500 damages, alleging the defendant had possesion of a house and realty in Ligonier under lease from April 21, 1914, until May 10, 1916. The grass, it is alleged, was burned from the lawn; parts of the hardwood floors were burned; the asbestos covering was torn loose from the furnace; the cement floor of the barn was destroyed, and the taps were removed from radiators in the house. Harry H. Hilgemann is attorney for the plaintiff.

Case is Dismissed.

The suit of Milton Ochs & Company against Amos J. Roussey, to collect $2,500 on account, has been dismissed.

Plenty of Women, He Says.

Pearl Danehy has filed suit in superior court for a divorce from George Danehy. They were married June 26, 1912, and their separation came Tuesday. She asks the restoration of her maiden name of Pearl Moore. Danehy is alleged to have said that "he could get plenty of women," and to have told her to leave. She complied with his request. Howard Hanthorn is attorney for the plaintiff.

Will Is Filed.

The will of Louisa Yokel has been filed for probate in circuit court. All property owned at the time of her death is to be sold and $25 paid to the pastor of St. Paul's Catholic church for saying masses. Proceeds of the estate is to be divided equally between the daughters, Mollie Yokel and Mary Schlotter, with the exception of the interest the testator received from the estate of her daughter, Anna Yokel, all of which is to go to Mollie Yokel. K. J. Baur is nominated executor.

Notes of the Courts.

Elam H. Kissinger has been granted a divorce from Etta Kissinger in the superior court.

Verdict was given for the tenant in the case of Emanuel Klopfenstein against Elios Levy in the superior court by a jury, the case growing out of the ownership of a year's wheat crop.

The divorce suit of Rose Taylor Peckham against Charles Noble Peckham has been dismissed.

Two separate suits have been filed by John Schwiegel and Andrew Crabill against Abdo and S. W. Bonahoon, seeking to collect $75 and $30 respectively on mechanic's lien.

Judge Carl Yaple, of the superior court, is on a week's vacation. He is spending it at Kalamazoo, Coldwater and Mendon, Mich. During his absence W. N. Ballou is serving as judge pro tem.

The divorce suit of Faye Johnson against J. B. Johnson was tried Thursday in superior court before Judge Sol A. Wood, special judge.

The case of Clyde C. Niles et al against Fred Lambert and the People's Realty Investment company, on contract, has been set for trial before Judge John W. Aiken on Nov. 10.

CHARLES BOHYER IS SLOWLY RECOVERING

Charles Bohyer, the man who took bichloride of mercury in the public comfort station last Wednesday, is going to get well. Slowly but steadily his system is overcoming effects of the blue solution, which he drank in a fit of love madness. He was able to sit up a while Thursday.

When assured by his physician that he would recover, Bohyer said:

"I am mighty glad of it. I do not want to die any more. I was foolish to act like I did. I want to get well and be a man. I let myself worry too much about Anna."

Anna is the wife who lives at 2508 Chestnut street. Bohyer wrote her a note before he drank the powerful drug. She has never called to see him since he was hurried to the hospital. Bohyer's sister, who lives on Montgomery street, has been constantly at his bedside since he made his first faint rally.

DR. C. C. KIMMEL IS NOT EXPECTED TO LIVE

Reports from the Lutheran hospital where Dr. C. C. Kimmel is a patient, are to the effect that the young physician will not recover from his illness. His condition has been serious for several days but Thursday morning it took a turn for the worse and late Thursday afternoon death was hourly expected. Everything is being done, however, to save the young man's life. Dr. Kimmel has been suffering from typhoid fever for the past two weeks and a few days ago pneumonia set in.

REMOVERS OF SHRUBS TO ANSWER TO BOARD

Thirty Citizens Accused of Taking Flowers Ordered Before Commissioners.

Thirty east end citizens have been ordered to appear before the park board members Monday afternoon to explain why they removed shrubbery and flowers from Hayden park two weeks ago.

Notifications to "answer for the removal of bulbs and valuable shrubs" were mailed to the persons accused of the act Thursday. Names of the citizens were taken from the list furnished the park board by police detectives. There are yet more people who assisted in looting the public park, detectives say, and more notifications may be mailed before Monday.

Police investigation followed the discovery one Saturday morning that the park had been robbed of several hundred choice flower slips. The theft was supposed to have been committed on the Friday night before, just at dusk. Police found the canna slips in a number of the back yards of the neighborhood, they reported, and turned in names of citizens they believe to have been implicated in the act.

Prosecution may follow the hearing on Monday. The attitude of the citizens who are guilty of taking the bulbs and shrubs will determine action to be taken, park board members say. It is understood that several people took the slips thinking they were entitled to them.

ASPHALT WENT ASTRAY.

Material Sent From Trinidad Finally Found in Yards at Defiance, O.

Two carloads of asphalt went hopelessly astray in the long journey between the island of Trinidad and Fort Wayne. They were to have been used on Monday in finishing paving of Rudisill boulevard. They had left the island mountains three weeks before.

The several tons of black gum had passed the port of Newport, R. I., safely, it was learned. But they could not be located in the network of railroads that cover the eastern states. A checking clerk discovered them while he plied his humble art in the B. & O. railroad yards at Defiance, Wednesday night. They were hurried on to Fort Wayne and arrived here Thursday.

The boulevard sizzled and steamed Thursday afternoon as barrels of the tar were poured on its stony surface. The boulevard should be completed in a week.

NO HEAVY HAULING.

Neat Wooden Signs Have Been Put Up Along Rudisill Boulevard.

Neat wooden signs reading "No Heavy Hauling," are to be stationed along Rudisill boulevard, the new park drive which is nearing completion. The signs are now being prepared and will be placed along the driveway on Friday.

The boards are to be set at all intersections of paved streets and the boulevard. They will be in the center of the drive at Piqua, Fairfield, Broadway and Calhoun streets. The smooth park drive will be especially attractive for tourists but structure of the plant as soon as City Controller Baade boulevard will not permit continued traffic of excessive loads if the surface of the beautified roadway is to remain smooth.

Arrests will follow if the boulevard is used by men who haul timber and other heavy loads after ample warning has been served.

WOULD PROVIDE OUTLET.

Resolution to Extend Schillings Avenue to Be Presented Works Board.

Resolution to open Schillings avenue, from High street to Osage street, will be before the board of public works, Thursday night. City Engineer Randall will present the resolution. He thinks there should be a direct outlet from Osage street to Spring street. Board members are expected to act favorably on the measure.

The board will also consider the resolution asking extension of the protection curb along St. Joe boulevard, from Lake avenue to the Columbia street bridge.

WILL ACT ON RESERVOIR ROOF.

Mayor Hosey and members of the board of works, spent Thursday morning at the Reservoir park, formulating plans for the roof to be placed above the reservoir basin. They were accompanied by William Rogers, roofing engineer. Rogers gave his views on the proper construction of the covering.

Architects are to be called in soon to give their figures on the proposed roof. It is hoped to let the contract as soon as possible and have the big basin covered by next spring. The large roof will be cone shaped and made of steel, it is expected.

TO HEAR DECISION.

City Attorney Guy Colerick will go to Bluffton, Friday, to receive the decision of Judge Eichhorn in the case of Emery Jamison against Police Chief Lenz, other Fort Wayne police and the Rurode Dry Goods company. The plaintiff, who asked $10,000 for false imprisonment, was granted $400 by a Wells county jury three weeks ago. Attorneys for the defense asked a reversal of the decision. Judge Eichhorn will deliver his finding Friday.

Complete St. Joe Wall.

The four-foot protection curb, winding along the St. Joe river on Spy Run avenue, was completed Thursday. Work of building the heavy cement wall has been carried on for the past three weeks by the Grace Construction company.

Replanting Trees.

Park Superintendent Getz is overseeing the replanting of trees along driveways of the city. Complete rows of trees are to be set out on Rudisill boulevard, from Hanna to Piqua and on Anthony boulevard, from Rudisill to Pontiac. All dead trees are to be replaced by nursery sprouts in the Driving Park region, east of State street. Many new oak trees will be set out on Nutman avenue and several red oaks on Dayton avenue.

Grade Boulevard Approaches.

Approach to Rudisill boulevard, from the south, on Fairfield avenue, is to be graded back for 100 yards. This will furnish an easier grade leading to the boulevard. The approach is to be coated with crushed rock. Like grading will be carried on at the west end of the boulevard at Broadway.

New Heating System.

New heating system for No. 1 fire station, to cost $1,000, is to be installed as soon as possible. The board of works will receive bids on the heating arranges for use of the city funds for that purpose. A large boiler will be placed in the basement of the engine house and the building heated by hot water. Removal of the fire horses and incapacity of the present boiler makes a new heating plan necessary. Engines of the motor trucks must be kept at a moderate temperature if prompt action is to be insured.

MUCH INTEREST IN BIG RALLY FRIDAY NIGHT

Will Be Staged Under Auspices of Young Men's Democratic League.

The officers of the Young Men's Democratic league today expressed their gratification at the wide interest and enthusiasm aroused by the big general rally to be held in Fort Wayne Friday evening.

"Democrats in general," said Harry Muller, county captain of the league, "seem to be looking forward to the rally as one of the big events of the campaign and we are sure that they will not be disappointed. It will be the biggest thing yet staged by the Young Men's Democratic league.

The list of speakers is headed by Ed Shields, "the livest wire in Michigan politics," and himself a former democratic national committeeman. Mr. Shields is a brother of James L. Shields and is well known to a large number of Fort Wayne people. There is no doubt that Mr. Shields will prove a big factor in making for the success of the rally.

Bowman Elder, of Indianapolis, state president of the Young Men's Democratic league, will also address the meeting. Bowman Elder is a young man who has already made a big mark both in his business and in politics and his great genius for organization has a great deal to do with the state-wide growth of the league.

The democratic chairman of Marion county, John Werr, a politician of very wide experience, will come to counsel the young democrats in their efforts in behalf of the party.

The vice presidents of the league will act as the directors of the occasion, and the officers request that they be at the democratic headquarters early. The vice presidents are as follows:

Byron Hayes, Ed Bresnahan, James Shields, Glenn Smiley, L. M. Bane, Jay Brown, Dave Erwin, Erwin Schlebecker, Justin Gladieux, R. Petgen, Frank Rainey, Elmer Springer, Edwin Lindenberg, Ed Auth, Wm. Horstmeyer, J. C. Fell, Roy A. Scherer, Louis A. Wilkie, Henry Branning, jr., Claren Squires, Wm. Cashman, Art Lamont, Carl Suedhoff J. W. Dobler, Clem Berg, Myron Parrot.

The speaking will be preceded by an automobile parade starting from democratic headquarters. A large number of machine owners have already promised to be present. The various clubs in Allen county, outside of Fort Wayne, are to be represented in full force, and the local organization feels that it is up to local democrats to allow Fort Wayne to be outshown by the visitors. They especially request every good democrat having a machine to get out a flag or two and line up at headquarters at 7 o'clock Friday evening.

Pole Raising Tonight.

The Young Men's Democratic club, of Jackson township, which from its very start has been a very live organization, will hold a pole raising this evening on the Townsend farm two and one-half miles east of Zulu. The principal speakers will be Congressman Cyrus Cline, Attorney Phil Colerick and L. H. Dunten, who will address the gathering. The Jackson township democrats confidently expect a big crowd and an enthusiastic rally.

DISCOVERY DAY IS OBSERVED IN CITY

Anniversary of Columbus' Landing is Given Due Recognition.

Discovery Day, the 424th anniversary of the landing of Christopher Columbus and his crew at San Salvador, was observed in Fort Wayne, Thursday. It is a national holiday and business was partially suspended. The banks were closed and many a person bumped his nose when the door labeled "Sample" refused to swing.

Business everywhere was slow, which in a way signified that the day was a holiday. The public and parochial schools of the city observed the day in some special manner. Programs were rendered in several schools while in others the teacher told the story of the discovery of America.

The teacher told of the hardships which Columbus underwent before he secured means to make the trip into unknown waters. The discoverer had advanced the theory of a round world and set out to find a new route to the East Indies. Instead he discovered a new world. The little fleet composed of three ships began its long journey on August 3, 1492, and after losing two of the ships, landed at San Salvador on October 12, 1492.

BIG REAL ESTATE DEALS.

Several large pieces of real estate were sold during the past week by Monroe W. Fitch & Sons. The C. A. Friends' suburban home on the Lincoln highway was sold to Mr. and Mrs. Burchard for $9,000. The Weaver estate north of the city was sold to H. G. Schaefer for $10,000. A Weil and the Fitch agency purchased two tracts of land which lie between the Huntington road and Taylor street just south of the Wildwood park.

Miss Hope Chenoweth was operated upon at Hope hospital yesterday for an affection of the eyes. She passed through the ordeal in a most satisfactory manner, and will soon be able to return to her home.

BIG CONVENTION HALL MEETING FRIDAY NIGHT

Citizens Wakening to Realization of Importance of the Project.

With the realization that Fort Wayne must have a municipal convention building if it is to keep pace with the growing cities of the middle west, the people of Fort Wayne are awakening to the necessity of certain action in favor of the project. The open meeting announced for Friday night at the assembly room of the Commercial club promises to attract large numbers of interested citizens representing various organizations and interests who will "talk it over" and discover the best ways of working together to bring out a large and decisive vote for the project on election day, November 7.

Ladies Are Invited.

A special invitation is issued to the ladies to attend. "We want the women back of this undertaking," says Maurice C. Niezer, chairman of the citizens convention hall committee. "The project is for Fort Wayne, the betterment of conditions for the boys and girls who are to be the men and women of the future. We know that the building of this convention hall will mean much for the improvement of Fort Wayne and making it a better city in which to live. Therefore, the women are interested, and we want to see them at this meeting."

Grand Opera Every Year.

The coming of grand opera to Fort Wayne this week for the first time in years, has aroused much interest in the convention hall project among music lovers in every circle of Fort Wayne society—the humblest iron worker as well as the members of the Morning Musical. It is realized that with the establishment of the convention building will be the means of making grand opera a great annual event in Fort Wayne at popular prices, and that Fort Wayne will thereby become a recognized musical center.

Chairman Niezer states that Mr. Bachelder, the advance representative of the Boston-National Grand Opera company, told him some time ago that the appearance of the company in many of the smaller cities had proved to be a great incentive to the building of convention halls and that thereafter the company had been enabled to return and fill engagements at prices which enabled all to hear them. The convention hall has been a great benefit to many cities in this way. Toronto has found the establishment of its Massey Music hall to be a great developer of the musical spirit.

"Our hall has been a great benefit to Toronto," writes Norman W. Withrow, manager of the institution, to Charles L. Biederwolf, secretary of the Fort Wayne Commercial club. "It has made the city the convention and musical center of Canada. I might mention a few societies that have sprung into existence on account of the hall being located in Toronto. The most famous is the Mendelssohn choir, Dr. Vogt, director. Other societies are the National chorus, the Schubert choir, the People's Choral union, the Oratorio society and the Toronto Symphony orchestra. Among the notable events of last year, under our management, were John McCormack, Tetrazzini, Tetto Ruffo, Melba, Kubilek, Clara Butt—in fact, all the high-class artists that visit America come to Toronto. All of the conservatories here advertise that students who study here have the benefit of exceptional advantages in hearing the best music."

For the Widest Use.

In order that the municipal convention hall may be of the widest good to the people of Fort Wayne, those who are investigating the experiences of other cities are united in the belief that the building should be used practically without charge by all who need it for those occasions which are for the general good of the community. Those occasions which require the renting of the place for events for which an admission fee is to be charged, will, it is believed, take care of the maintenance and allow of the free use of the building at other times, except possibly the cost of janitor service, heat and light.

How Detroit Views It.

The manager of the convention bureau of the Detroit board of commerce, writing to Mr. Biederwolf concerning the proposed convention hall here, says: "We want conventions to come to Detroit because they advertise our city. I have known more than one man to attend a convention in Detroit and then return here and invest money. Some of the most prosperous men we have were drawn to Detroit in this way. And then, the more the visitor talks about Detroit the more the name of the city spreads."

Fort Wayne people realize the truth of this assertion as it applies to this city, and will show their convictions when they have a chance to vote on the convention hall project next month.

AFTER PAROLE VIOLATOR.

C. E. Bowles, officer from Mansfield reformatory, Mansfield, O., came to Fort Wayne Thursday to recover Edward McDowell, 18, wanted at the reformatory for violating his parole. McDowell was arrested in the Wabash railroad yards on Monday. He was taken to the station and examined because he acted strangely. He was found to have served time in the Mansfield reformatory for burglary, from Cleveland, three years ago. He violated his parole when he left the state of Ohio and came to Indiana.

NO MOTIVE FOUND.

Mrs. George Schultz, 2026 Broadway, discovered that the two front wheels were missing from the baby carriage when she started to run the conveyance from the back porch Thursday morning. She called the police. Why take just the front wheels of a baby carriage? is the question which worries detectives.

Mother-Made, Quick Acting Cough Syrup

Should be Kept Handy in Every Home—Easily Prepared and Costs Little.

Mothers, you'll never know what you are missing until you make up this inexpensive, quick-acting cough syrup and try it. Children love its pleasant taste and nothing else will loosen a cough or chest cold and heal the inflamed or swollen throat membranes with such ease and promptness. It's equally as good for grown-ups as for children.

This splendid cough syrup is made by pouring 2½ ounces of Pinex (50 cents worth), into a pint bottle and filling the bottle with plain granulated sugar syrup. This gives you a full pint—a family supply—of much better cough remedy than you could buy ready-made for $2.50—a clear saving of $2.

The moment it touches the inflamed, cold-congested membranes that line the throat and air passages, the healing begins, the phlegm loosens, soreness leaves, cough spasms lessen and soon disappear altogether, thus ending a cough quicker than you ever thought possible. Hoarseness and ordinary coughs are conquered by it in 24 hours or less. Excellent for bronchitis, whooping cough, spasmodic croup, bronchial asthma or winter coughs.

Pinex is a highly concentrated compound of genuine Norway pine extract, combined with guaiacol and is famous the world over for its quick healing effect on the membranes.

Beware of substitutes. Ask your druggist for "2½ ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

ANOTHER APPROACH FOR HARRISON HILL

The completion of the paving of Rudisill boulevard has added another approach to Harrison Hill, the beautiful new addition located in the angle of Calhoun street and Rudisill, and motorists are now enjoying the long stretch of paving out Fairfield avenue, east on Rudisill boulevard to the entrance of Harrison Hill, south along Harrison boulevard, and then around Cornell and Seminole circles. This drive is without a doubt the longest uninterrupted stretch of paving in the city and passes through the better class of residential districts all the way. The opening of this approach is but another step which will eventually make Harrison hill the select residential section of Fort Wayne. For further information concerning this addition see Hilgemann and Schaaf, North American Building.—Advertisement.

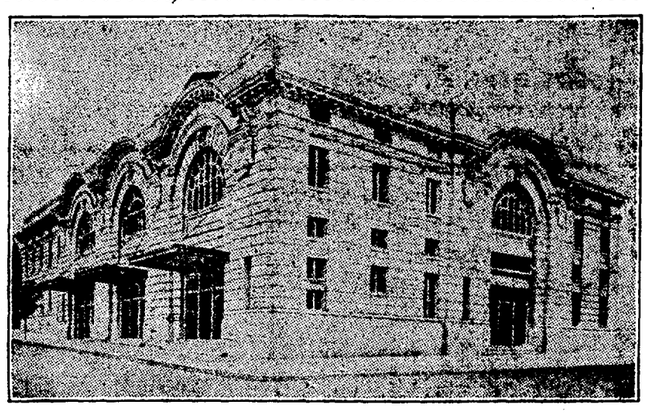
CONVENTION HALL IN A CITY SMALLER THAN FORT WAYNE.



Evidently the south is waking up with a vengeance. The above view is that of the municipal convention hall built by the city of Raleigh, North Carolina, which, according to the last census report, had a population of 19,218. The state legislature, acting upon a request of the city council of Raleigh, allowed the city to issue bonds to the amount of $125,000. This was in the fall of 1909. In October, 1911, the building was completed and turned over to the city. The building, in addition to its auditorium, capable of seating 5,000 persons, contains also the city offices. While Fort Wayne needs a larger auditorium than that of the Raleigh convention hall, the enterprise of this southern city, less than one-third the size of Fort Wayne, is an inspiration to go ahead and do things along this line.

SLATIN MOST UNIQUE FIGURE OF WORLD WAR

Not Man Without Country, But Man With Two Countries Instead.

Stockholm, Sweden, Sept. 25.—(Correspondence of The Associated Press)—There came to Stockholm a little while ago one of the distinctly unique personalities of the great world war—a man who had lived by the sword almost from boyhood, but who in the sudden turn of events in 1914 found himself, not a man without a country, but a man with two countries—two countries arrayed against each other in the bitterest of all world combats.

He had served under the Austrian crown prince and had been aide to Kitchener of Khartoum. He had gone into Egypt when Kitchener was there as a lowly subaltern. For twelve years he was a prisoner of the fanatical Mahdi, and the wild Dervish tribes who threw back, for the first time in centuries, the ever advancing frontiers of civilization. Escaping from the clutches of the barbarians he won the opportunity of participating in that remarkable march across the desert and the wonderful campaign along the upper reaches of the Nile which has brought civilization back to the Sudan and won for Kitchener his first great fame.

He came to Stockholm from Vienna unannounced and to all intents and purposes "incog." There were few who recognized him as Rudolf Carl von Slatin, baron of the Austrian empire, Pasha of Egypt, lieutenant general of the British army, and six times the recipient of the coveted British orders, from Companion to Bath to Knight Grand Cross of the Royal Victorian order, all won by distinguished service. He was inspector general of the Egyptian forces under General Sir Francis Wingate when the crash of war in 1914 brought a new crisis in his already eventful life.

When the parting of the ways came in 1914 Slatin found his love for Austria was still strong although most of his life had been devoted to Britain and her wards in Egypt. He had become essentially a part of the English military machine. But he could not fight against his fatherland, nor could he serve in any way against the country which had meant so much to him and which had lavished honors upon him.

So Slatin regretfully met the issue. He resigned his English and Egyptian commissions, sheathed the sword which had been part of his very life, and passed into comparative security in the very midst of war. Slatin felt, however, there was one service he could render with all propriety. He returned to Vienna, attached himself to the Austrian Red Cross, and now is doing all he can to better the condition of prisoners of war, not alone in his own country, but as part of a plan to bring about reciprocal agreements among all the nations in arms. Slatin suffered sufficiently himself as a prisoner in the Sudan and has the widest possible sympathy with any sort of captive.

It so happens that this very unique personality of the war now has come into more or less direct relationship with America. His mission in Stockholm was to meet here a representative of the American embassy in Petrograd to discuss further means of relief for the hundreds of thousands of Austrian war prisoners now in Russia, as well as the immense colonies of Austrian civilians interned in various sections of the big northern empire. The Austrian government, he said, was ready and anxious to co-operate in any possible way to better the condition of prisoners generally and would gladly reciprocate for anything Russia might do. He also expressed the appreciation of the Austrian government for the relief work already accomplished under the direction of the American embassy at Petrograd. Slatin, who devoted his life to militarism, speaks now of war only from the standpoint of humanity.

"I would like so much to be able to say when it is all over that I had done something to help the sufferers in this tremendous war," he said somewhat wistfully, to a correspondent of The Associated Press.

What Thin Folks Should Do To Gain Weight.

Good Advice for Thin, Undeveloped Men and Women.

Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs who, having tried advertised flesh-makers, food-fads, physical culture stunts and rub-on creams, resign themselves to life-long skinniness and think nothing will make them fat. Yet their case is not hopeless. A recently discovered combination of assimilative agents has made fat grow after years of thinness, and it is also unequalled, judging from reports, for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable preparation is called Sargol. Six strength-giving, fat-producing assimilative elements of acknowledged merit have been combined in this preparation, which is endorsed and used by prominent people everywhere. It is absolutely harmless, inexpensive and efficient.

A few weeks systematic use of Sargol should go far to produce flesh and strength by correcting faults of digestion and by supplying nourishing fats to the blood. If not, every druggist who sells it is authorized to return the purchase price. Increased nourishment is obtained from the food eaten, and the additional fats that thin people need are thus provided. Meyer Bros. Drug Co., Dreier Drug Co., D. & N. Pharmacy, The Family Drug Store and other leading druggists supply Sargol and say there is a large demand for it.—Advertisement.

ENVIRONMENT GUARANTEED IN LAFAYETTE PLACE

Few additions in this section of the country which are selling at the prices put on Lafayette Place lots are guaranteed the environment which is assured this tract by the restrictions that have been placed upon it. No building may be constructed in any part of this addition costing less than $2,500 and in certain portions of it homes may not be constructed for less than $3,500, and in still other parts the minimum cost is placed at $4,500. These restrictions, together with the restrictions referring to building lines on each and every lot, and the elimination of all features which might lower the character of a neighborhood, promise homes of a high quality for Lafayette Place, and as a consequence the addition is proving exceedingly popular. For further particulars, see the Wildwood Sales Company, Shoaff building.—Advertisement.

Mothers Organize Own Police Force to Protect Girls

New York, Oct. 11.—"We're going to help girls keep straight!"

That will be the primary duty of the mother police, according to Mrs. Rose Kelhoffer, first chief to this unique constabulary just established in New York.

Under Chief Kelhoffer there are to be about 5,000 patrolwomen and each will wear an official police badge and carry a whistle.

This addition to New York's police force has been a development of the girl police force. The mothers hope to handle pressing evils of the East Side that their daughters couldn't.

"I'm going to help girls who are in places that I want never to see my own girls enter," said Chief Kelhoffer.

"If girls can go to a woman—a woman who is a mother—and tell their troubles, they will keep straight.

"Many of our cases will never go to court. We will have private hearings in the municipal court on Sunday afternoons."

The mother police force is being organized like the regular force, with captains, lieutenants and sergeants. All will be from the East Side, familiar with the problems of the neighborhood. Each patrolwoman will have one block for her beat and will have full power to make arrests.

DREAM RATTLER A REALITY.

Altoona, Pa., Oct. 12.—George Meritts, of Franklinville, Huntington county, tossed in the throes of a frightful nightmare and dreamed of rattlesnakes. In bed with Meritts was Samuel Alley, of the same place.

When Meritts came to himself he still believed himself dreaming, for a hideous rattle sounded in his ears. Alley also heard it.

The frightful whir maintained a steady cadence, and both men were then aware that a rattlesnake was in their room. Having no light handy, the men were imprisoned in their bed for some time.

Finally a match and lantern were procured. The snake, more than three feet long, with seven rattles and a button, was coiled in the center of the floor. It was killed. A window near the ground had been left open and the reptile had gained access to the room through this aperture.

British Honduras is a natural greenhouse, where almost anything will grow, but there is little or no agricultural industry, the natives importing nearly all their food.

FRATERNITY BOYS PLAY DAD TO LITTLE YOUNGSTER.

Clarence Eckberg, "Son" of Sigma Nu, and some of his "dads."

Seattle, Wash., Oct. 12.—Playing daddy to homeless waifs is the newest stunt of University of Washington fraternities.

It started with Clarence Eckberg, 5, adopted by the Sigma Nu "frat" in a burst of big brotherly sentiment.

They found Clarence in a children's home, took him to the Sigma Nu chapter house, washed him, fitted him up with new clothes, gave him the squarest meal on record and made him about the happiest kid alive.

At dusk the sleepy, contented youngster smiled at his twenty-five "fathers and brothers in one" and informed them that he was used to going to bed at eight.

About fourteen helped him into his nightie and tucked him into his own bed in a corner of the large airy room. As the lights were turned out a plaintive, boyish treble began to recite, "Now I lay me down to sleep."

And big "Si" Noble, four years a "football roughneck" and noisiest in the frat, looked thoughtful for the first time in his life.

Pledges were made that "Son" would be given a proper bringing up. And the spirit of these pledges, carried out rigidly and tenderly, has wrought a revolution in fraternity chapter house life.

Prof. Edward M. Meany, Washington's venerable historian and a member of Sigma Nu, said of the adoption: "It is one of the finest things I ever heard of. I believe this act really means a big step toward new and vital service in the lives of collegians."

When "Son" sings "Bow Down to Washington," the U. of W. campus song, the smoke of their pipes is very apt to get in the eyes of his twenty-five "daddies."

ECZEMA ITCHED AND BURNED CONSTANTLY

Used Resinol—Soon Entirely Cured

Mar. 10.—"I had itching eczema for almost four years. My shoulders, neck, arms and just below the knees were affected. It was simply a constant itching, burning, smarting sensation. The part below my knees was frightful. It would itch so, and with the least scratching become so sore, I could hardly stand it to bend them. I could not possibly sit down because I would naturally have to bend my knees, and that I could not do. I could harly do any housework. I had tried different soaps, ointments, salves, liniments, etc., all too numerous to mention—all to no avail. At last I learned of Resinol Ointment and Resinol Soap and used them according to directions. That night was the first time in many that I slept in peace, and in a short time I was entirely cured." (Signed) Mrs. G. C. Silsby, Box 30, Rockville, N. Y.

DRIVE TRUCK, SAYS JUDGE.

Don't Seek Boiled Shirt Job, He Tells an Unemployed.

New York, Oct. 12.—"I'll guarantee that I can leave the bench and in ten minutes secure a job that will keep me at work steadily six days a week," said Magistrate John Koehendorfer in the Jamaica police court, to Joseph Stevenson, 22, of Ridgewood, whose 18-year-old wife Ethel charged him with failure to support her and their child. Stevenson had just told the court he was unable to obtain work.

"I have mighty little sympathy with a husky young man who says he can not get a steady job," added the magistrate. "The trouble is you young men want boiled shirt and high collar jobs. Go drive a truck."

Stevenson was put on probation.

MOTHER CHURCH OVER SEAS SENDS GREETING

English Bishop Addresses Annual Convention of Episcopalians.

St. Louis, Mo., Oct. 12.—Greetings from the mother church to the Protestant Episcopal church of the United States were presented by representatives of the Church of England with impressive ceremonies at a joint meeting of the two houses of the convention of the American church in triennial session here today.

The Right Rev. Huysche Wolcott Yeatman-Biggs, bishop of Worcester, England, said that even with the shadow of war hanging over England, members of his church are intensely interested in the work of the American church. Funds saved in the mite boxes by thousands of American Episcopalian women in the last three years to be devoted to the support of women missionaries were collected today at the "united offering service" of the Woman's Auxiliary holding sessions simultaneously with those of the general convention.

Following a communion service, the money which previously had been placed in the hands of the sixty-eight diocesan and the twenty-one missionary district officers of the church, was presented at the altar in a golden alms basin. The amount obtained was to be announced at a meeting in the afternoon. Stories of the work of women in the mission fields were to be told at the mass meeting by the Rt. Rev. Charles Henry Brent, bishop of the Philippines, the Rt. Rev. Logan H. Roots, bishop of Hankow, China; the Rt. Rev. Arthur S. Loyd, president of the board of missions and the Rt. Rev. Paul Jones, bishop of Utah. Meetings of the several committees appointed at the last general convention held in New York in 1913 to investigate religious, social and economic problems and report to this year's convention were held today preparatory to presenting their reports.

In conjunction with the convention an open social service forum was inaugurated today. The Very Rev. Bernard I. Bell, of Fond du Lac, Wis., spoke today on "What Is Social Service," asserting that social service and religion must go hand in hand.

COLLEGE HEADS NOW INVITED TO ASSIST

Systematic Training of Reserve Officers for Army Desired.

Washington, Oct. 12.—Presidents of nineteen colleges and universities have been called in conference by the war department preparatory to establishment of systematic methods for training reserve officers for the United States army in those institutions. They will meet at the army war college here Tuesday, Oct. 17.

It has been estimated that the army must maintain a corps of 50,000 partially trained junior officers to facilitate organization of an adequate military force should the nation have war with a power capable of attempting invasion. The main source of supply for these officers would be in institutions with approved military courses where military training under army officers is part of a student's work.

National guard organizations composed entirely of college students have been mustered out of the federal service so those men may compose the first increment of reserve officers to be drawn under the new plan.

Among officials expected to attend the conference are Dr. J. G. Raycroft, Princeton; A. Lawrence Lowell, Harvard; Arthur Hadley, Yale; H. B. Hutchins, University of Michigan; Edmund J. James, University of Illinois; W. O. Thompson, Ohio State university. Dr. Grenville Clark and J. Lloyd Derby, officials of the military training camp association of the United States, also attend.

MR. HUGHES TOURING OLD KAINTUCK TODAY

Pikeville, Ky., Oct. 12.—Charles E. Hughes spent today in Kentucky. His second appearance as a presidential candidate in this state was here this forenoon. His program called for a day of short speeches, rear platform talks and an address at the Phoenix hall at Louisville tonight. Mr. Hughes spent half an hour here. It was the longest stop of the day. His program also provided for addresses during the day at Prestonburg, Paintsville, Louisia and Ashland. The nominee's train is due at Louisville at 8 p. m., and he will leave three hours later for Springfield, Mo., where he will speak tomorrow afternoon.

DEMAND OF ALLIES ON GREECE A BROAD ONE

Control of Mail, Railroads and Telegraph Included With Fleet.

Paris, Oct. 12.—Details of the demand made on the Greek government by Admiral d'Artige du Fournet, commander of the allied naval forces at Piraeus, which have been made public here, show that the ultimatum was much more comprehensive than was understood at first. In addition to her fleet, Greece was required to permit allied control of her naval powers, mail, telegraph and the railroads.

The ultimatum set forth that such was necessary in order to render impossible the use of the navy, the railroads and so forth, to the detriment of the allies. Admiral du Fournet gave the Greek government until 1 o'clock Wednesday afternoon to comply with his demands and stated that failure to do so would result in his taking the necessary steps himself.

LODGE CELEBRATES IN HONOR OF NAMESAKE

J. J. Joyce Speaks at K. of C. Banquet Given at the Anthony.

In honor of their namesake and in observance of the 424th anniversary of the discovery of America by the same personage, the Fort Wayne council No. 451, Knights of Columbus, gave a banquet at the Anthony hotel Wednesday evening. J. J. Joyce, of Kokomo, was the speaker of the occasion and those who assembled there for an evening's enjoyment listened attentively to his address.

One of the features of the program was the showing of the moving picture film, "Discovery of America." The picture was one of historical truth and showed the various episodes in the life of Christopher Columbus, preparatory to his first great voyage. It showed his trip across the unknown seas and finally saw his triumph when he landed on dry land with his crew.

Charles M. Niezer served as toastmaster and the program of musical numbers and recitations was enjoyed. Several out of town delegations were present, and included those from Decatur, Huntington and Garrett.

CHAUFFEUR SAVES LIFE BY JUMPING

Paul T. Glaser Has Narrow Escape When Auto is Struck by Train.

Paul T. Glaser, driver on an auto truck, who tried to beat the second section of the Pennsylvania westbound Manhattan limited over the crossing at Fifth avenue, a mile east of Clarke Junction, Wednesday afternoon, made it in safety himself, but failed to get the machine through and it is a total wreck. Glaser "lost his head" and realizing that he was in danger of losing his life he sprang from the auto when it reached the tracks and escaped injury. The engineer of the train saw the autot coming and felt that a collision was imminent, so he tried to stop and was going very slowly when the engine struck the automobile and rolled it over and over for a distance of twelve or fifteen feet, completely wrecking it. Conductor George Arnold had charge of the train and Engineer C. Rogers was at the throttle.

TROOPS RETURNING EAST.

First Squadron Cavalry Rhode Island Guard Going Home.

The First squadron cavalry of the Rhode Island national guard, which left El Paso, Texas, Monday night, passed through Fort Wayne en route home at 5:30 o'clock this morning. Their train, which consists of seven tourist cars, one standard Pullman car, three stock cars, six box cars and five flat cars, was split into two sections. The Wabash received the cars from the Iron Mountain at St. Louis and turned them over to the Nickel Plate at New Haven. The latter line will deliver the trains to the West Shore at Buffalo. Ocasional stops are being made to give the horses the required rest.

SUGAR BEET BUSINESS GOOD.

G. R. & I. Compelled to Put Switch Crew in Service.

The sugar beet factory at Decatur, whose business is now just starting, will have the greatest rush in its history this season. To handle the cars at the factory the G. R. & I. is preparing to put a switch crew and engine in service tomorrow, to remain two or three months. The beet factory did a big business last year, but is expecting a greater business this season. It usually requires about three months to work up the season's crop.

ADDING TO SHOP FORCE.

A number of new employes were taken on at the General Electric works yesterday. Among them were M. G. Johnson, late of Warren, in the finishing department; H. J. Ogden, shears operator, in the punch press department; Miss Julia Knoll, clerk in the shipping department; Henry Birkenbeul, machinish in the small motor department; the Misses Zella Wagner, Laveta Hosler, Golda Smith, Hazel Bradberry, Rose Wagner and Jean Lehmon, winders in the small motor department; L. P. Tieman, formerly of the Studabaker automobile works at Detroit; Frank Clark, from the Warner Gear company of Muncie; Julius Maninger, formerly of the Wolf Bedding company, and Edward Schnurr, from the farm, in the hand screw department under Foreman E. W. Lankenau.

VINCE HAD TIRE TROUBLES.

Vince Dawson, file clerk at the Pennsylvania motive power offices, did not get a great distance from the city when he started in his automobile for Muncie yesterday. Aggravating tire trouble developed and he turned about and came home, where heavy repairs were made. This morning he embarked again, with prospects of being more successful. Mr. Dawson is dividing his vacation term into several parts this year, taking two and three day automobile trips to towns within easy reach of Fort Wayne. The first trip was to Michigan.

SAW BOSTON-BROOKLYN GAME.

Machinist L. M. Dunten, of the General Electric works, a baseball player and a most enthusiastic "fan," has returned from a business trip to New York and Brooklyn. While in the latter place he attended the third game of the series between Boston and Brooklyn, in which Brooklyn won. Mr. Dunten resumed work in the factory this morning.

EYLENBERG HAVING GOOD TIME.

Postcards from Operator John E. Eylenberg, of the Wabash master mechanic's office, who is taking a ten days' vacation, states that he is having a fine time. He is at Kansas City this week and will return here Tuesday and go to Buffalo, Niagara Falls and Albany, N. Y., to spend the remaining days of the vacation term. Mrs. Eylenberg is with her husband.

MEMBERSHIP LIST GROWING.

At 10 o'clock this morning, Loren Klingman, chairman of the membership committee of the Electro-Technic club, said that the two captains in the contest had a toal of 250 members. The roll is growing rapidly and will be several hundred larger when the first event of the season is pulled off next Tuesday at the Moose hall.

ON FULL TIME AGAIN.

All departments of the Pennsylvania shops are working full time—fifty-five hours per week. Notices to this effect were placed upon the bulletin boards yesterday. The shops had been on a forty-five hour weekly schedule. The increase in hours means a good deal more money for the shopmen.

SENT STRIKEBREAKERS HOME.

The fifty or more strikebreakers who had been working at the foundry plant of the Western Gas Construction company since early in July, were sent back east yesterday, there being no further need for their services at the local plant. The foundry department is now operating with its own men as before the walkout.

OPERA COMPANY SPECIAL.

The Boston Grand Opera company, which arrived in the city over the Pennsylvania at 2:40 this afternoon, from Alliance, Ohio, had a special train of fourteen cars. There were two parlor cars, one restaurant car, five coaches and six baggage cars in the train.

NEW FOUNDRY FOREMAN.

A change in the foremanship at the Western Gas works took place yesterday, when Charles Reiser received the appointment. He has been working at the plant for some time and is now bringing his family here from Cleveland.

INDUSTRIAL NOTES.

C. E. Schmidt, a Pennsylvania shop carpenter, is sick and off duty.

Ensign George, of the Pennsylvania blacksmith shop, is sick and off duty.

E. C. DesPrez, helper in the Pennsylvania erecting shop, is sick and off duty.

Carl W. Korte was enrolled yesterday as a new machinist in the Pennsylvania toolroom.

Peter Williams, a cab builder, and C. J. Randol, of the Pennsylvania planing mills, are sick and off duty.

Division Storekeeper N. D. Porter, of the Wabash, is in Montpelier, Ohio, on business for the department today.

E. P. Kahoe, of the Pennsylvania erecting shop, failed to report for work this morning on account of sickness.

Machinist Gene Potter, of the General Electric works, is absent from the shop on account of the serious illness of his wife.

Frank Parrag and Frank Kovics, formerly of the Fort Wayne Rolling mills, took employment in the Pennsylvania boiler shop this morning.

George Jerome, who had an eye hurt while at work in the Pennsylvania erecting shop a week ago, returned to his duties this morning.

John VanBuskirk, clerk for Foreman Loren Klingman, of the transformer testing room at the General Electric works, is sick and off duty.

Joseph A. Romary, foreman of laborers at the Pennsylvania machine shop, was unable to show up for work this morning on account of sickness.

General Manager F. S. Hunting, of the General Electric works, arrived home this morning. He spent three or four days at Schenectady on busines for the company.

H. Bleckmann, a car doormaker at the Pennsylvania shops, had the end of the thumb of his left hand crushed yesterday, when he struck it with the hammer he was using.

Adolph Foellinger has resumed his duties in the hand screw department of the General Electric works. He and his bride returned from their honeymoon trip yesterday.

Machinist Ed White, who has been off duty for a month suffering from stomach trouble, has nearly recovered and this morning was able to resume work at his machine.

H. W. Stocks, who laid off with an injured hand, and C. A. Scott, off on account of injuries, returned to work yesterday. They are employed as machinists in the Pennsylvania shops.

E. B. Hodges, who resigned a position at the Pennsylvania erecting shop three weeks ago to take employment at the factory of S. F. Bowser & Co., returned to his old job in the Pennsy shops this morning.

Word from Lake James is to the effect that Fred G. Duryee, who is spending a week there in his cottage, is getting along nicely. It will be remembered that Mr. Duryee was operated upon for appendicitis three months ago and has not yet fully recovered. He is chief of the wire department at the General Electric works.

None of the car repair and section foremen of the Fort Wayne railroads have all the men needed to handle the work expeditiously and some are seriously handicapped by the shortage. Foreman Fred Anstrup, of the Wabash car inspectors and repairmen, is among the ones who are short on help. He said yesterday that he had only about half a force.

HUNTINGTON KIND OF POLITICS IS HATED

Huntington, Ind., Oct. 12.—Lyman H. Jackman, prohibition-progressive candidate for congress from the Eleventh district, called John Q. Cline and his son Claude Cline, secretary of the republican county committee, "infernal, damnable and abominable liars" in a speech here Tuesday night. He said both were in his audience and he was glad of it. Jackman declared they had said he was drunk within the last year, and he defied them to prove it. The elder Cline answered from the audience that he believed he had spoken the truth. Claude Cline and his father both arose, asking privileges to speak, but Jackman refused to hear them. Jackman also asserted the Rev. I. B. Wike had repeated the story on hearsay, but did not call the minister names. Jackman's son, Clifford F. Jackman, withdrew recently from the progressive ticket, on which he was nominated for United States senator, short term, and now is speaking for the prohibition party in the north west.

Chicago Man Explains Why He is Now Facing a Bigamy Charge.

Chicago, Oct. 12.—Two women were fascinated by the charms of John G. Niebel. Both loved and married him. One is still loyal, but the first wife, Mrs. Anna Niebel, 1750 Ballou street, became angry at his desertion and had him arrested yesterday on a charge of bigamy.

Niebel, it is said, left her a year and a half ago and eloped with another woman to Crown Point under the name of John C. Scherman. He has since been living in Downers Grove with his second wife.

When Detective Sergeant Timothy Sullivan appeared with the warrant for his arrest, yesterday, he fled from the eighth floor of the railroad company's ouices where he was employed to his home in Downers Grove.

There he found that a mesage to the chief of police had preceded him. He was brought back to Chicago and admitted frankly that he was guilty of bigamy.

"My home life wasn't happy, so I took another chance at Crown Point," said Niebel. "We were very happy, too.

"I would have got a divorce, but that means lawyers and they cost money. She's after me now, I guess. I'm a bigamist. Let it go at that."

He was locked up.

Society

Mrs. Grace Cavins is now located in Ypsilanti, Mich. Her daughter, Miss Ruth, is attendingthe State Normal in that city, studying domestic science and art. Miss Gladys and Master Paul are attendants of the high school and all are much pleased with their new home.

Mrs. A. N. Henk and sister, Mrs. D. C. Stout, have gone to Huntington to attend the state convention of the W. C. T. U. and before returning home will go to Markle to visit their brother, E. E. Youse, who is a lumber merchant in that city.

One of the recent happy events was the celebration of the twenty-fifth wedding anniversary of Mr. and Mrs. J. D. Collins at their country home near Valparaiso. Mrs. Collins was formerly Miss Kittie Polhamus, of this city. About fifty guests spent the day with Mr. and Mrs. Collins and had a delightful time. Guests from Fort Wayne were Mrs. A. H. Polhamus, A. Z. Polhamus, Mr. and Mrs. W. H. Polhamus, J. G. Polhamus, Albert C Polhamus, Harry Polhamus, Miss May L Polhamus, Miss Helen J. Polhamus and Miss Cora Blue.

Conrad—Meehan.

The beautiful wedding of Miss Antoinette Meehan and Mr. Eugene Conrad that took place in St. Andrew's church at 9 o'clock Thursday morning was attended by many friends. Rev. George Horstman officiated. The sweet looking bride wore a very pretty gown of white taffeta and georgette crepe with handsome trimming of pearls on the bodice. A veil made into a cap for the hair had a wreath of rosebuds around it and the veil fell to the hem of the gown. The bride held a bouquet of bride roses made with a shower of roses and swansonia. Miss Lorretta Hoevel, bridesmaid, was gowned in yellow taffeta with tunic of yellow crepe and the bodice trimmed beautifully with tiny yellow rosebuds. Miss Hoevel wore a large velvet hat with bird of paradise ornament and her bouquet was a colonial one of Ophelia roses. Miss Hilda Lanternier, also a bridesmaid, looked very well in a beautiful green faille silk with flounces of silver lace. Silver lace enriched the waist. Miss Lanternier also wore a velvet hat with a tiny bird for ornament. Her flowers were Shoyer roses. Miss Mary Meehan was flower girl and she was exceedingly attractive in a dainty frock of pink Jap silk long waisted and ruffled skirt with pink ribbons and shoes and stockings, all of which combined in the beauty of Miss Mary's appearance. Messrs. Cletus Meehan and Elfred Meehan were groomsmen and Messrs. Claude and Ralph Meehan were ushers. The flower child carried a basket of roses and a lily that held the wedding ring. The church was decorated in palms, ferns and white chrysanthemums. The wedding breakfast was served at the home of the bride's parents and in the afternoon an informal reception was held to intimate friends. The house was tastefully decorated with roses, smilax, a wedding bell over the table, the colors of yellow and white predominating. A number of young women who assisted during the reception were Misses Monica and Florence Beuter, Eva Smith, Bertha Lopshire, Eileen and Ruth Lanternier. After a few days' trip Mr. and Mrs. Conrad will begin housekeeping in a newly furnished bungalo at 2419 Winch street. The bride has had a round of beautiful parties previous to her wedding and her popularity among her friends is equalled by the high regard held by friends and acquaintances of Mr. Conrad. The bride is a daughter of Mr. and Mrs. John Meehan, of 2712 Maumee avenue. Mr. Conrad's parents are Mr. and Mrs. Casper Conrad.

THRILLS OF GUNPLAY INVADE BUSY STREET

Man at Indianapolis Fires Twice at His Former Employer.

Indianapolis, Ind., Oct. 12.—The busy wholesale district on Maryland street, between Delaware and Pennsylvania streets, bot a Mexican-border-like when two men stepped from an automobile and one ojened fire with a revolver on the other yesterday afternoon. When the smoke of battle cleared away shipping clerks, pedestrians and drivers of vehicles in the crowded block emerged from their places of safety to find that Albert Knuckols, 35 years old, 228 West Twelfth street, had shot twice at Michael Glenn, former owner of the notorious Elite Cafe, 339 Indiana avenue. The bullets went wild. Knuckols is a former manager of the Elite Cafe, having been employed by Glenn.

Traffic Policemen Earge and Ross, stationed at either end of the block, closed in on the men and took the revolver from Knuckols. He was arrested on charges of shooting with intent to kill, shooting in the city limits and carrying concealed weapons. Knuckols was released when a $1,000 bond was provided.

Trouble Over Locket.

Barge said that he saw Glenn and Knuckols as they passed his corner, at Pennsylvania and Maryland streets, driving east on Maryland street. At that time they did not seem to be engaged in an argument, the policeman said. The shooting occurred a short time later in the middle of the block.

According to Knuckols, the trouble was about a $35 locket which Glenn gave him last May. He said that Glenn met him at Illinois and Washington streets and boarded his auto. Glenn demanded the return of the locket or payment for it. The argument grew more heated, Knuckols said, as they drove east on Maryland street, and Glenn attacked him. Knuckols declared that Glenn drew a knife and threw it away before the police arrived. A search was made for the knife by the police, but none was found.

Glenn's version of the affair was somewhat different. He said that he had demanded payment for the locket and Knuckols agreed to write him a check. It later developed, Glenn said, that Knuckols did not intende to write the check, but agreed to drive Glenn to th epolice station when the former Elite owner declared that he would have Knuckols arrested.

"Knuckols killed his engine at the place the shooting occurred," Glenn said, "and we got out of the machine. The next thing I knew he had drawn a revolver. I ran and dodged behind an auto as he fired twice."

MILLIONS MORE TO BE SPENT AT GARY

Steel Men Disclose Big Plans of Corporation on Witness Stand.

Chicago, Oct. 12.—Gigantic plans for the expenditure of millions for the further development of Gary, Ind., as the greatest steel center in the country, were told by executives of subsidiary companies of the United States Steel corporation yesterday on the witness stand in Valparaiso, Ind.

E. J. Buffington, president, and G. G. Thorpe, of Chicago, president and vice president of the Illinois and Indiana steel companies, and W. P. Gleason, general superintendent of the Gary plant of the latter company, outlined the projected improvements before Judge Crumpacker. Trustees of the Mandel estate had brought an action to cause the corporation to restore the Grand Calumet river to is original form to connect with Gary harbor. The steel corporation contends it was necessary to move the river to build its plants and that use of the harbor for general commercial purposes is impracticable.

The Gary plant is having its furnaces increased from eight to twelve, and a new Bessemer duplexing mill and other additions are being added. It now employs 8,400 men, a like number being on the rolls of the other subsidiaries. There are to be five additional blast furnaces erected at the Gary plant, according to Mr. Buffington.

This will make seventeen stacks—the largest single group in America.

New construction now under way at the Gary plant will cost between $15,000,000 and $20,000,000, and employment will be given to several thousand men upon its completion next year.

The plans for the National company, for which the Steel corporation authorized an expenditure of $25,000,000 for the first units, call for four blast furnaces, ore docks, Bessemer mill and auxiliaries. Ultimate plans call for fourteen blast furnaces. Construction work has not been started as yet.

Plans are now being forwarded for the American Locomotive company's plant and for the plant of the American Car and Foundry company, both of which are to be located in Gary, according to President Buffington. These concerns have purchased sites in Gary.

MAN ENDS LIFE WHILE WIFE IS SEEKING HIM

Greenfield, Ind., Oct. 12.—While Mrs. Frank L. Lindon, of Knightstown, drove frantically about Greenfield in an automobile in search of her husband, who had informed her by telephone that he intended to commit suicide, Lindon swallowed poison and ended his life on a bank of Brandywine Creek a short distance from the city. Boys who were fishing found his body. Lindon, who was 50 years old, had been engaged in the insurance business at Knightstown, but came here to pursue his work several weeks ago, his wife and 4-year-old son remaining at Knightstown. His business did not prosper and he had become discouraged. Whtn he telephoned to his wife that he would "end it all" she engaged an automobile and hastened here to hunt for him.

So highly inflammable are some of the glittering trimmings now used on women's dresses that the New York fire department has suggested that they be condemned.

GIRL, PARALYZED TEN YEARS, CAN SWIM LIKE A FISH.

DOROTHY NEVIN AND HER CHUMS.

Chicago, Ill., Sept. 18.—Dorothy Nevin, 14, paralyzed in her legs for ten years, takes a daily dip in Lake Michigan and swims as gracefully as a mermaid.

Dorothy is wheeled to the beach in a chair by shums, carried to the water's edge and helped into the water. She swims with a crawl stroke, in which the legs are not used, which she learned from her brother. She also dives from a kneeling position, as boldly as other divers.

"It's wonderful to feel that I can move again all by myself after spending ten years in an invalid chair," says the invalid.

CHINESE FRIENDLY TOWARD AMERICANS

It's Greatest Asset of U. S. in China, Says Commercial Attache.

BY JULEAN H. ARNOLD
Commercial Attache to American Embassy at Peking, China.

Seattle, Wash., Oct. 12.—America greatest asset in China today is the friendship of the Chinese people.

No other people on the face of the earth occupy such a warm place in the hearts of Chinese as do Americans.

Just before leaving Peking recently, President Lee Yuan Hung asked me to convey for him and his people to the people of the United States a message of friendship, and to state that American capital, brains and material are wanted to help build a new China.

But how is America availing herself of this position of vantage? While China's import trade has increased fourfold in the past twenty-five years, her imports from the United States have not even doubled in that period.

In fact our trade with China during the past ten years has been about stationary. What we have lost in piece goods and flour, we have gained in kerosine and steel products.

The great mistake made by American manufacturers, exporters and bankers today in regarding China as a field for activity is their failure to consider the China of ten and twenty years hence rather than the country today.

The reason American trade has lagged behind that of other nations in China is that American financiers have not participated in Chinese loans.

British, German, French and Japanese capital have gone into China in a big way. But American capital, though extended on especially cordial invitations, has remained shy.

In spite of China's revolutions and rebellions, her floods and plagues and catastrophes, foreign interests have been protected and they have been indemnified against all direct losses.

Today the new China is rapidly forcing out the old. We shall make no mistake in responding to the generous invitation of the Chinese nation for our capital, brains and materials.

YOUNG STUDEBAKER TO HAVE OPERATION

Skull Fracture Feared in Case of Wealthy South Bend Student.

Cambridge, Mass., Oct. 12.—Clement B. Studebaker III., 22-year-old son of Clement Studebaker, of South Bend, Ind., the automobile manufacturer, passed a restless day at the Copp hospital in this city, where he was taken with serious injuries received when his racing car collided with another machine at the junction of River street, Arlington, and the Myste Valley parkway.

His physicians fear a probable fracture at the base of the skull and internal injuries and are awaiting a favorable time to operate. The young man's parents are at the Hotel Touraine, Boston, having come from their summer home at Rye Beach, N. H., when notified of the accident. They passed the day at their son's bedside.

Young Studebaker is a student at the Masaschusetts Institute of Technology, where he is preparing to enter the Studebaker firm in South Bend, Ind.

WILL WORK FOR EICHHORN.

Delegates from the local order of Red Men to the great council meeting at Indianapolis Oct. 16, 17 and 18, have been instructed to lend their support to Judge Eichhorn, of Bluffton, who is a candidate for great junior sagamore. The local delegates are Great Chiefs Kleekahmp, McNamara, Howard, Millhouse, Drummond, Miller, Bernheimer and Habecker. At the regular meeting of the order Wednesday evening plans were made for a big campaign this winter. There will be progressive pedro and refreshments for all members and their paleface friends on Wednesday evening, Oct. 25.

Rev. J. F. Connelly, pastor of the St. Joseph's Catholic church at Lebanon, was in Fort Wayne Thursday calling on his brother, Thomas Connelly county treasurer.

RELIGION, TEMPERANCE AND HEALTH

Recalling the Past.

We suppose there are few, if any, who ever recall the past without more or less of regret and even of pain. And if we could rewrite its history—oh, if we only could—how many paragraphs would we erase—how many entire pages would we tear out and destroy? But, alas, the past—is past, and its history more unchanging than if engraved in stone or steel. No power, even that of Infinite, can erase one word—one single word of that which we have written, whether with baby fingers or the strong hand of maturity!

It is not that we have been guilty of real crime perhaps—of real, deliberate sin, against God or man, but we have all been weak, so weak and ignorant that, in our weakness and want of knowledge and experience, we did that which left an immovable blot on the page which might otherwise have been so fair. Some of these we call sins of omission—the failure to do that which we should have done and might have done. We are inclined to think of these as minor in character and yet in many cases they are tremendous in results. In many cases they involve the issues of life. In our selfish preoccupation or indifference, we fail to see what we might do for others or ourself—we fail to heed the personal warning of coming ill, or to reach out the helping hand to one in need, and that need is often great. How many times we might save—even life itself and many more times we might save tears, heartache, and character in those whose lives are tangent to our own and whom even a slight conserving influence might move to safety and peace.

But the pain that comes to the thoughtful and conscientious, in recalling the past, is only healthful in the measure of its effect. To weep over a day we have darkened, a life we have saddened or blighted and then to forget is worse than weakness—it is a sin! The only good is to warn us against that which we regret and turn us to right endeavor. The present will soon be—the past, and unless we change from that which marred the record of the past, we will have more and yet more to pain us in the years to come. The dark record will lengthen out and perhaps grow darker, for without amendment there is always retrogression.

Our confidence may have been often abused and our kindness received with ingratitude, but we have never regretted a single worthy act or impulse on that account. We looked not for reward other than that of our own heart and this we never failed to receive. We never gave a penny or a dollar to one in need that we regretted but we often regret that we did not give more!

Doubtless the most poignant regret that comes to any one in recalling the past is when the omission of helpful kindness, or real wrong was against the peace or happiness of some one really dear to our heart, and who have since passed into the unseen. All that longing love can now do is vain. The flowers with which we deck the grave may express our pain, but bring no relief to the saddened soul. And our best and brightest hope is that, perhaps hovering above us on viewless wings, they may mark our tears, and hear the sighs that break from our burdened spirit. Or, failing this, that somewhere, somewhere we shall meet them again and receive assurance of forgiveness for all that is past.

But all this, and all else that fancy might suggest cannot do away with the shadows that overhang the past—the sad pages in the annals of our life. Repentance is always good, but no repentance is real, substantial unless it brings about a change in the life. And since we cannot express our fond regret to those that are gone and can, in no measure atone to them for any pain inflicted by mere neglect, or positive wrong, our only proof and mode of repentance must be in the exhibition of that kindness to others we would fain bestow on those who have passed away.

Let us lay the lesson to heart today, for all about us are those to whom we may minister. Not only the poor, the sick or the sorrowful, may be brightened and comforted by our ministration, but even the jeweled woman in the fullness of health, or the millionaire, over whom, so far as the eye can see, no storm is brooding—even these may be made happier—better by a word, or a smile—in due season.

ARE YOU THIS KIND OF A PRISONER?

(From the Los Angeles Herald.)

"CHRIST ALL AND IN ALL."

(By Rev. G. L. Powell.)

Wonderful conception! We are indebted to Paul for it. The same apostle said, "For me to live is Christ and to die is gain." The scientist professes to trace back the endless variety of activity and service which he observes all about him to some one motive force, but Paul discovered behind the force a glorious personality. He found that underneath all true service there is love as a mighty incentive, and he goes farther back and asks for the origin of that love, and finding it growing in force and taking possession of his whole being, he exclaims, "The love of Christ constraineth me."

That is the secret of it all—the love of Christ; the love that found its expression in His life of suffering and death of shame. That was the one thing that made it impossible for Paul to be inactive: it was the power that impelled him to labor: it was that which converted every duty into a privilege, every task into a joy. Christ was at the heart of it all. Paul was the Christian philosopher, if you will. He did for the church what the scientist is trying to do for his school—for there is a yearning in the heart of man, however variously expressed, to realize that at the center of the endless varieties of beings and operations there is one controlling, governing principle. Paul found that, and more. He discovered that at the center of all not only one force, but one loving Almighty Person. He, therefore, saw no confusion in creation, but that "Christ is all and in all," and that life was no uncertain, restless thing, "for to me to live is Christ." He believed and taught that at the center of everything there is a loving, living Personality—Jesus, the Savior of men. And He is not only the center but the circumference also. "Christ is all and in all." In Him all differences are lost, since in Him all diversities meet.

"Christ is all and in all" in the lives of His followers. Mr. Spurgeon illustrates this thought with a legend: A certain man had a garden that produced nothing but weeds, till he met with a strange, foreign flower of remarkable vitality and fructility. By chance he sowed a handful of the seed in his garden and went away and left it alone. When he returned he was astonished at the sight, for he found that the plant had covered the whole garden, exterminated every weed, and from wall to wall, he could see nothing but the beautiful colors of the rare plant, while its sweet aromas filled the air.

Christ is that "plant of renown." If He be sown in the soil of the heart, he will gradually displace and exterminate the ill-weeds and root out the poisonous plants of sin and evil, till the heart becomes filled with His presence and the life made fragrant with His Spirit. Then we can say with Paul, "Christ is all and in all," "for to me to live is Christ." Our inspiration comes from Him, and whatever victories we gain we must recognize as His and His only.

How Closing of Saloons Worked

Mr. M. W. Purcell, District Attorney of the Fourth Judicial District of Colorado, says that the closing of saloons in that district "has been beneficial in the highest sense of the term." He continues:

"The buildings formerly occupied by saloons now contain prosperous business concerns engaged in grocery, clothing, jewelry, and other lines of business, and property values have not depreciated, but in many instances have increased. Merchants are not only doing a better business, but find no trouble in the collection of their accounts, and men to whom they would not extend credit last year are welcome credit customers today if they want to use their credit, which is seldom necessary, as they always have the cash to pay, and men are spending their time now with their families in newly-purchased automobiles bought with the money formerly frittered away in treating and petty gambling in saloons.

"Crime has decreased to such an extent that thousands of dollars formerly expended in court costs in State cases are now being set aside to be used for building roads and other improvements in the various counties.

"Police court and justice court cases have decreased about 60 per cent on an average and in some localities have been entirely eliminated. Savings accounts in the cities and towns of the district have increased about 30 per cent and all business men report a better tone to their business than ever existed before."

GOD BLESS THE GOOD-NATURED.

We have all known radiant people Whenever they came into the house they came in like a burst of sunshine It might be joy outside or it might be stormy, but whenever those people came in it was just like a burst of sunshine. What a blessing such a people are to any community and to any home!

God's word tells you just how to be that sort of a person. The verse tells you how "They looked unto him, and were radiant." (R. V.) You know God is the sun, and if you and I have time for communion with Him, we become sunny, too.—R. A. Torrey.

Dr. Torrey's Advice.

Dr. Torrey, the noted evangelist, gives this advice to converts:

"First—Keep looking at Jesus. Don't look at any man—look at Jesus. If you are troubled about your sins, look at Jesus on the cross and know all your sins were settled there. If you are tempted to sin, look at Jesus on the throne and know that he has power to keep. If you are puzzled as to what to do, look at Jesus, and ask what he would have you do.

"Second—Keep confessing every opportunity you get. The more you make of Jesus, the more he will make of you.

"Third—Keep studying your Bible, at least fifteen minutes every day.

"Fourth—Keep praying. Pray the first thing in the morning before you meet any one else. Pray the last thing at night. Pray when you are tempted. Every time you feel like it, pray! Every time you don't feel like it, pray!

"Fifth—Go to work. The working Christian is the strong Christian. Jesus has saved you, now go out and try to save some one else."

"PROVE ME NOW HEREWITH."

If any Christian who has never tried tithing will make the experiment, following it through to the end in prosperity and adversity, we predict for him two surprises: First, he will be astonished at the increased amount which by this method he is enabled to give to the Lord; and, secondly, he will be astonished at the increased spiritual and temporal prosperity which the Lord will give to him.—A. J. Gordon.

A CHEERFUL SPIRIT.

One of Haydn's friends once asked him how it happened that his church music was almost always of an animating, cheerful and even festive quality. The great composer replied: "I can not make it otherwise. I write according to the thoughts I feel. When I think upon God my heart is so full of joy that notes dance and leap, as it were, from my pen; and since God has given me a cheerful spirit, it will be easily forgiven me that I serve him with a cheerful heart."

"It Was Drink That Bought Me Here."

"Dorothy Dix" tells in the New York American of a talk with a young girl who sat in Assistant District Attorney Smith's office in New York. She was a witness in the recent "white slave" scandal. The district attorney's investigation brought to light that girls in the tenderloin were stripped, put on the block, and sold for a dollar a pound.

"Tell girls for me," said the girl, "not to drink. It was drink that brought me here. It was drink that brings almost every girl here who comes to this end.

"There's a lot been said during this vice investigation about the men who prey on young girls, 'doping' the drink that girls are given, or putting 'knock-out' drops in their liquor. Believe me, every drink that a girl takes is dope. Every drink is a knock-out one for her.

"It doesn't need to have drugs put in it. The liquor is enough of itself, for when a girl takes a drink I think her guardian angel takes leave of her.

"They say a woman can't stand alcohol. I believe it. Drink goes to a girl's head, and it goes to her heart. It excites her emotions and makes her do foolish things that she would be incapable of doing when she was cold sober.

"I have never met a girl who had taken the wrong turn of the road who didn't tell me that she had done it when she was so befuddled with liquor that she didn't know what she was doing, and I've never heard a man discuss whether a girl was good or bad that he didn't begin by stating whether she drank or not.

"I was not a drinking girl, but one night I went to a party where there was much wine and many toasts were drunk; and when I woke up the next morning I thanked God that my mother was dead.

"Tell girls for me that the only girl that is safe is the girl who never drinks anything stronger than tea or coffee. The devil may have tempted Eve with an apple, but he uses a cocktail now, and ruin and disgrace lie in the bottom of every glass.

"If you could keep girls from drinking there would be few such as I. It is drink that sends us to the gutter, and to the potters field after it has robbed us, in a few short years, of youth and health and beauty and the respect of our fellow creatures and of all that makes life worth having."

Power of the Word.

"I ran away from home when I was eleven years old," remarked a gray-haired man, grimy with sweat in the shop. "I never knew much about my people. I wandered over the country, was up and down the Mississippi several times. It was easy to drift and of course I learned to drink, and became a drunkard. I learned a trade, that of printer, but drink made it impossible to hold a job long. At last I determined to get away from the city and took to the farm, where I would work for two or three months at a time, and then go to the city to deposit my earnings.

"But I was sure to meet with some old pal, and would wake up the next morning wth a big head and an empty pocket. Not a cent had reached the bank. No new clothes had been purchased. This continued for two or three years.

"About that time, when I was now twenty-five, a revival meeting was held nearby, and I finally went though the crowd I had trained with, had always sneered at religion. And I had been taught in the saloon that it was so much hypocrisy and sham. But I heard the testimonies, became impressed, and went to my room and dug up a little testament a sister had given me years before. I began with the first page and read it right throug. It was that little book that changed my life and made me settle down. And now I have a nice home and my family grown, an honor to their parents and useful in the world." "Thy word shall not return void."—Rev. W. H. Jordan, in the Christian Intelligencer.

SAVED BY PRAYER.

A life-boat went out on a dangerous coast to the relief of a ship-wrecked vessel. The waves ran high and threatened to swamp the boat. At last the captain said: "Mates, shall we turn back? We are going to certain death. The ship has sunk, and doubtles all hands have gone down with her." There was a moment's hesitation, and then one man cried out, "No, let us go on. As I ran down the beach I passed two ladies on their knees praying for the lives of the men in yonder wreck. I believe God will hear them. I believe we may yet find some alive." His words had such an effect on the crew that they plucked up courage and rowed on amidst the breakers. They picked up five poor fellows, one by one, clinging to wreckage, and otherwise supporting themselves. The prayers of those two ladies had saved those lives.—Bombay Guardian.

A CONDITION OF SUCCESS.

We have to repent of and relinquish individual and national sins before we can hope for any real advance. Among these is the alcoholic crime which is exhausting national resources in money and food and men, and preventing military success. Britain will never achieve a decisive victory 'till the infamous drink traffic is prohibited.—Irish Presbyterian.

How to Escape Winter Colds.

Many make the mistake of wearing heavy suits of outer clothing in winter in addition to heavier underwear. They have in mind the very few hours they are in the open, when, as a matter of fact, they are indoors twenty or twenty-two of the twenty-four, the temperature often being as high as 80 and 85 degrees.

This is worse than summer heat, for with the windows closed the fresh air available in summer is lacking. Under these conditions perspiration is apt to be free and then the exposure on going outside to a temperature often 50 or 60 degrees lower, creates the ideal condition for taking cold.

The more sensible plan is to wear the same weight of outer clothes in winter that we do in summer, relying upon the overcoat alone for protection when outside.

For the success of this plan you should wear either mesh or woolen underwear and not cotton. Those who have adopted this form of winter dress know the comfort and decreased frequency of colds that result, and it would be difficult to persuade them to return to the old parctice.

It is almost necessary to have both a heavy coat or ulster for the severe weather and a light coat for spring and fall use. The ulster might be uncomfortable at the later seasons, whereas there are many days when it is unwise to go out without an overcoat of some sort.

The wearing of "chest protectors" is condemned. Quite the opposite of protecting they weaken the chest and render the wearer a much more easy prey to colds and other infections. The reason for this is that they make the chest more sensitive to cold. The best "chest protector" is a cool sponging of the chest every morning followed by vigorous rubbing.

Ever hear of the "American Posture league?"

It is made up of a group of people who are trying to educate the masses to realize the importance of a correct posture in preventing many of the ills and deformatories to which the body is suspectible.

They point out the harmful results of incorrect posture as most apparent in the growing period of life. It is at this period that the boys and girls must be taught the importance of avoiding incorrect attitudes, whether at work or at play, since the later result in ill health and even in deformity.

The principal cause of these conditions is the tendency of the young of both sexes to assume slouching positions. They sprawl in a chair rather than sit upright in it. They rest the weight on one leg, allowing the spine to become twisted or sit with stooped shoulders, when they should be sitting erect.

The "debutante slouch," so fashionable a few years ago, was one of the chief causes of ill health among young women.

The old school seat fashioned from one mold to fit all sizes and conditions of children is a potential cause of trouble.

One of the commonest examples of faulty posture is that of round or stooped shoulders. It is usually brought on by the slouching attitude previously spoken of, and is first noticed because it is unsightly. Slouching attitudes result from fatigue and may be the first sign that the child is working or playing beyond his strength.

DO YOU KNOW THAT—Soap and water, sunshine and fresh air, thoroughly applied, are the best disinfectants after disease, and the best preventives before?

* * *

By infection is meant the entrance into the body of living agents capable of multiplying and causing disease.

The symptoms of such infectious diseases are developed by the toxins or poisons produced by the invading germs. If these are strong enough to overcome the resistance which the normal body attempts to raise, severe illness or even death results. But the toxin in any case cannot multiply itself and the disease cannot be communicated from person to person without the living agent which manufactures that toxin. In these days a specific infective cause has been found for each of a large number of diseases.

We speak of pathogenic micro-organisms or microbes, or disease-producing organisms which can be seen only by the aid of the microscope. There are other pathogenic germs which the microscope has as yet been unable to reveal. These are termed ultra-microscopic.

Many infectious germs may be found upon the skin and mucuous membrane and produce no disease in the individual. In this way the germs of diphtheria, pneumonia, influenza and various other pathogenic micro-organisms may be found on the surface of the body. They produce disease only under favorable conditions, when the bars of local or general resistance are let down.

DISAPPOINTMENTS ENDED.

Many earnest Christians live disappointed lives. They are constantly expecting blessings, encouragements, victories, in their personal experience which do not come to pass. Then one day one of these habitually disappointed Christians enters wholly into "the life that is Christ;" and what a change! Instead of disappointments, each day is brimming over with unexpected surprises, supernatural blessings and victories: until, as one is borne on and on in the New Life, it seems as though heaven itself could not be much better than this "more than conquering" fellowship with Christ. The reason for it is because one's whole attention is now centered on Christ, not on self or on circumstances. And Christ never disappoints. He always more than satisfies. The "Victorious Life" is not "satisfied" in the sense of desiring nothing more; for one rejoices in the privilege of growing in grace every day and every hour. But disappointments are ended,—because He is our whole life and our only life.—Sunday School Times.

A COMMON SENSE POLICY.

Kansas is the first state to bar the drinker from holding public office. The civil service commission, at the suggestion of Governor Capper, incorporated this ruling in the new law. "Most of the big corporations and other large employers have adopted the policy of not employing drinking people," said the Governor in his letter to the commission. "In my judgment a state can well afford to follow in such footsteps."

One need not be much of a seer to predict that civil government all over the country, national as well as state and municipal, will soon "standardize" its business system in like manner. Even the anti-prohibitionist can recognize the value of total abstinence as a business asset.

GOD'S BUILDING MATERIAL.

God is prevented from doing what He wants to do with our lives when we give Him too much material to work with. He cannot use any of our "self"; it is wholly wrong material for His use. "God made the world out of nothing. Unless you are nothing but a sinner saved by grace, God cannot do much with you." He can work His "new creation" miracle in men when He has the same material that He used when He created the universe—nothing but His own power. He cannot use our self-life; but He can crucify it, replacing it with God the Son: and then the miracle of the Christ-life begins in us. So there is tremendous virility in the old hymn that has been mistakenly counted weak— "Oh, to be nothing, nothing." It is only when we are ready to be nothing that Christ can make Himself our all.

SEVEN LAWS OF FRIENDSHIP.

The seven laws of friendship are: (1) Moral sincerity. (2) Likeness of personality—that is, much overlapping of tastes. (3) Complimentary personality, sufficient unlikeness to give a zest and flavor to friendship. (4) Community of experience. What friends have lived through together is a bond that holds tight. (5) Growth. Friendship is not static. It must be wood afresh every day. (6) Loyalty. Not only a faithful recognition of the bonds already established, but also a sincerity and an absence of pretense. There must needs be a succession of growing comradeships for every growing life. It is folly to blow the ashes of a dead fire and pretend to be warmed. (7) Independence of personality.—Edward Howard Griggs.

CHRISTIANITY IN THE HOME.

There is no such school of Bible religion in the land as a happy, God-fearing home: no church so effective for restraint from evil, and for growth in all Christian graces, as "the church in the house." There stands the domestic altar. There is felt the influence that molds character from the cradle to the judgment seat: such a home on earth is the surest preparation for the home eternal. Of this "church in the house," the parents are the God-ordained pastors. The conversation of the fireside, the books selected for their reading, the amusements chosen for their recreation, the society that is invited and the aims set before them, all bear in one and the right way. It is in the power of every parent to help or to sadly hinder the salvation of the offspring. May God help all parents to fulfill their high and holy trusteeship.—Cuyler.

I MEANT TO.

"I meant to," but he put it off.
"I meant to" is echo of Regret.
"I meant to" means "It's too late."
"I meant to" is the poorest of all poor excuses.
"I meant to" acknowledges that he could, but did not.
"I meant to," but put it off—sad news in a sorry season.
"I meant to" will not feed and clothe and care for the needy.
"I meant to" will not buy an easy chair for indigent old age.
"I meant to" will not satisfy the mortgage and save the home.
"I meant to" will add thorns and thistles to many a dying pillow.

COLUMBUS DAY SEES BIG CROWDS AT FIELD

Thousands Take Advantage of Holiday to See World Series Game.

Boston, Mass., Oct. 12—The anniversary of the discovery of America by Columbus, observed as a holiday here, coincided today with the fifth game of the world's series between the Brooklyn Nationals and the Boston Americans. Thousands of persons, freed from their labors by the holiday, took advantage of the opportunity to go to Braves' field. The result, in the opinion of club officials, before the game was likely to be the greatest crowd in the history of baseball.

Braves' field, although holding the record for attendance of 42,300 in the series last year, has not yet been taxed to capacity.

It was a last trench which the Brooklyns prepared to make against the Red Sox. Three of the four games already played had gone against them by the force of Boston batsmen's strength or the sureness of the service of Red Sox pitchers. Only one game lay between the Boston team and another world's championship.

While thoughts of the players turned in part to the money end of the series, those of the prospective spectators remained fixed on the players and play. Batteries came in for first consideration.

Today the element of uncertainty in this connection was largely removed in the minds of the fans. It will be Smith for Brooklyn and Shore for Boston, nearly all agreed, as they exchanged opinions around the fires lighted beside the gate at Braves' field, where they went in the chill of the morning to obtain choice of bleacher places, the fans could figure on no other pitchers. Smith, because of his performance in the fourteen inning game which Boston won here on Monday, was held to be Robinson's best card. Shore, although uncertain in the opening game of the series which Boston won, was still held worthy of Manager Carrigan's faith, while Ruth, winner in the fourteen inning duel of Monday, was expected to be held in reserve for possible use to-morrow.

In the event that Shore slipped and Ruth failed, Manager Carrigan still held Leonard against the possibility of a last game fight for the title. The probable lineup for today:

Boston—Hooper, right field; Janverin, second base; Walker, center field; Hoblitzell, first base; Lewis, left field; Gardner, third base; Scott, shortstop; Cady catcher; Shore, pitcher.

Brooklyn—Myers, center field; Daubert, first base; Stengel, right field; Wheat, left field; Cutshaw, second base; Mowrey, third base; Olson, shortstop; Miller, catcher; Smith, pitcher.

The umpires were stationed as follows: Plate, Connolly; bases .O'Day; left field, Quigley; right field, Dineen.

Hard Record to Lower

Sidney Hatch Trains to Lower Time for Century Jaunt.

Chicago, Oct. 12.—Sidney Hatch, winner of a score of marathon races, has started training for his 100 mile run from Milwaukee to Chicago, set for Oct. 17. Hatch hopes to set a new record for the distance, which has been covered in 18:07:00.

The veteran long distance runner will be accompanied by several automobiles with watchers. Arrangements will be made to have hot food and drinks at various towns along the course, to be picked up by the autoists and served to Hatch so as not to slow his progress.

The start will be made from Milwaukee at 8 o'clock at night. Hatch expects to finish in Chicago between 12 and 1 o'clock the following afternoon.

YOST DOESN'T AGREE WITH MAULBETSCH CONCERNING FORM OF DROP KICKING.

Ann Arbor, Mich., Oct. 12.—John Maulbetsch, star halfback of the University of Michigan football eleven, may be used as a drop kicker by Yost this season. Maulbetsch has been practicing kicking since reporting for fall training and while his method of holding the ball with one hand has not won Coach Yost's approval, Maulbetsch has shown some improvement. Michigan is in need of a reliable kicker.

Friar Squad Goes Back to Hard Work

The Friar squad will practice tonight for the first time this week, due to the fact that the team had no small job putting over a win on the Hammond crew. Another practice will be held Saturday afternoon and then the Friars go out to meet the tribe of redskins who have taken the warpath. The visiting aggregation will be practically the same team which represented Carlisle against Harvard and other rivals of the school last year. The warriors live in Detroit now, and sell their services to the automobile manufacturers.

It has been reported that when Evanston plays here they may have the same Frank Blocker, who played here last Sunday, on their front wall. Any time in the future that Blocker is playing here the Friars won't have to worry about the ticket sale.

At the Rotary club meeting yesterday noon the Friar football team was officially endorsed and declared to be of value to the city in the way of advertising. At this time the club members decided to attend the Thanksgiving game in a body and accordingly made arrangements for a block of at least 300 seats. The committee appointed to arrange for Rotary day consists of Harry Hattersley, W. M. Griffin, Charles Biederwolf adn Carl Suedhoff.

GOOD HEALTH NEEDED FOR BILLIARDS, SAYS CHAMPION GIVING POINTERS IN THE SENTINEL.

(The first of four articles in which the world's greatest billiardist tells how billiards will build up health, and gives pointers on playing the game.—Editor). (By Willie Hoppe, world's greatest billiardist).

Much has been said concerning the strides billiards has made in the United States in recent years, and my views on the subject may interest lovers of the game.

I believe there are more good players in the country now than when I first took up the game but I claim those in the front rank have not advanced beyond the standard set by Schaefer and Ives twenty-five years ago. Naturally, I except myself, though not in a boastful way.

My scores at 18-inch balk line show I am playing this style as well or better than Schaefer or Ives ever played the 14-inch game, and I take no special credit for my superiority over others now playing, for I claim my mastery over the ivories is, to a large extent, intuitive.

I claim I am a born player ,and that my present isolation on top is due to natural gift for the game supplemented by years of practice and careful training.

All old time billiard fans know neither Ives nor Schaefer ever took the care of themselves that is absolutely necessary for pre-eminence in a game in which nerves play so large a part.

Like the ball players of a generation ago, these old experts took life easy. I have always taken care of my physical condition.

I do not smoke nor drink and I take plenty of exercise. I walk a lot and take occasional workouts on ball fields. Golf has proved beneficial on the eve of important matches.

Football Yesterday

Navy, 14; Maryland State, 7.

Annapolis, Md., Oct. 12.—The naval academy eleven defeated Maryland state college of agriculture here yesterday, 14 to 7.

That the score was not a 7 to 7 tie was due entirely to the nervousness of the agricultural men in the opening plays. The initial score of the sailors was made only after two fumbles by their opponents.

Michigan, 54; Carroll, 0.

Ann Arbor, Mich., Oct. 12.—Carroll college, of Wisconsin, was helpless before the rushing tactics of the University of Michigan football squad yesterday and went down to defeat 54 to 0. The visitors made one first down two minutes before the final whistle blew, but otherwise were unable to ward off the Michigan offensive.

TALKS HIMSELF NEAR JAIL.

Alexandria Man Arouses Indignation of Judge Anderson.

Indianapolis, Oct. 12.—Orin K. Stuart, of the Sunlight Gas company, of Alexandria, almost talked himself into jail yesterday for remarks made to Judge Anderson in federal court. Action against Stuart was brought by the Prestolite company to prevent him from refilling the plaintiff's tank with a gas made by Stuart. After he had been told that he was breaking a contract in so doing Stuart asked permission to address the court. He then asked Judge Anderson if he were a stockholder in the company. The court said: "If I thought you knew what you were saying, I would send you to jail right now."

Judge Anderson's "pity for the ignorant" saved Stuart from a sentence for contempt.

BIG YEAR FOR PLAYERS IN WORLD SERIES HAUL

Attendance Less But Gate Receipts Higher Than Last Year.

New York, Oct. 12.—Baseball statisticians figured today that $162,927, the players' share of the receipts from the present world's series, is the largest sum ever divided among the members of two clubs in any world's series. Sixty per cent of it goes to the winners and 40 per cent to the losers. If Boston wins the series, each of the twenty-six members of that club will receive $3,332.49 and each of the Brooklyns $2,715.41. If Brooklyn should win each of the twenty-four players of that club will pocket $4,073.10, which would net a new record for the amount won by the individual players in any world series. Should Boston lose, the players of that club would receive $2,506.53 each.

Although the attendance at the first four games this year has been nearly 3,000 less than last year, the receipts in 1916 were more than $33,000 higher than in 1915, the total for four days that year being $301,717. The best previous mark of four games was in the series between the New York Nationals and Boston Americans in 1912, when the total receipts were $275,282. The attendance that year was almost 17,000 more than this year, but higher prices for seats have prevailed in 1916. For the remaining games of the series the players will have no share in the receipts. Charles H. Ebbets, president of the Brooklyn club, in discussing his offer to sell his club, said today he had several offers for his stock, which is believed to be 51 per cent of the total. He would not say what price he set upon it nor whether any of the offers are near his demand. He said he was still enthusiastic over the game but tired after thirty-four years in the executive end of the sport.

CARROTS AND TURNIPS ARE SCARCE ARTICLES

National Holiday Seemed to Have Effect on the Local Markets.

Truckmen and farmers are alike in their opinion that the carrot and turnip crop this year is but little ahead of a flat failure. The hot weather this summer dried up the stalks and as a result there is but very little beneath the ground. The few that appeared on the city street markets Thursday morning were small.

The national holiday seemed to have an effect on the markets. As a rule Thursday is usually a very active day, but today there was nothing doing. Receipts were very small and prices in all departments remained the same as yesterday.

Wheat holds out at $1.52 a bushel and the old price on live stock is the same. Rye prices are up very high but no change has been made in the paying price for nearly a week.

New corn sold for 60c a bushel on the market Thursday, while the old grain of last year brought 82@84c a bushel. The city weighmaster weighed 22 loads of hay which sold for $10.00@12.00 a ton.

BABY BONDS MAKE A PERFECT SECURITY

First mortgages on local real estate are known to be the last word in investments as far as safety is concerned, and since Baby Bonds are secured by first mortgages, men who are qualified to advise small investors are quite unanimous in expressing their approval of this security as a saving method. Baby Bonds come in $10 denominations, are secured by first mortgages on local real estate, and bear six per cent interest. There are also similar bonds of $500 denominations, bearing the came rate of interest and secured in the same manner. For details regarding either, see the Wildwood Sales company, Shoaff building.—Advertisement.

TWO SPECIAL TRAINS BRING GRAND OPERA

277 People and Wealth of Setting for "Faust" This Evening.

Two special trains, bearing the 277 members of the Boston National Grand Opera company, which is to sing Gounod's opera Faust at the Palace theater this evening, reached this city today. The first train was composed largely of baggage cars and carried the scenery for Faust and a special crew of stage carpenters, electricians and property men. This train of nine cars arrived at an early hour this morning.

The work of unloading the Faust scenery, which is from the studio of the celebrated Viennese painter of stage pictures, Josef Urban, was begun at once and long before noon everything was in readiness on the scenic side for tonight's performance. Two baggage cars were left in Fort Wayne for the transportation after the performance of the settings. The other cars were sent on ahead to Indianapolis, where the Boston National gives a season of three days as a part of the Indiana state centennial celebration.

Second Train Arrives.

The second train, which carried artists, chorus, orchestra, ballet, musical director, conductors, the full mechanical and technical staffs, reached the city in the afternoon.

This train, too, carried five baggage cars with the scenery for operas, which are to be given elsewhere, and for the personal baggage and costumes of the artists who are to sing in Faust.

In addition to the five baggage cars this train was made up as follows:
One coach for the Ballot Russe.
One coach for the staff.
Two coaches for the chorus.
Two coaches for the orchestra.
Three parlor cars for the artists.

Prominent among the araists notw at the Anthony hotel resting for the performance tonight is Maggie Teyte, the English soprano, who is this year, as last, with the Boston National. Miss Teyte's Marguerite is one of the standard characterizations of grand opera. She has sung Marguerite at Covent Garden, London, at the Champs Elysees in Paris, and is an artiste whose triumphs in Paris, Berlin, London, as well as in this country, are matters of musical record.

Riccardo Martin, the Faust, is America's leading tenor. Mr. Martin is under contract this year with the Boston National and the Metropolitan Opera company, of New York. His contract calls for a certain number of performances with each organization. Martin created the role of Pinkerton in Madame Butterfly, when the Puccini opera was introduced in this country. He customarily sings in New York, alternating roles with Caruso.

Treat is in Store.

This city has a treat in store in the Mephisto of Jose Mardones, the great Spanish basso. Mardones is ranked by the critics as the world's greatest basso profundo. Mardones made his operatic debut in his native Madrid. Then followed sensational appearances in Lisbon, Rome, Turin and Buenos Aires. Then Milan, Paris, London and other world centers of operatic production claimed him. His American debut was made last season with the Boston National, after he had concluded an engagement with Alice Nielsen and Luisa Tetrazzini.

Managing Director Max Rabinoff of the Boston-National has provided, too, an eminent artist for the role of Valentine in the person of Auguste Bouilliez, the famous baritone from the Theatre-Royal de la Monnaie of Brussels. Bouilliez was a great favorite with King Albert after the sovereign had heard Bouilliez sing. It was at the direction of the king that Bouilliez was made leading tenor at the Royal theatre of Brussels. Bouilliez came to this country at the expiration of his service in the Belgian army as a lieutenant.

The cast in full follows:

Faust	Riccardo Martin
Mephisto	Jose Mardones
Marguerite	Maggie Teyte
Valentine	Auguste Bouilliez
Wagner	Giorgio Puliti
Siebel	Fely Clement
Martha	Elvira Leveroni

The full Boston-National orchestra of sixty-two musicians, the chorus of seventy-one and the Ballet Russe of more than forty dancing artists are employed in the Boston-National production of "Faust."

Managing Director Max Rabinoff of the Boston-National company, believes that each artistic factor should be carried to its maximum. Consequently, he not only had all of the "Faust" principals rehearsed in the summer in the Catskill mountains where at his direction they spent a large part of the summer, but where he also saw to it that chorus, orchestra and ballet underwent similar training.

Mr. Rabinoff presents with each opera a ballet. The ballet tonight which will be rendered with the full strength of the Ballet Russe is one which in Europe is always seen in important "Faust" productions, but which has not been given in this country with "Faust" until Mr. Rabinoff restored it to the score of Gounod.

This is the famous Walpurgis Night Ballet. In the opera it is a temptation of "Faust" devised by Mephisto to lull to sleep the conscience of Faust and to make him forget the Marguerite tragedy.

The setting is rich and atmospheric and from the studio of the Viennese scenic artist, Josef Urban.

All in all this city will see tonight a production of "Faust" which is in every respect opera precisely as presented in the big European centers of opera.

Chevelier Fulgenzio Guerrieri, who was knighted by the king of Italy, Victor Emanuel, for his attainments as a composer and a conductor, will preside at the conductor's desk during tonight's performance of "Faust," while Adolf Schmid, of Covent Garden, and the Champs Elysees, acts in a similar capacity during the Walpurgis Night Ballet presentation.

The heaviness of the production and the size of the orchestra as well as the large number of singers engaged made necessary certain alterations in the Palace theatre. Four rows of orchestra seats were removed to provide space for the musicians, while special lighting devices were installed on the stage by the Boston-National force of electricians.

The trains used by the Boston-National will take the company on a tour of the principal cities of the country—a tour which began at Boston and which will end on the Pacific coast at the beginning of next summer.

WEATHER CONDITIONS.

An area of high pressure occupies the Atlantic states, and another high area is moving inland over the north Pacific states. A depression is centered over the upper Mississippi valley, and loops of this depression extend southwestward to Arizona. Except that local showers occurred in widely separated places in the south and west, the weather has been generally fair during the last 24 hours. Moderate temperatures prevail in western districts, but the weather is cooler than the seasonal average over an area extending northeastward from Georgia to the St. Lawrence valley, and local frosts occurred over a considerable portion of that area this morning. P. M'DONOUGH, Local Forecaster.

Prince Frederick, a Swabian nobleman, was the first Hohenzollern to figure in history. Early in the fifteenth century the emperor of Rome sent him to subdue a revolt in Brandenburg.

MANY WOMEN BUY BABY BONDS

Since the issue of Baby Bonds many women stenographers, bookkeepers and others holding salaried positions have cultivated the habit of saving a part of their earnings by investing in this security, and now a large percentage of this class are coming back with additional savings and increasing their holdings of Baby Bonds. Baby Bonds are particularly [illegible] as they are sound beyond all question, being secured by first mortgages on local real estate and bear six per cent interest and come in $10 denominations. There are also larger bonds in $500 denominations having the same security and bearing the same amount of interest. UNCLE SAM TEACHING FARMING TO FARMERS

350 County Agents Under Smith-Lever Bill Doing Fine Work.

(By F. W. Kerby.)

Washington, D. C., Oct. 12.—For two years the United States department department of agriculture has been engaged in the biggest school-teaching job ever conceived in the world's history.

On May 8, 1914, the Smith-Lever agricultural extension act became law. It recognized a new class of pupils—grown men and women working all day to make a living on the farm—as well as farm boys and girls, and proposed to take to the average farmer all the information developed by the experts of the states and the nation in every department of farm work and induce him to apply it to his individual farm.

Carried out, this policy would revolutionize agriculture. The act makes available more than $8,000,000 annually, and places the brains of the states and the nation at the disposal of the humblest farmer.

At least 95 per cent of the funds must be spent right out on the farms among the farmers.

The agricultural department and the state agricultural colleges have been working together to carry out the act Demonstrations are conducted by county agents—skilled agricultural leaders placed in each county to devote their entire time, thought and energy to the agricultural development of the locality.

Does a farmer want to know what kind of a crop to plant? He asks the county agent.

Does he want to know the best way to build a silo The county agent will tell him. Is he thinking of digging a new well? The county agent will advise him.

Up to the present time there have been assigned 1,150 men and 410 women county agents. These men and women have hundreds of department and state specialists always at their beck and call to consult on special farming problems. Under Secretary of Agriculture Houston, Dr. A. C. True, head of the states relations service, has charge of this work.

In the fifteen southern states during the past fiscal year direct demonstrations of some phase of farm work were made on 105,000 farms. Instruction was given 60,000 boys and 50,000 girls.

The county agents made about 500,000 visits to farms and directed building of 30,000 silos. About 13,000 pure-bred animals were purchased by their advice, 118,000 hogs inoculated with hog cholera serum in demonstrating the method to thousands of farmers, and 2,000 dipping vats were constructed in connection with educational work in the eradication of the cattle tick.

The agents showed thousands of farmers how to take out stumps to provide for better cultivating and advised on methods of draining 65,000 acres of theretofore useless swamp lands.

The women county agents organized work for women by demonstrating home conveniences, elimination of flies and mosquitoes, proper preparation of food, care of chickens and marketing of eggs.

Organization work in the northern and western states, more recently undertaken, has also resulted in great improvement.

The number of agents grew from 219 at the beginning of the last fiscal year to 350. These formed 875 local organizations; conducted 35,000 demonstrations with crops and live stock; visited 76,000 farms, and helped develop agricultural instruction in 4,600 schools.

More than 72,000 farmers and their families attended short courses or movable schools inaugurated by these county agents.

On their advice, too, 600,000 acres of tested corn, 280,000 acres of oats, 17,000 acres of potatoes, and 85,000 acres of alfalfa were planted.

In addition, a vast amount of other work, such as organization of all kinds of boys' and girls' clubs was carried on. In a few years the work under the Smith-Lever act probably will be the most extensive educational work being carried on anywhere in the world.

OLDEST WOMAN BORN IN WEST SAW MASSACRE

Idaho Octogenarian Recalls Days of Indian Uprising Long Ago.

Coeur d'Alene, Idaho, Oct. 12.—"The most interesting woman in the west" is the title given by pioneers to Mrs. Eliza Spaulding Warren, octogenarian, the oldest woman born west of the Rocky mountains. Mrs. Warren's home is here. Spry and hearty even at her advanced

Mrs. Eliza Spaulding Warren.

years she recalls the days she spent as a child among the Nez Perce Indians in the Lapwai, Idaho, region. The only white child in all that country, the Indians made a pet of her and taught her many secrets of forest and stream. She learned to speak their language fluently.

Her parents, Rev. and Mrs. H. H. Spaulding, crossed the mountains with Marcus Whitman and his wife in 1836. The Whitmans settled in the district known as Walla Walla, and in 1837 was born a little daughter, the first white child to be born in the great west.

When she was nine years old her father decided that she should have some schooling, and sent her, in care of an Indian squaw to Marcus Whitman's home, where a small school had been established.

The next winter she went to the school with her father. It was while the children were in the schoolroom that the Indians went on the warpath, and looking out of the windows they saw their fathers fall. Mr. and Mrs. Whitman were killed before their eyes. Mrs. Warren's father was out of the settlement at the time, and so escaped the massacre. The pupils were brought downstairs and lined up against the wall, and each thought that his end had come.

"I saw one of the great war chiefs swagger in," said Mrs. Warren, "and when some one asked him if the women and children were to be killed he said, 'No, we won't kill the women and children, now!'

"They kept the women and children prisoners for three weeks, and during that time I had to be the interpreter. They kept me flying from one place to another, and not a day passed but in fear and trembling I went to the Indians and asked them when we were going to be killed."

Peter Skeen Ogden, chief factor of the Hudson Bay company at Vancouver, ransomed the women and children by sending boatloads of blankets and ammunition up the Columbia river in the dead of winter.

"I was two years getting over the frightful experience," continued Mrs. Warren. "With my head in my hands I lived those awful three weeks over and over again. Not a day passes yet that those awful cries do not ring in my ears. The fright was the real cause of my mother's death three years later."

U-BOAT CASE CLEARS

Submarine Issue Takes on More Satisfactory Status.

NO NEW DISTURBING DEVELOPMENTS COME

Admiral Gleaves Believes Kingstonian Not Among U-Boat Victims.

Washington, Oct. 12.—The whole submarine situation both as to the recent raid on the New England coast and the broader question of agitation in Germany for a ruthless resumption of the warfare shows signs in official quarters of having practically cleared up.

No new developments are reported and no new disturbing information has come to the state department according to officials to change the decision arrived at by President Wilson and Secretary Lansing.

As to Neutrality Patrol.

While no immediate steps are in contemplation for the actual establishment of a naval neutrality patrol along the Atlantic coast as a result of the German submarine raid, the navy department has completed a definite plan to be put into operation if the campaign continues.

The entire destroyer force, active and reserve, assisted by the light cruisers, navy tugs and other auxiliary craft would be employed to protect American territorial waters and also to prevent the establishment of any secret bases ashore or communication between shore and radio stations and belligerent craft.

The posibility of mobilizing the force of privately owned motor boats along the coast which have been enrolled with their crews as a part of the naval reserve was first considered but various obstacles were encountered. Naval militia officers and men already have been assigned to reserve ships for service if necessary.

No Kingstonian Sunk?

Rear Admiral Gleaves, commanding the Atlantic destroyer flotilla, reported today his personal belief that no steamer Kingston or Kingstonian was sunk by the German submarine during its operations off Nantucket light ship. After several days of search the destroyer force has found no evidence that a ship of that name was in the vicinity and if Admiral Gleaves theory is correct only five ships were sunk. Admiral Gleaves' report follows:

"Destroyer continued the search until midnight Tuesday from Montauke Point to the Nantucket light ship. It is my personal belief that all survivors have been accounted for and that there was no steamer Kingston or Kingstonian, the name Knudsen having been understood by hail to be Kingston. Destroyers have returned and search discontinued."

The captain of one of the sunken ships said that he had hailed a passing vessel which was later destroyed and understood her name to have been given as Kingston. The Knudsen was destroyed by the submarine in the same vicinity.

The navy department today received a report from Rear Admiral Knight, at Newport, giving detailed accounts from the commanders of four of the steamers sunk by a German submarine off the New England coast. Naval officials refused to comment upon its contents and it will be transmitted to Secretary Lansing for study in connection with the determination of the policy of the United States.

ENCOUNTERED TOO MANY DISCOMFORTS LAST YEAR

Public School Teachers of City Decide Not to Go to State Meeting.

Declaring that too many discomforts were encountered last year while attending the annual meeting of the Indiana State Teachers' association at Indianapolis, the public school teachers of Fort Wayne have decided unanimously not to attend the gathering this year. This decision was announced at the meeting of the principals of the various schools held at Prof. Justin N. Study's office Wednesday afternoon.

The principals reported the vote of the teachers at each of the various schools. The state meeting will be held this year on October 26, 27 and 28.

The teachers also consider the fact in making their decision that there are too many breaks in the first semester of school and attending the state association meeting would cause another one.

Superintendent Study will arrange for any teacher who is on the program at a sectional meeting or connected with the association in any way to attend this meeting if he or she desires to do so. The schools, however, will not be closed.

PROBE REGISTRATION FRAUDS AT DETROIT

Prosecutor Contends 20,000 Names Are Illegally on the Books.

Detroit, Mich., Oct. 12.—Investigation was being continued today into alleged irregularities in the recent registration of voters here. The election commission, following a report made by Prosecuting Attorney Charles H. Janowski, has ordered a complete checking up of the 130,000 or more names written upon the latest registration books.

The prosecuting ttorney who made an investigation of charges of irregularities in presenting his report expressed his belief that more than 20,000 fraudulent entries were made upon the books. With his report he handed in resignations from thirty-nine precinct officials.

John E. Kinnane, United States attorney for the eastern district of Michigan, has received permission from Washington, it is said, to supervise the November elections in Detroit, should he deem such action warranted.

DECLARES PEONS WOULD RUSH TO VILLA'S AID

Fear and Hate Bandit, But Believe U. S. Seeks Conquest.

El Paso, Texas, Oct. 12.—Notwithstanding the sufferings of peons in the district in which Villa is now operating, they would rise to a man in Villa's behalf if the American punitive expedition were to attempt to move south of its present base, according to the report made to his superiors today by a Mexican protestant missionary, who has just returned from a visit to central Mexico.

The peons, he explained, fear and hate Villa, but they have been taught to believe that the Americans would go after Villa only with the masked purpose of seizing and annexing the country. Many refugees, the missionary, reported, who come out of the interior for the United States are stopped at Chihuahua City by Carranza recruiting agents who tell about the difficulties in passing the American inspectors at El Paso and persuade the men to enlist.

PETITION ASKS SCOTT DECLARED BANKRUPT

Petition has been filed in United States district court asking that Ross J. Scott, proprietor of the Star bowling alleys at 306 West Williams street, be adjudged a bankrupt. He is alleged to have liabilities in excess of $1,000. On Sept. 28, 1916, it is alleged, he transferred to William J. Steckbeck, a cigar manufacturer at 2217 Lafayette street and a creditor, all of his stock of merchandise with the idea of making him a preferred creditor on a claim of $336.25.

Creditors of Scott and the sums he is owing them are as follows: Hert Candy Company, $235.57; A. H. Perfect & Company, $71.99; Coony Bayer Cigar Company, $48; Mary J. Schneider, $26; Frank J. Motherwell and George H. Schmieles, $25.90 each; Al Hazzard, $72.75, and L. F. Aumann, $52.80.

EX-KING OTTO, LONG INSANE, DEAD, REPORT

London, Oct. 12.—Former King Otto, of Bavaria, who has been insane for many years, has died suddenly, according to a Copenhagen dispatch to the Exchange Telegraph, quoting a Berlin official announcement. The mad king died at Fuerstenried castle, near Munich, where he had been confined since 1873.

King Otto was born on April 27, 1848, and succeeded his brother, Ludwig II., in 1883. Ludwig also was insane, and drowned himself in Starnberg lake. King Otto was deposed on Nov. 5, 1913, and was succeeded by the present monarch, Ludwig III., formerly regent.

RUMANIANS IN FLIGHT

With Teutonic Troops in Hot Pursuit in East Transylvania.

FRESH AUSTRIAN ARMY UNAVAILING

Cadorna's Success for the Italians Seems to Be Important One.

Today's War News Given in Summary

Gen. Cadorna's reported success in the breaking of the Austrian lines at several points southeast of Gorizia in the sudden renewal of the Italian drive toward Trieste is declared by entente correspondents at the front to have been effected in the face of strengthened Austrian lines to which fresh troops recently were sent.

Vienna in its latest statement claims that the Italians have been driven out of many trenches they had penetrated and that fighting is being continued for possession of others. The Austrians took 1,400 men of the attacking forces. Rome has reported the capture of more than 5,000 prisoners in the course of the advance.

Latest reports on the situation in Greece are that the Greek authorities have yielded to the entente demands for the turning over of virtually the entire Greek navy and the dismantling or surrender of forts on the seacoast. Control by the entente of all material for naval operations and of railroad, mail and telegraph service so as to render impossible its use to the detriment ofthe entente forces is reported to have been included in the demands.

A lull again seems to have set in along the Somme front in northern France following the heavy fighting of the last day or two. London reports that no incidents of moment occurred last night.

Berlin, Oct. 12.—Teutonic troops are pursuing the Rumanian forces on the whole eastern Transylvanian front, says the official statement issued today by the German army headquarters staff. The second Rumanian army, the announcement adds, has been driven back into the frontier position.

All attacks made yesterday by the Anglo-French forces against the German position on the Somme front, according to today's German official statement, were repulsed.

FIRST MONTH SHOWS INCREASE OF 334

At the close of the first month's work in the schools of the city, an increase of 334 pupils is shown in the reports submitted by the principals. This is a very large gain and school officials are pleased. A gain of nearly a hundred is expected for next month and a very large gain is expected at the beginning of the second semester's work.

The enrollment in the various public schools at the end of the first month's work is as follows: Normal, 28; high school, 926; vocational school, 108; Adams, 139; Bloomingdale, 616; Clay, 391; Franklin, 223; Hamilton, 412; Hanna, 541; Harmar, 578; Hoagland 442; Jefferson, 449; Lakeside, 278; McCulloch, 146; Miner, 460; Nebraska, 426; Rudisill, 224; Smart, 722; South Wayne, 351, and Washington, 361. This makes a total of 7,818 pupils in the schools.

THIEVES MAKE RICH HAUL AT DRUG STORE

Meyer Brothers' Establishment at Calhoun and Wayne is Visited.

Thieves made a rich haul some time Wednesday night or early Thursday morning at the Meyer Brothers' drug store at Wayne and Calhoun streets. Between $30 and $40 in money was taken from the three cash registers, six dozen of the best fountain pens in the store, the finest safety razors and many other articles which cannot be determined until after an invoice is taken.

Entrance was gained through the rear door, which was "jimmied." The rear door is off of a small hallway from Wayne street, which is the entrance to the stairway leading upstairs. It would be very easy for thieves to "jimmy" the door without being detected and after once inside they could work without much danger of being seen from the outside on account of the high showcases.

The job was done in a manner similar to other downtown robberies within the last few weeks. The police are of the opinion that they were committed by local talent and have been conducting their investigations accordingly.

The thieves who entered the Meyer Brothers' store left no clue whereby their identity might be revealed. That they knew their business was indicated by the fact that nothing but the best was taken. For instance, the cheaper fountain pens were not disturbed. The same is true of the safety razors. They apparently had no use for the dollar kind. Many other articles are believed to have been stolen, but there is no way of telling until a thorough invoice has been taken.

The robbery was not discovered until after 9 o'clock, as the clerks opening Thursday morning were not on duty when the store was closed Wednesday night. They noticed that there was no change in the cash registers, but did not think much of it until they later discovered that the fountain pen case was empty. The police were immediately notified.

SOLICITORS COME RIGHT BACK AGAIN

Aid Given Them in No Way Aids Local Fight on Tuberculosis.

Halted by newspaper articles, which set out clearly that aid given them in no way assisted in the local war on tuberculosis, a corps of women selling literature for the benefit of a New Mexico institution, returned to Fort Wayne Thursday morning and began operating in the residential districts of the city. On previous visits, the aid was sought in stores, offices and similar places of business.

The bulletin of the National Anti-Tuberculosis league has assailed the work of the organization which these women represent, and declares they are sent into the various states to sell literature on a commission. The Anti-Tuberculosis league of Fort Wayne Thursday authorized a reiteration of the statement that the ladies are in no way connected with the local society to combat tuberculosis, and that no part of the revenues they derive from the sale of literature goes to the work in Fort Wayne.

GRAND JURY INDICTS NINETEEN VILLA MEN

Deming, N. M., Oct. 12.—Nineteen Mexicans held by army authorities at Colonia Dublan for alleged connection with the Villa raid on Columbus, N. M., March 9, have been indicted by the Luna county grand jury, it became known today. All are charged with murder.

Because officers with the punitive expedition cannot absent themselves to attend court now, the prisoners will not be tried at this term but held at field headquarters. Seven Mexicans already have been convicted here on similar charges, six of them being hanged and the sentence of one commuted by Governor McDonald to life imprisonment.

INDIANAPOLIS HAILS WILSON

Enthusiastic Acclaim for President at Indiana Capital City.

TALKS TO FARMERS AND GOOD ROADS MEN

Trip Into Indiana Brings Wilson an Ovation at Every Point.

Indianapolis, Ind., Oct. 12.—On his second middle western trip of the campaign President Wilson came to Indianapolis today to speak to farmers and good roads advocates. He arrived here at 11:30 o'clock, facing a strenuous program which promised to keep him busy every minute until his departure at 5:45 o'clock this afternoon.

At the railroad station and along the streets he was greeted by cheering crowds.

Plans Were Non-Partisan.

The reception to the president was arranged by a non-partisan committee. Following a lunch at a hotel, however, he reviewed an automobile parade and as he passed through the streets, stood and bowed frequently to the crowds.

Many of the buildings along the route of the parade were decorated with American flags and the windows were packed with people. A crowd was jammed in front of the hotel where the president had luncheon with Governor Ralston, of Indiana, and a group of guests. The first set speech by the president was arranged to be delivered before a good roads meeting at the state fair grounds, following the automobile parade. Another speech to a group of farmers was to follow almost immediately. At both meetings the president planned to speak extemporaneously. After the second address he was to hurry to his private car to begin his trip back to Long Branch, N. J.

Greeted Along Route.

The president was cheered by large crowds at several towns in Ohio and Indiana on the way here. He appeared first at Dayton, Ohio. When urged to appear at Richmond, he said: "I am not making speeches, but it is mighty fine to see you. It makes my heart warm to have you come out and greet me in this way," and observing that

DOES NOT BELIEVE BERLIN WILL UPHOLD

Dutch Minister Asks Explanation of Sinking of Grain Ship.

The Hague, Wednesday, Oct. 11.—(Via London, Oct. 12.)—"I cannot believe that the sinking of the Bloemersdijk will be upheld by the German government," said Minister of Foreign Affairs Louden to a representative of The Associated Press this afternoon. Minister Louden, after having received a report on the case from the envoy of the Netherlands government in Washington, was just about to dispatch a note to Berlin which in the customary diplomatic terms asked for an explanation for the sinking of this grain ship in the Atlantic off the New England coast during the German submarine operations of last Sunday.

"He said he could not explain the act other than that it was committed in a misinterpretation of orders by a hot-headed submarine commander (flagrant examples of such action he noted having occurred before) who, having ascertained that the cargo was grain and that the ship would touch at Kirkwall had sent her to the bottom without heeding the fact that the grain was consigned to the Dutch government. If Admiral von Tirpitz had been at the head of affairs in Germany it would be understandable," added the foreign minister, "but I cannot believe it of Chancellor von Bethmann-Hollweg, and I fully expect, nay, I am sure, that Germany will disavow the act of her commander and tender reparation for this absolutely unjustifiable act."

Boston, Oct. 12.—The Boston Americans are again the world's baseball champions.

Before 42,620 persons, the largest crowd that ever witnessed a contest for the highest honors in baseball, the American league champions defeated the Brooklyn Nationals this afternoon by a score of 4 to 1 in the game that decided the world's series.

Ernest Shore, Boston's big righthander held the national league pennant winners to three hits, one a scratch.

The Bostons peppered Pfeffer when runners were on the bags waiting to score.

Of the five games necessary to decide the present pennant race, Boston won the first, second, fourth and fifth games, while Brooklyn captured the third contest.

The National commission announced the following figures for today's game: Attendance, 42,620; receipts, $83,873; each club's share, $37,742.85; National commission's share, $8,287.30.

Announcement of the batteries sent Pfeffer and Meyers into the points for Brooklyn, with Shore and Cady for Boston. The fielding of both teams in practice was snappy and brisk.

The outfield stands were jammed to capacity, and it looked as though a new attendance record would be set for a world series game. The air was crisp and clear, but south winds had tempered somewhat the chill of the earlier hours of the day.

PLAN SKAT TOURNAMENT.

The first skat tournament as planned by a committee of the Turners will be given on Sunday, Oct. 29. This date was chosen at a meeting held Wednesday evening. The classes at Turners have a fair membership and everything points to a successful year. Thirteen members were admitted Wednesday evening.

TODAY'S GAME PLAY BY PLAY.

FIRST INNING.

Brooklyn—Myers up; strike 1; strike 2; Shore brought two out curves over the plate for straight strikes; Myers fanned on three pitched balls without offering at any of them. Daubert up; ball 1; strike 1; ball 2; foul strike 2; Cady threw out Daubert at first taking his easy roller in front of the plate and throwing him out. Stengel up; ball 1; ball 2; Scott took Stengel's grounder and threw wildly to first, Stengel, however was held at first. Wheat up; ball 1; Wheat fouled out to Hoblitzell. No runs, no hits, 1 error.

Boston—Hooper up; strike; foul strike 2; ball 1; ball 2; ball 3; Cutshall threw out Hooper after the count was 3 and 2. Janverin up; ball 1; strike 1; Mowrey threw out Janverin. Shorten up; ball 1; ball 2; strike 1; Shorten filed to Wheat. No runs, no hits, no errors.

SECOND INNING.

Brooklyn—Cutshaw up. Ball 1; ball 2; ball 3; Cutshaw walked on four straight balls. Mowrey up. Mowrey sacrificed, Hoblitzell to Shore, Cutshaw moving to second. Olson up. Gardner threw out Olson at first, Cutshaw reaching third. Meyers up. Ball 1; Cutshaw scored on a passed ball; strike 1; ball 2; Scott threw out Meyers at first. One run, no hits, no errors.

Boston—Hoblitzell up. Ball 1; ball 2; strike 1; foul strike 2; ball 3; Pfeffer threw out Hoblitzell. Lewis up. Strike 1; strike 2; ball 1; Lewis shot the ball to the left field fence for a three base hit. Wheat played the ball badly and it bounded over his head. Gardner up. Lewis scored on Gardner's sacrifice fly to Wheat. Wheat's throw to the plate was very wide. Scott up. Scott sent up a high foul to Mowrey, who dropped the ball. Foul strike 1; strike 2; foul; Scott got a foul out to Meyers. One run, 1 hit and one error.

THIRD INNING.

Brooklyn—Pfeffer up. Ball 1; strike 1; foul strike 2; Pfeffer struck out, missing a fadeaway by a foot. Myers up. Gardner took Myers' easy roller and threw him out. Daubert up. Shore took Daubert's grounder and nailed him at first. No runs, no hits, no errors.

Boston—Cady up. Cady singled over Daubert's head. Shore up. Foul strike 1; ball 1; Meyers almost picked Cady off first having called for a pitchout. Shore fouled to Meyers trying to bunt. Hooper up. Ball 1; ball 2; ball 3; Hooper walked. Cady goink to second. Janverin up. Strike 1; foul strike 2; ball 1; Cady scored when Olson fumbled Janverin's grounder and then threw wildly past Cutshaw. Hooper went from first to third on the play. Janverin was safe at first. Olson got two errors on this play. Shorten up; strike 1; strike 2; ball 1; Janverin was out stealing, Meyers to Olson. Ball 2; Hooper scored on Shorten's blazing single to center. Hoblitzell up. Strike 1; foul strike 2; foul; Shorten out stealing, Meyers to Olson. Two runs, two hits, two errors.

FOURTH INNING.

Brooklyn—Stengel up. Ball 1; strike 1; Stengel sent up a lofty fly to Shorten. Wheat up. Strike 1; strike 2; ball 1; Wheat struck out. Cutshaw up. Ball 1; strike 1. Shore took Cutshaw's weak tap and threw him out. Shore was pitching a superb game, not a hit being made off him in the first four innings. No runs, no hits, no errors.

Boston—Hoblitzell up. Ball 1; ball 2; ball 3; Hoblitzell walked. Pfeffer pitching four straight balls. Lewis up. Lewis sacrificed, Daubert to Cutshaw, Hoblitzell going to second. Gardner up. Ball 1; foul strike 1; Cutshaw threw out Gardner, Hoblitzell going to third. Scott up. Strike 1; Olson threw out Scott. No runs, no hits, no errors.

NATIONAL BODY IS WATCHING FT. WAYNE

Work for City Planning Now Going on is Attracting Much Attention.

(By Mrs. John E. Lathrop.)
(Special to the Sentinel.)

Providence, R. I., Oct. 12.—The Indiana city planning tour of the State Real Estate association, the city planning exhibition in Fort Wayne, and the movement for the passage of laws there this winter for modern city planning and modern housing received immense attention here at the annual conference of the National Housing association.

The conference was really a great gathering. Here were representatives of all phases of housing science, men and women who lead along that and other lines of civic action in the United States. I wonder if the people of Fort Wayne and Indiana realize the character of the publicity which has been given to them through this channel. The brilliancy of the plan—to create a statewide movement towards the best of latter-day thought for a whole commonwealth—and the energy and thoroughness of its execution caught the imagination of this body.

Indiana and especially Fort Wayne are much in the eye of these people here. Of all the projects for progress in this character of recent years, that one out there certainly takes the lead. Many persons who attended the conference expressed the desire to get into touch with the people who are engineering it. I congratulate you Indianans on the results already achieved. It should be a better Indiana when this work has been carried to its present conclusion; and it appears to be certain that the work will be continuous through the years.

The feature of the Indiana plans which seemed most to impress the delegates was the idea of keeping at it for a stated period; of "carrying through," as the golfers put it. "There will be no slicing or pulling in that game," was the way one delegate phrased it, after hearing of the plans.

KOKOMO PLANS WELCOME.

City Planning Tourists Will Be Given Royal Reception There.

(By F. D. Miller.)
(Special to The Sentinel.)

Kokomo, Ind., Oct. 12.—The city planning enthusiasts here are awaiting the coming of the city planning tourists of the State Real Estate association, who are due soon from Gary. We purpose to give them a royal welcome, and turn over the town to whatever use they care to make of it.

Word came on from Gary, Hammond and Michigan City that yesterday's meetings were immense successes. Kokomo does not expect to permit those towns to get anything on it in the matter of throwing itself into the procession, and getting into line for the support of city planning laws this winter at the legislature in Indianapolis. Wait for our report after the meeting here today. It will be a humdinger.

FEW OF 'EM "SANITARY."

West Virginia Food Men Must Not Use Word in Advertising.

Charleston, W. Va., Oct. 12.—The word "sanitary" as applied to food distributing agencies and producing plants is a misnomer and its use in such connection is a violation of the state law relating to fraudulent advertising, according to a ruling by the state board of health made public today. The department declares there is hardly a food or plant in the country that is truly sanitary. Prosecution of those using the word is urged by the state board.

SPECULATION RIFE OVER GERARD'S RETURN.

MR & MRS JAS W GERARD

The arrival of James W. Gerard, United States ambassador to Berlin, and Mrs. Gerard, shown here, has begun speculation as to the reasons for his departure from Germany. Gerard has denied he bears any peace overtures. The bouquet Mrs. Gerard is shown carrying was presented to her by a reception committee of prominent city, state and national officials.

MISSIONARY FROM PHILIPPINES HERE

Rt. Rev. Joseph Hurth, C. S. C., bishop of Nueva Segovia, Philippine islands, spent Wednesday in Fort Wayne as the guest of Rt. Rev. Bishop Herman J. Alerding and the brothers of the Holy Cross. He is a member of the latter order, and visited the Central Catholic high school Wednesday morning. He spoke to the student body and encouraged them in their duties. Bishop Hurth was for many years bishop of the diocese at Dacca, India. He has a long and interesting apostolic career in the missionary field. He visited Fort Wayne in the interest of his work in the Philippines.

ATTENDED DAM MEETING.

City Planner Consents to Go Over River Project Plans.

At a meeting held Wednesday night of those interested in the St. Joe dam improvement project John E. Lathrop, director of Fort Wayne's city planning show, consented to go over the plans with the understanding that the engineers would have to pass finally on the practicability of the enterprise. "As to the desirability of the improvement there is no doubt," declared Mr. Lathrop. The improvement calls for a dam in the St. Joe river and a recreation park north of the city.

"Fort Wayne is just at its point of development where provision for the play of the people should be made," said the city planner. "That play is as much of an economic and industrial necessity as a mere matter of having fun," the city planner said. "Citizens could not have a healthy, productive, efficient community without play centers.

"I suggest the reservation of long stretches along the river banks for camping spots for boys and also for families, who could go there for a week-end outing. Such a feature is one of the most attractive things in the scheme of the development of the great Palisade park across from New York city in New York, and New Jersey. It would be great for boy scouts and other boys who should be taught how to make campfires, cook food, make themselves comfortable in the open, and most important, camp without dangers from fires which destroy timber and other property. The river banks should belong to the people. They should not be owned by individuals. They should be public parks. In that respect this country is backward. Our river banks are usually a disgrace. They should be clean, attractive play places for all."

SPEAKS AT DECATUR.

R. E. Peters Urges Voters to Stand by the President.

"There is a peculiar responsibility resting upon the shoulders of every American citizen in this campaign," declared R. E. Peters, of this city, secretary to Congressman Cyrus Cline, in an address Wednesday evening to more than two hundred voters at the democratic headquarters in Decatur. "We must determine by our ballots in November whether we shall continue to have a government administered in the interest of all the people or whether we shall go back to the days when the people's government was but an instrument through which representatives of pillage and greed promoted their private interest.

"Woodrow Wilson and the democratic party stand for the things in which the young men are vitally interested," Mr. Peters continued. "They stand for human justice, social equality, industrial freedom and peace with honor. I believe the young men will join the hosts of patriotic American citizens who intend to re-elect President Wilson by a decisive majority."

Harry H. Hilgemann, formerly prosecuting attorney of Allen county, and Walter Stump, of Auburn, were the principal speakers Wednesday night at a meeting held at Spencerville under the auspices of the Young Men's Democratic league.

RUMANIANS IN FLIGHT

(Continued from Page 1.)

spondent on the Italian front as outlining the work of the artillery. The correspondent states:

"I followed the battle yesterday morning from a central point between Novavas and Villanova. It was a fantastic fight. The Austrian trenches were converted into heaps of rubbish by the big shells which shot columns of smoke and dust 300 feet into the air. At 10:30 reports came that though the trenches and barbed wire entanglements had been wiped out, the enemy were hidden in caves awaiting the infantry attack. The artillery opened a fresh fire on the second and third Austrian lines, the bombardment reaching its climax at 10:30. A colleague who was present in several wars declared he had never seen such a spectacle of destruction.

"The infantry attacked at 2:50 with splendid dash and the triangular redoubt and fortino fell after a desperate struggle. The enemy went down everywhere before the Italians, notwithstanding a stubborn resistance. After a few hours' fighting at Novavas a thousand prisoners were taken, among whom all Austrian nationalities were represented. We obtained proof that far from withdrawing troops, the Austrians had sent several fresh battalions to aid the battered defenders."

CALLS IT UNEVENTFUL.

London, Oct. 12.—An uneventful night along the British lines in the Somme region is reported in today's official statement on military operations. It adds that "during the night five raids were undertaken by us in the Messines, Bois Grenier and Haisnes areas, in the course of which we took prisoners and inflicted casualties on the enemy.

Gen. Zimbrakatis has been appointed minister of war in the Greek provisional government, organization of which is being completed at Saloniki, says a Reuter dispatch from Saloniki, under date of Oct. 11. The seat of the government, it is stated, is undecided, but is believed it will be Mytilene.

MENACE NOW FADES AWAY

(Continued from Page One.)

steamships flying the flags of the entente allies are awaiting advices from agents of those governments as to whether it is safe to leave this port for Europe in view of the possible danger from the German submarine U-53.

Among them are the White Star line steamer Adriatic, due to leave today with about 250 passengers and nearly 18,000 tons of cargo, most of which is said to be war material. The Atlantic Transport line steamer Minnehaha is loading 14,000 tons of cargo also said to be war munitions, and the Cunard line steamer Pannonia is understood to be ready to sail for London carrying freight only. The others were smaller freight vessels most of which are loaded and lying in Gravesend Bay waiting for a favorable opportunity to get away.

Officials of the White Star line declared the Adriatic would leave at noon for Liverpool, notwithstanding a previous announcement that her departure would be postponed indefinitely. They denied she would be convoyed by an entente war vessel.

No information of further activities of the U-53 had been received here early today.

Indications that an American naval patrol has been placed along the north Atlantic coast was given today when Captain McDonald, of the steamship Munamar, in from Cuban ports, reported that off the Jersey coast at 6 this morning an American destroyer dashed up through the mists and circled his ship several times. Captain McDonald said that he broke out the national colors and the destroyer immediately headed northeast, soon disappearing

CADESSIA GROTTO TO GIVE MASQUERADE

Social Event of Interest is Scheduled for Evening of October 25.

Cadessia Grotto lodge, No. 50, M. O. V. P. E. R., has set a pace for preparations for a Hallowe'en masquerade dance. It has the honor of being the first organization which has announced its plans for that evening. The affair which promises to have everything else "faded," will be given on Wednesday evening, October 25. Plans were discussed at the regular meeting, Wednesday evening. A committee has been appointed and is composed of Earl Tract, Pete Standish and Clarence Cavish. The place has not been selected but every prophet will be notified in plenty of time.

The next event on the lodge's calendar will come off on November 27. This is the date for the annual ceremonial at which time the fall class of candidates will be initiated. Officers of the organization state that there will be at least seventy-five new members taken in on this date.

INDIANAPOLIS HAILS WILSON

(Continued From Page 1.)

most of his hearers were working men, added, "I am a hard working man, myself."

Band Was Too Late.

At Greenfield, Ind., a band came hurrying down a street just as the president's train pulled out. It did not have time to play. Mr. Wilson shook hands with people as rapidly as possible and waived to them as the train left.

On his arrival here Mr. Wilson was escorted by a band and a guard of mounted police during his ride from the railroad station to the hotel. The sidewalks were lined with people and as the hotel was neared the handclapping and applause grew in volume. The reception committee which met the president was headed by Governor Ralston of Indiana.

Across the street at several points were banners praising the president for keeping the country at peace. Following his arrival at the hotel the president and Mrs. Wilson were immediately escorted to a suite of rooms. A special committee received Mrs. Wilson.

The automobile parade was to be started by the booming of cannon immediately after the luncheon given by Governor Ralston in honor of the president. Governor Ralston was selected chairman of the fair grounds meeting.

ON WAY THROUGH OHIO.

On Board President Wilson's Special, Columbus, O., Oct. 12.—President Wilson passed through Ohio today on his way to Indianapolis on his second middle western trip of the campaign. Although the two speeches the president is due to make in Indianapolis are classed as non-partisan by his advisers, his visit to Ohio and Indiana today was considered a political event. The president passed through Columbus early this morning. He has turned down invitations to speak at several places enroute to and from Indianapolis, but planned to appear on the observation platform of his private car at each stop to shake hands with people.

Commission Is Named.

On board his train last night President Wilson announced the appointment of members of the advisory commission, to be associated with the Council of National Defense, created by congress at the last session. At the same time he gave out a statement saying he hoped the council will "become a rallying point for civic bodies working for the national defense."

The seven members of the new advisory commission named by the president last night are Daniel Willard, president of the Baltimore & Ohio railroad; Samuel Gompers, president of the American Federation of Labor; Dr. Franklin S. Martin, of Chicago; Howard E. Coffin, of Detroit; Bernard Baruch, of New York; Dr. Hollis Godfrey, of Philadelphia, and Julius Rosenwald, of Chicago.

CHEERED BY THRONGS.

On Board President Wilson's Special, Richmond, Ind., Oct. 12.—President Wilson was greeted by crowds of cheering people at Dayton, O., and Richmond, Ind., as he passed through this morning enroute to Indianapolis. He refused to make political speeches, but at Dayton declared it did his heart good to receive such welcomes.

Leaning over the observation platform of his private car at Dayton the president was almost mobbed by a good-natured crowd of several thousand people who sought to shake hands with him. Something like four or five people had hold of each of his hands at one time. In the shouts from the crowd the railway eight-hour law was most frequently mentioned. The president made the trip on a private car attached to a regular train. With him were Mrs. Wilson, Secretary Tumulty and Dr. Cary Greyson, the white house physician.

The train to which the president's car was attached backed into a crowd at Richmond and several persons nearly were caught under the president's car. John Q. Slye, a secret service man, pulled one woman out of the way just in time.

REALTY MEN AT KOKOMO.

Kokomo, Ind., Oct. 12.—The real estate men touring the state in the interests of better city planning were guests of the Kokomo real estate board at a luncheon today. They spent last night at Gary, where a number of addresses were given. Short talks were made here. The party will be in Lafayette tonight.

THE STORE THAT DOES THINGS

REMODELING COMPLETE; PARIS HAS AN OPENING

Remodeling and altering the store building of The Paris has been completed and beginning Thursday morning the store will have a three days' formal opening. This new store which deals in ladies' ready-to-wear and millinery goods, is now one of the most attractive appearing stores in the city.

Special attention will be given to all visitors during the next three days. Every lady in Fort Wayne and vicinity is cordially invited to visit the store.

There is no need of climbing stairways after entering the building as an electric elevator will convey anyone to any of the three floors. The large and attractive show window contains the sample of goods which will be found inside the store.

AID WILLING WORKERS' SOCIETY

Jefferson Movies Give Benefit Matinee for Children on Friday.

The remarkable pictures of Fort Wayne's pageant are to be shown at the Jefferson theatre Thursday and Friday, with a special matinee for school children on Friday afternoon, the Willing Workers' Aid society to be the beneficiary. The aid society needs funds to complete the furnishings for its new home, needs them badly. The kindness of the Jefferson management in donating receipts is greatly appreciated, and if the crowd is a big one, the society will have something to its advantage.

WHITE DOVE IS PRISONER.

Feathered Visitor Bears Band With Inscription "U-53."

Edgewater, N. J., Oct. 12.—Police are holding prisoner a white dove with a band of yellow metal on its leg bearing the inscription "U-53," the number of the German submarine which made its memorable raid off Nantucket last Sunday. The dove fluttered in the window of a business office here yesterday. Its captors do not know whence it came.

The Katahdin rests on the bottom of the Chesapeake, near the mouth of the Rappahannock.

CITY STREETS MUCH LIKE AN ARMED CAMP

Bayonne, N. J., Oct. 12.—The streets approaching the Constable Hook section of this city resembled today an armed camp. Thousands of strikers from the plants of the Standard Oil company, Tidewater Oil company, Vacuum Oil company, Pacific Coast Borax company and the General Chemical company maintained a "dead-line" across the approaches to those plants. Inside this line, between the strikers and the oil plants nearly 100 policemen were stationed in a fire engine house guarding the plants from attack while a fe wother policemen and seventy-five deputy sheriffs held possession of the main police headquarters.

There were no signs of a cessation of the labor war which caused the clash yesterday of police and strikers in which one woman spectator was shot and killed and fifteen or twenty strikers were wounded. This fight took place, according to the police, when the strikers interferred with the firemen attempting to fight a blaze and cut the hose. About 12,000 men have quit work in various plants at Constable Hook and virtually have besieged the police.

ANNUAL BANQUET.

Will Be Given by Sunday School of Third Presbyterian Church Oct. 12.

Annually the Sunday school of the Third Presbyterian church gives a banquet. The event this year will be given at the church Thursday evening, October 12. Two hundred people have already signified their intentions of being present and undoubtedly there will be a far larger number in attendance.

Rev. Mahlon C. Tunison, pastor of the South Wayne Baptist church, will be the principal speaker at the occasion. An interesting program consisting of literary and musical numbers will be rendered. Several local speakers have also been asked to be present and a general good time is in store for all.

The church is still without a pastor but it is expected that a new man will be selected within a few weeks.

In jumper, cap and overalls
He trudged his weary way,
From wealthy man to statehouse halls,
And back again, each day.

He talked about a world unfound,
A continent unseen,
And wise men said, "His feet are sound;
The trouble's in his bean!"

The papers called him "Nutty Chris"
Upon the comic page.
The school kids used to hoot and hiss;
They mocked him on the stage.

One day he borrowed someone's coat
And went to see the queen.
He said, "I want a leaky boat,
You gather what I mean!"

Columbus thought a continent,
While other men thought dimes.
And so his name resounding went
Throughout all states and times.

He dreamed a dream so grand and vast
Men scoffed—they always do—
Then while the scoffers stood aghast,
He made his dream come true!

OSSIAN NEWS

Ossian, Ind., Oct. 12.—Mrs. Charles F. Goshorn left last evening for Huntington to spend the remainder of this week in the home of Dr. and Mrs. M. W. Strauss.

Miss Gay Bunn is expected home this week. She has been visiting for the past month with her uncle, David Bunn, and wife, of Akron, O., and with her aunt, Mrs. Jennie Galehouse, of Doylstown, O.

Robert Baker, youngest son of Rev. and Mrs. Frank K. Baker, fell from a high wagon the other day while playing on it at the end of their yard and broke his collar bone near the left shoulder.

The M. E. Sunday school, under the management of E. H. Roe, their superintendent, is making great preparations for a big rally day service on next Sunday morning. The exercises will begin at 9:30 and they have set their mark for an attendance of five hundred. As an introduction to this meeting a general canvass of the town and country will be made Friday afternoon by about eighteen teams, going two together, and inviting all those interested in Methodism to attend their rally. F. M. Price, of Fort Wayne, will make the address Sunday morning. Mr. Price is president of the Men's Civic League of Fort Wayne and is also superintendent of the Hoagland city school. He comes highly recommended as a fine speaker. Special music will be furnished by a colored male quartet, of Wren, O., known as the "Golden Gate" quartet. The church decorations, which are to be elaborate, will be in charge of Mrs. Carl Wilson and her class, the Daphne Girls.

The Pleasant Word circle had a very good meeting Tuesday evening at the home of Mrs. Fred Vananda. Mrs. Walker Roe conducted the devotional exercises. The program consisted of recitations and piano music. The hostess served a nice lunch. Those present were Mesdames Hazel Mahnensmith, Emma Vananda, Harley Osborn, Homer Goshorn, Ada Henline, Hattie Parkinson, Edna Koons, Bertha Hoover, Dessie Swaim, Lillian Henline, Effie Roe, Minor Hoover, Hazel Wilson, Margaret Kellogg, Carrie Melching, Bessie Richey, Stella White, Bessie Cotton, J. O. Powell, Maude Miller, James Crabill, Maude Swihart, Orin McMullen, her sister, Miss Adah Hammond, and Miss Lucile Davis. The meeting next month will be with Mrs. Will Cotton.

Mr. and Mrs. J. G. Stirling and Mr. and Mrs. E. H. Roe visited the first of the week with Mr. and Mrs. Frank Burbler, of Hoagland.

Miss Lois Dragoo and her mother, Mrs. Dragoo, of Fort Wayne, visited the first of this week in the home of Mr. and Mrs. Harry Bunn. Miss Dragoo was a school friend of Miss Jennie Bunn.

The Twilight club and the King's Daughters of the Hebron Sunday school will hold a box social at the Caston schoolhouse Friday evening. Each young lady who attends is expected to take with her a box.

The local W. C. T. U. met Wednesday afternoon at the home of Mrs. T. A. Doan. Their state convention will be held at Huntington on Friday.

Mrs. Ellen Gibson, Mrs. Samuel Hughes, Mrs. L. F. Chalfant and Mrs. Sarah McBride spent yesterday visiting with Mrs. Theodore Crowl at her country home south of Ossian.

Miss Adah Hammond, who has been working at Van Wert, O., for the past few weeks, came Tuesday evening for a short visit with her sister, Mrs. Orin McMullen.

Mrs. L. F. Wilson was hostess for the Sargasso club Tuesday evening. For roll call the ladies told about some college. Papers were read on the French school by Miss Allen; the Dutch school, Mrs. Rector, and the Scandinavian school, Mrs. Poffenberger. "The Development of Schools in Indiana" was discussed during the conversational hour. A nice two-course lunch was served by Mrs. Wilson. Those attending were Mesdames Charles Clark, E. D. Poffenberger, S. L. Gorrell, D. C. Wybourn, Charles Weirich, W. W. Hoopengardner, C. G. Pepe, W. W. Fryback, F. M. Rector and Misses Nan Johnston and Jennie Allen. Mrs. C. A. Hostetler and Mrs. King, of Poe, were guests. Mrs. Fryback will be hostess for their next meeting.

Clem R. Hartman, superintendent of the M. E. Sunday school at New Haven, was in Ossian Sunday to see the Ossian M. E. school.

Mrs. S. L. Gorrell will entertain her Sunday school class, the Olive Branch, on Friday evening at their yearly social function.

Mrs. Genevieve Beaty Bloom, of Spokane, Wash., came to Ossian from Fort Wayne Monday to spend this week with her father, C. A. Beaty, and family. Mrs. Bloom recently recovered from an operation for appendicitis and has since been visiting with her husband's people in Fort Wayne.

Stanley Allen returned today from a hunting trip in northern Michigan. He went with some friends from Auburn.

The U. B. church ladies are serving a chicken supper in the Presbyterian church basement this evening.

Mrs. L. B. Hissem was called to South Whitley Tuesday on account of the critical illness of her mother, Mrs. Sarah Overhaultzer, who had recently suffered two strokes.

Henry Herbst has resigned his position as clerk for G. G. Koons in the interurban grocery. He left yesterday for Ashley, where he has accepted a similar position. His family will move to Ashley this week.

The Daphne Girls are to hold a banquet in the M. E. church this evening. The guests of honor will be Rev. and Mrs. J. O. Powell, Mr. and Mrs. E. H. Roe and Mr and Mrs. Minor Hoover—these gentlemen motored the girls to the park last summer and thus they are showing their appreciation. Each lady may also invite a young man. An interesting program, a social time and a good supper are promised.

Miss Marjory Nill entertained the E. T. C. club Tuesday evening in a very pleasing way.

The Rev. Dr. Lea Luquer, age 80, has been the rector of St. Matthew's church in Bedford, N. Y., fifty years. He went there immediately after he was ordained in 1866.

IF KIDNEYS AND BLADDER BOTHER

Take Salts to flush Kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble. Advertisement.

SUCCUMBS TO INJURIES SUFFERED IN SMASH-UP

Steve Shaw, a Farmer of Whitley County, Dies at Hospital.

Steve Shaw, the Whitley county farmer who was injured Sunday in an automobile accident near Arcola, died Wednesday night at the St. Joseph's hospital. He was fifty-two years of age and was a member of the Fort Wayne lodge of Elks and was well known in Fort Wayne. Mr. Shaw died as the result of injuries which he suffered in the smash-up Sunday afternoon.

Shaw, with his son, Thomas, and Fred Hendricks, and two other friends, had been to Fort Wayne and were returning to Columbia City by the way of Arcola. While making a turn in a road the machine went into the ditch and Shaw was hurled from the rear seat through the wind shield and struck a telephone post. His friends, seeing his condition, left the man lie at the side of the road and in full speed went to Columbia City to summon aid.

Shortly afterward Jack Morley, a Fort Wayne motorcyclist, passed the spot and seeing the injured man, took him to Arcola, where aid was summoned from Fort Wayne. He was brought to St. Joseph's hospital, where it was found that his injuries consisted of a broken leg, a broken arm, several broken ribs, one of which had punctured his left lung.

Coroner J. E. McArdle was called Wednesday evening and he will conduct a thorough investigation of the affair.

DAILY BIBLE READINGS FOR THE HOME

Romans 8:1-14.

1 There is therefore now no condemnation to them which are in Christ Jesus, who walk not after the flesh, but after the Spirit.
2 For the law of the Spirit of life in Christ Jesus hath made me free from the law of sin and death.
3 For what the law could not do, in that it was weak through the flesh, God sending his own Son in the likeness of sinful flesh, and for sin, condemned sin in the flesh:
4 That the righteousness of the law might be fulfilled in us, who walk not after the flesh, but after the Spirit.
5 For they that are after the flesh do mind the things of the flesh; but they that are after the Spirit, the things of the Spirit.
6 For to be carnally minded is death; but to be spiritually minded is life and peace.
7 Because the carnal mind is enmity against God: for it is not subject to the law of God, neither indeed can be.
8 So then they that are in the flesh cannot please God.
9 But ye are not in the flesh, but in the Spirit, if so be that the Spirit of God dwell in you. Now if any man have not the Spirit of Christ, he is none of his.
10 And if Christ be in you, the body is dead because of sin; but the Spirit is life because of righteousness.
11 But if the Spirit of him that raised up Jesus from the dead dwell in you, he that raised up Christ from the dead shall also quicken your mortal bodies by his Spirit that dwelleth in you.
12 Therefore, brethren, we are debtors, not to the flesh, to live after the flesh.
13 For if ye live after the flesh, ye shall die: but if ye through the Spirit do mortify the deeds of the body, ye shall live.
14 For as many as are led by the Spirit of God, they are the sons of God.

Where Do You Want the Change

Republican speakers and republican newspapers, urging the cause of Mr. Hughes in frantic fashion during these closing weeks of the campaign, declare there is need of a radical change in governmental affairs, and that, therefore, President Wilson should be supplanted in the white house by Mr. Hughes, and that the democratic congress which has given the nation a record of progressive legislation that towers far above the achievement of any previous congress, should be ousted. One can understand the natural desire of those who are out to get in, and the personal equation that appears in the case as the inspiration of many of the complainants is quite immaterial. To the people at large, however, it is vital to consider just where the change is desirable and what the consequences of the proposed change are likely to be. Let us look at the situation a bit.

President Wilson has succeeded in keeping us out of the embroilment of the European war. Do you want a change from the present state of peace?

President Wilson has held out steadfastly against armed intervention in Mexico. Do you want the alternative to this?

The administration has given us tariff revision for which the entire country was insistent in its demand; it has given us the federal reserve banking law; it has given us the rural credits law; it has created a tariff commission; it has enacted laws for preparedness for national defense and the president is supplementing these by the appointment of expert advisory boards for the army, the navy and the industrial phases of national defense; it has provided federal aid for good roads and in addition has put into law many other modern conceptions of progressive government. The country is admittedly prosperous.

Where do you want the change? How much of the superb legislative structure erected in the past four years do you want wrecked? What would you have undone—and, what is fully as important, what would you have in its stead? None of the professional supporters of President Wilson's opposition have been able to give answers that will stand the acid test. The voter should make his own analysis. He will not be cajoled or harassed into voting for a change until he is satisfied he is going to get something better, and most assuredly there has been nothing like that offered up to the present moment.

The Chicago citizens' committee, after an investigation of vice conditions there covering a period of three months, has submitted a report in which the conclusion is reached that the presence of vice indicates a corrupt police force, and that "without police collusion organized vice could not thrive as it does in Chicago." Perhaps it may be true, too, but in fairness it should be stated that in placing entire blame for bad conditions on the police, no investigation is going deep enough to reach the real cause. The police, as a rule, are rather human sort of fellows. They are carrying out orders or at least are attempting to follow a course they believe will make their jobs secure, and placing to the best of their ability their own interpretation on directions often delivered with a wink. Back of the police are other authorities, and still back of them are the people themselves who cannot hope to escape responsibility. It will be noted as a usual thing the people get either the sort of government they want or the sort they are willing to tolerate rather than take the trouble to insist on something better.

More than 26,000 allowances of increased pensions to soldiers' widows have already been made under the new law passed but a few weeks ago, and further allowances are being made at the rate of 2,600 per day. Yet there was a time not so many years ago when the republican party set up the claim to being the only real friend of the soldier. The Wilson administration throughout has shown a fine and wholly deserved consideration for the soldier and for those whom he left dependent.

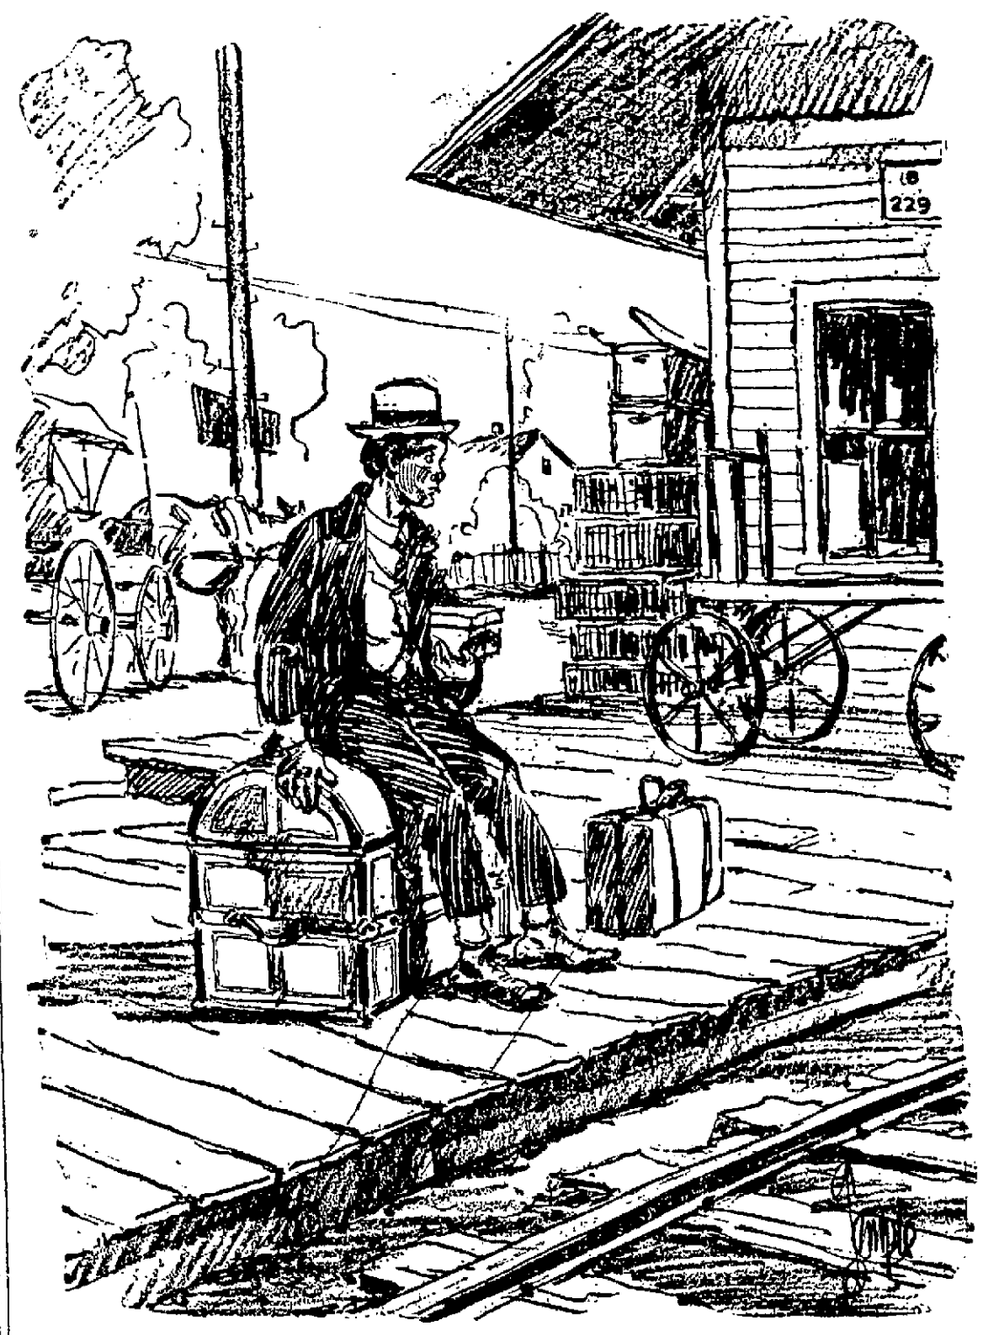
Senator Taggart, in a statement to the western democratic national headquarters at Chicago, declares that Indiana will give Wilson and Marshall a substantial plurality next month. And it may be remarked in passing that there are few more accurate political forecasters in this country than Mr. Taggart.

That Whitley county republican, 97 years of age, who voted for Zachary Taylor and has cast his ballot for every republican nominee since the organization of the party, but who this year announces his intention of voting for Wilson, demonstrates once more that it's never too late to mend.

And it might as well be admitted that those Indianapolis fellows have a bit of edge on Fort Wayne when it comes to picking weather in which to hold a centennial celebration.

Yes, sir; that was a mighty fine country Mr. C. Columbus discovered when he landed some 434 years ago today.

Sketches from Life ∴ ∴ By Temple



The Big Return

THE NEWEST FASHION IN CRIME.

(Toledo Blade.)

It is somewhat curious that this country which has a store of traditions and legends about highwaymen and stage-coach robbers should be one of the last to have to deal with the automobile hold-up.

But so it is. The thief who specializes on night traveling motor cars was known to England years ago. In Germany he became so common and developed such vicious disregard for human life that devices were invented to break or cut or otherwise render futile the ropes which the robbers stretched across the roads for the purpose of wrecking machines. In some of the war photographs these contrivances can be seen. They have been adopted by the military for operating cars in territory beset by spies or containing a population unfriendly to the army in occupation.

Yet, though the American thief lags behind in this matter, he is no less ruthless, no less daring, than his brethren across the Atlantic. There have recently been a number of automobile hold-ups of a particularly atrocious kind. In Illinois, a gang that preyed upon motorists and had no compunctions about using firearms for more than threatening, was found to be made up of boys in their teens. The New Jersey hold-up in which one rider was killed and another wounded, was also, it is supposed, to have been planned by amateurs. In both cases, the highwaymen betrayed that they were as ready to do murder as robbery.

As in the instance of other crimes of recent development, the country is likely to be afflicted with an epidemic of automobile stick-ups. The underworld, too, has its fashions. A number of promising young bandits may have to be put at hard labor before there is an end to the business.

Used it Eleven Years.

There is one remedy that for many years has given relief from coughs, colds, croup and whooping cough. It is probably the best known family cough medicine in the world and because it contains no opiates is strongly recommended for children as well as adults. Mrs. Chas. Rietz, Allen Mills, Pa., writes: "I have used Foley's Honey and Tar for eleven years and I would not be without it." It promptly relieves hoarseness, tickling throat, bronchial coughs, inflamed and congested membranes and permits refreshing sleep.—Advertisement.

Mrs. Ed Kuntz and daughter, Helen, went to Berne Tuesday.

MEETS COLORED WOMEN.

Delegation of Colored Residents Seek City Planner on Housing Conditions.

John E. Lathrop, director of the Fort Wayne's city planning show, met Mrs. Sadie D. Harrison, social worker among the colored residents, and other colored residents Wednesday to discuss the difficulty with which colored residents are finding suitable quarters in which to live.

Mrs. Harrison declared the increase in colored population was rapid and that many more were being brought from Mississippi and other states, making the problem serious. She said many of the colored people were crowded six in a room. "It is not because they want to live there, but because they cannot find other homes," said Mrs. Harrison.

Members of the Women's League club will do what they can to improve conditions.

FALLS DOWN STAIRS.

Mrs. Alsinas Fickes, Weighing 300 Pounds, is Seriously Injured.

Waterloo, Ind., Oct. 12.—A fall down stairs Tuesday afternoon proved very painful to Mrs. Alsinas Fickes, who had both her arms broken just above the wrists.

Mrs. Fickes, who is a heavy woman, weighing nearly 300 pounds, had gone upstairs for something and when at the top she became dizzy and fell to the bottom and was knocked senseless.

Two ladies who were helping her in some work, secured assistance and it required six men to pick her up and care for her. Mrs. Fickes is a sister of Mrs. Fred Mohr, of Auburn, who with her husband were at the Fickes home Tuesday evening.

They found Mrs. Fickes suffering a great deal of pain, but reports from her bedside Wednesday were that she was resting easily.

POISONING IS RECALLED.

Bluffton, Ind., Oct. 12.—The divorce case of Charles Oliver and his wife, Sylvia, came to an end at Decatur, Monday, when a divorce was granted Mrs. Oliver after the judge stated that neither party was really entitled to a divorce, is the report received in this city. Mrs. Oliver filed a suit for a divorce here, and later it was venued to Adams county, where it came to trial Monday. After Mrs. Oliver filed suit, her husband filed a cross complaint. After the parties came to a property agreement, the court gave Mrs. Oliver an absolute divorce and judgment for $200 alimony and $25 attorneys fees, and $6 per month for support of a child, Irene Oliver, whose custody the mother was granted. The Olivers came into the public eye some years ago when Mr. Oliver and his farm hand were poisoned on a farm near Roll. The case created quite a lot of comment, but nothing ever came of the investigations made. The couple have not lived together since according to the evidence, and soon afterwards she filed a complaint for divorce.

ADAMS COUNTY REGISTRATION.

Decatur, Ind., Oct. 12.—The last of the registration inspectors came in late yesterday afternoon and filed his registration. The registration shows a total of 5,209 votes registered. In 1912, the last presidential election was held and at that time the vote cast on the presidential ticket was 4,805, so that the registration this year is 404 more than the total vote cast that year. It is not expected, however, that the full registered vote will be cast, but the probabilities are that the vote will exceed that cast in 1912.

REFUSES TO TALK.

John Spahr Has Made No Statement Since Tragedy at Markle.

Huntington, Ind., Oct. 12.—There have been no new developments in the case in which John Spahr, Markle section foreman, is in jail there, confessed slayer of R. A. Littler, Erie agent at Markle on Monday evening. John Spahr, who is in jail here, has made no statement since Monday night, and on the advice of his attorney, refuses to talk at all. He has not been arraigned as yet. It has been definitely arranged that the regular fall grand jury, which has not yet adjourned, shall assemble on Friday to take up Spahr's case. Owing to the many details of the evidence the coroner has not completed his investigation and will doubtless not deliver his verdict until Thursday.

HIT ROCKS AGAIN.

Decatur, Ind., Oct. 12.—When Robert A. Andrews, well known Monroe veterinarian, and Della A. Andrews, who were divorced January 11, 1915, rechartered the matrimonial bark and were married again in May, 1915, they probably hoped that the matrimonial sea would be smoother sailing. But it seems that such is not the case. Their bark has again struck the rocks of adversity, and it resulted in the filing of a suit in the circuit court by Mr. Andrews in which he asks for a divorce and the custody of the child born to them in their former marriage. He asserts that they lived together until one day this month, when their separation took place.

MAY FLY OVER KENDALLVILLE.

Kendallville, Ind., Oct. 12.—If you see an aviator guiding an aeroplane, east bound, over this city or vicinity any day within the next week, do not be frightened. It will not be a German or British aerial raider, but one of America's champion birdmen—Victor Carlstrom. Carlstrom is to attempt a non-stop sunrise to sunset aeroplane flight from Chicago to New York. By permission of the government he will carry United States mail. The trip is under arrangement of the New York Times. Mr. Carlstrom expects to fly over Kendallville, this city being on his projected route. So be on the lookout. You may see a sight worth while.

WILL NOT SEND FLOAT.

Portland, Ind., Oct. 12.—The city of Portland will not be represented at Indianapolis in the state educational day parade in connection with the centennial celebration of the Hoosier state. This was agreed upon Tuesday night at a meeting of citizens held in the Commercial association rooms, those interested thinking that because of the short time intervening between now and the date of the event, it would be impossible for anything like proper arrangements to be made in the preparation of a float, depicting the city's enterprise. While in session those interested discussed the proposed centennial jubilee sale, but this did not develop into any definite action.

BUILT PORTLAND COURT HOUSE.

Portland, Ind., Oct. 12.—George W. Beall, aged eighty-four years, is dead at his home in Marion, where he resided for the past forty years. The widow and three children survive, being Mrs. W. E. Thompson and Mrs. W. L. Starrett, of Anderson, and Miss Mae Beall, of Marion. Mr. and Mrs. Beall celebrated their sixtieth wedding anniversary last December. The deceased was a building contractor and in 1869 built the court house in Jay county, just recently razed to be replaced with the structure now being erected. He was well known among the older people of Portland and Jay county.

NEW MANAGER AT DELPHOS.

Delphos, O., Oct. 12.—H. W. Brunell, for the past year a power engineer for the Northwestern Ohio Light and Power company, has been promoted to the position of manager of the local office of that company. The promotion is brought about by a change made in the local force whereby Clarence Bielharz, who has been manager of the local office for several years past, is transferred to other duties in the various properties of the company in northwestern Ohio.

RECEIVES FATAL INJURIES.

Bluffton, Ind., Oct. 12.—Morris Swathwood received a telegram Wednesday from Grand Ledge, Mich., stating that his brother, William Swathwood, formerly of this city, had been seriously injured while helping unload rails from a railroad car with a crane. The message was from the father, Arla Swathwood, and urged Morris to come to Michigan at once. By this it is taken that the man was fatally hurt.

BLUFFTON MEN ON COMMITTEE.

Bluffton, Ind., Oct. 12.—C. G. Dailey and J. A. McBride are the Bluffton members of the reception committee for the Scottish Rite fall convocation meeting at Fort Wayne, November 14, 15 and 16. A large number of the local members will attend.

PROMINENT RESIDENT DEAD.

Hartford City, Ind., Oct. 12.—Thomas Swindler, 72, prominent resident living two miles west and one-quarter mile north of Roll, died on Wednesday morning after an illness of several weeks with paralysis. Mr. Swindler had been a resident of Blackford county for twenty-seven or twenty-eight years. He was born in Ohio. He formerly was a member of the K. of P. lodge at Roll and was a member of the Church of God.

DISTRICT MEETING.

Warsaw, Ind., Oct. 12.—A meeting of the Knights of Pythias of the Fifth district will be held in this city the latter part of November. The district comprises eighteen lodges in Whitley, Allen, Huntington and Kosciusko counties. A fish fry will be a feature of the entertainment, according to announcement which has been made by District Deputy O. R. Evans, of Warsaw.

CHIROPRACTORS ARRESTED.

Hartford City, Ind., Oct. 12.—Charged with practicing medicine without license, Dr. A. W. Tindall and Dr. Tom Bell, chiropractors of this city, have been placed under arrest following the returning of an indictment against them by the grand jury. Dr. Win Cook, of Montpelier, was arrested on the same charge. They have each given bond in the sum of $200 for their appearance in the October term of court.

CHURUBUSCO WOMAN HURT.

Churubusco, Ind., Oct. 12—While carrying an armful of clothes into the house from the back yard at 4 o'clock yesterday afternoon, Mrs. Jesse F. Lock, of North Main street, fell, severely injuring her hip. After an examination by a local physician she was taken to the Lutheran hospital at Fort Wayne.

FALLS UNDER WHEELS OF TRAIN.

Hartford City, Ind., Oct. 12.—Carl Deveraux, son of Mrs. Amos Stbrome, of this city, was perhaps fatally injured yesterday afternoon when he fell under the wheels of a train at his home in Coal Bluffs, Ind. Deveraux had been employed as an operator on the railroad for several years.

LEE URGES WOLF LAKE.

Advocates Establishment of Armor Plate Plant on Indiana Line.

Washington, Oct. 12.—Henry W. Lee, of Chicago, presented to the armor plate plant board of the navy department an argument for the establishment of the $20,000,000 armor plate plant at Wolf Lake, on the Indiana-Illinois state line, near Chicago. Mr. Lee called the attention of the board to the fact that Wolf Lake is in the center of the great Calumet region, where more than a hundred steel plants are situated, and to the excellent railroad facilities of the place. He said there are forty railroad lines running through the Calumet region. He urged the fact that Wolf Lake would be inaccessible to a foreign power in time of war and still convenient by railroad to the points where United States warships are built.

VICK'S VAPORUB SALVE

FUTURE RESTAURANT KING FLOPS EGGS DURING VACATION TIME.

"JOHNNIE" THOMPSON WORKING AS A WAITER.

Chicago, Oct. 11.—If you could cross the country in Pullman or touring cars to cool spots in the Rockies, would you cut the trip, stick around home for the summer and hand out ham and eggs to the ravenous public?

You betcha wouldn't unless you were an exceptional person like "Johnnie" Thompson, called millionaire, dishwasher, waiter and general restaurant helper.

"Johnnie" spent the summer washing dishes and serving "ham and" in Chicago but as prospective owner of ninety-six restaurants strung from New York to New Orleans he has his reasons. He is the son of the man who girdled the country with help-yourself restaurants.

"I want to learn this restaurant business from the ground up—from flapping an egg to hiring a superintendent," says young Thompson. "I'm not saying I'd rather do this than sail a yacht or play golf, but I'm going to make good at this business and I want to learn the rules."

Thompson is twenty-two and will be graduated from Yale next year.

UNDERWOOD TO SPEAK ON EIGHT-HOUR LAW

Senator Arrives in City for an Address at the Moose Home.

A large part of the address of United States Senator Oscar Underwood tonight at the Moose auditorium will be devoted to a discussion of the eight-hour law, just enacted by congress. Senator Underwood led the Wilson fight in the senate for the law and will be able to explain in detail and to the interest of organized labor. Mr. Underwood is author of the Underwood tariff bill and his address along many lines will be one of the most vital of the campaign.

Committees for the meeting include the following: Assemblage, James Ford, Oscar Schlebecker, Henry Stallhut, Thomas Hartel; music, Peter Collins, chairman, Maurice Niezer, Lester Baade, Oscar Schirmeyer, Alex Karthol, Will Young, Val Ewig, Louis Piel; decoration, Frank Schlebecker, Clem Lanternier, John Brewer, August Moring; publicity, Henry Cohen, chairman, C. B. Hayes and Michael F. McCarthy.

Following a meeting which Senator Underwood will address at Auburn this afternoon he will be escorted to this city by a committee of local democrats. While in the city he will stay at the Hotel Anthony. He will be escorted to the Moose hall, corner of Wayne and Webster streets by the Elks' band and the Jefferson drum corps at 7:30 o'clock. Members of the reception committee are requested to meet at the hotel at 7 o'clock.

Guy Colerick, city attorney, will open the Underwood meeting, introducing William H. Grout as chairman. Mr. Grout, a life-long republican, is endorsing President Wilson and the democratic ticket this time. He has been for many years a passenger conductor on the Grand Rapids & Indiana railroad. Congressman Cyrus Cline will also be present and address the people at the Underwood meeting on the issues on behalf of his re-election to congress from the Twelfth district.

The members of the reception committee are: Joseph Shaw, Robert Hillegas, W. A. Johnson, Eugene Smith, Henry Becker, Samuel Randolph, John Habecker, Samuel Hooper, Dr. C. M. Glock, George V. Kell, Jacob Ague, Edward Schroeder, August Stalhut, Oscar Sherer, Ollie Burlage, Henry Pfeiffer, S. P. Zimmerman, Matthew Drennan, R. E. McNally, A. R. Schnitker, Fred Schaphorst, Edward Derheimer, William Ortlieb, John Suelzer, jr., Edward D. Spahr, William F. Grotrian, Fred Allgeier, Judge John W. Eggeman, Judge Carl Yaple, William Rohan, Coony Bayer, James J. Hayes, J. N. Worth, Herman Kaadt, William Shambaugh, D. D. Miller, J. F. Baughman, Robert E. Kelly, Ben Richter, Herman Mackwitz, Michael Gilmartin, I. M. Hallenstein, Joseph Druhot, Judge Samuel M. Hench, Martin Lapp, Dr. Gaylord Leslie, C. C. Schlatter, George Haffner, Lew Ellingham, George Herrmann, Diedrich Sieling and Dr. A. L. Kane.

MEETING AT SHELDON.

Enthusiastic Meeting of Young Democrats Held There Wednesday Night.

Membership of forty was recorded Wednesday night at a meeting at Sheldon, in Pleasant township, of young democrats, who formed an organization. Fred Sherer, acting as temporary chairman, introduced Louis A. Wilkie, as presiding officer. Mr. Wilkie made a few remarks, after which he introduced Louis H. Danten, of Fort Wayne, who spoke on "The Young Man in Politics." Chauncey A. Smith was elected captain; Louis A. Wilkie, secretary, and Simon Herbst, treasurer of the organization. Howard G. Benninghoff closed the meeting with a talk on the issues of the campaign.

CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

Look, Mother! If tongue is coated give "California Syrup of Figs."

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomachache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."—Advertisement.

The DOCTOR'S ADVICE
by Dr. Lewis Baker

The questions answered below are general in character, the symptoms or diseases are given and the answers will apply in any case of similar nature.

Those wishing further advice, free may address Dr. Lewis Baker, College Bldg., College-Ellwood Sts., Dayton, O., enclosing self-addressed stamped envelope for reply. Full name, and address must be given, but only initials or fictitious name will be used in my answers. The prescriptions can be filled at any well-stocked drug store. Any druggist can order of wholesaler.

"Bad Cough" writes: "I have a bad cough and cold in my head. My ears ache and my whole system seems full of cold inflammation. Please prescribe."

Answer: There is nothing which will relieve your condition more surely and quickly than the use of mentho-laxene syrup. Secure from your druggist 2½ oz. essence mentho-laxene. Mix this with one pint of sugar syrup or honey, and take according to directions. You should receive immediate relief and benefit. The mentho-laxene is slightly laxative, and drives the cold inflammation out of the system.

* * *

"Mr. W." asks: "What can I do for a long continued case of constipation? I have headache and dizziness and my complexion is sallow. At night I can't sleep I'm so nervous."

Answer: Continued constipation affects the blood and makes it impure. You need a good blood purifier and laxative. Use three grain sulpherb tablets (not sulphur). They aid digestion, act on the bowels and clean and purify the blood.

* * *

"S. F. E." writes: "I have a very severe case of dandruff. My scalp itches and my hair is coming out in handfuls."

Answer: Get a jar of plain yellow minyol at your drug store. Wash the hair and while still wet rub well into the scalp plain yellow minyol. Rinse out thoroughly and your scalp will feel clean and active. Repeat this treatment three or four times after washing and in a few weeks all your dandruff should disappear and your hair become healthy and soft.

* * *

"Corpulent" asks: "What will overcome corpulency?" I am so fat as to be in my own way. I'm short of breath and cannot stand exercise."

Answer: To reduce safely, use five grain arbolone tablets. They are the most reliable reducers I could prescribe. Many are pleased with results from arbolone.

* * *

"Misery" writes: "I have been a worn-out man for the past few months. My physicial and mental forces are much impaired. I do not seem to be able to think clearly. I am much depressed all the time and my usual ambition and energy seem to have died. I have headache and pains in my back."

Answer: Your condition is identical to thousands of others brought to my attention yearly. Yes, your physical and mental forces are, as you say, much impaired, but you need not be alarmed over your condition. The use of three grain cadomene tablets should soon put you back in normal condition and fit to combat any troubles. Cultivate regular habits of living.

* * *

"Mite" asks: "I seem to be shrinking in size. I am very pale and thin. I do not feel sick, but I'm very weak. I want to increase my weight."

Answer: You are anaemic and the food you eat does not properly nourish your system; three grain hypo-nuclane tablets cause proper food assimilation and increase weight and strength. Take them with your meals. Sold in sealed packages.

* * *

"Mrs. Ella M." writes: "Please prescribe for me again. This time for my kidneys. I have chills and fever, look bad, have puffs under my eyes and my urine is dark in color and of bad odor. Sometimes my back hurts."

You should get almost instant relief from the use of halmwort tablets. I have prescribed these in numerous cases of kidney trouble and they have given excellent results. Most drug stores carry these tablets and they come in sealed tubes with proper directions.

OF INTEREST TO WOMEN

A WINTER PICTURE HAT

WHEN you say "picture hat" you immediately conjure up a scene of a garden party with pretty girls in lingerie frocks and each one sporting some particular brand of flopping hat known as the "picture hat."

Now here is a picture hat which will probably never see a garden party unless it is a roof garden party. It is entirely of silk and velvet and is probably called a picture hat because the wearer is tempted to adopt picturesque poses under its flopping brim by means of its graceful streamers.

The silk material used is a Chinese yellow printed in oriental designs of black, showing the new oriental influence in dress very clearly. On the right brim an applique piece of black velvet is embroidered rather stiffly with a few blossoms in natural colors. The streamers are black velvet ribbon to match the appliqued piece, and the silk hat is stitched closely row after row to give it body.

OUT WITH THE SPOT

THIS is the season of fruit stains, mildew and various other spots, and the man who can invent a universal spot remover will make a fortune. But many of the simple "home remedies" are very efficacious, if one could only remember them at the right time. And the right time, generally speaking, is while the spot is fresh. Many stains are "set" if they are sent to the laundry first, and grease spots have a way of gathering unto themselves dust and dirt, thus making them even more conspicuous, as well as more difficult to remove.

Benzine, chloroform, ether, household ammonia or naphtha soap and water will remove most grease spots. For candle grease, scrape off all the wax you can, then put clean blotting paper over the spot and press with a warm iron until all grease is absorbed. For wagon grease, simply cover spot with lard or oil and wash in soap and water.

Chocolate stains can be removed by soaking in cold water, with borax spread on the spots. Tea stains should be soaked in glycerin, then washed. Coffee strains, as well as fruit and wine stains, will all disappear if material is laid over a basin and boiling water poured thru. The kettle should be held a foot or two above the basin. If the stain is stubborn, try washing in boiling water and ammonia.

Varnish and paint spots must be softened by soaking in alcohol or turpentine. Rub with clean cloth. Repeat until spot vanishes. Old paint takes more time. Use one-half turpentine and one-half ammonia on old spots. For delicate colors, use chloroform.

Grass stains should be wet with molasses or soaked in milk, then washed. Another way is to rub with alcohol.

Mildew, a difficult stain to get rid of, can be either soaked in buttermilk, then bleached, or covered with a paste of lemon juice and raw starch, or with a paste of soft soap and salt. Another simple and sure way is to rub with raw tomato. In all cases the material must be bleached in the sun and the process repeated until the disfiguring spots fade out.

Yellow stains on white clothes will soon leave if they are soaked in buttermilk before washing.

Dry cleaning can be easily accomplished at home. Make a powder of one-third salt, one-third borax and one-third flour. Shake this generously into the garment and fold it away in a box for several days. Take it out and shake or brush it with a soft brush, and you will be pleased with the result.

FASHIONGRAMS

METAL cloth combined with fur is something of an innovation for a hat and muff and scarf set. Gunmetal cloth and mole fur combine to make one good-looking set.

One-sided effects prevail quite prominently in dress at present. The collar may be buttoned askew, or one side of the shoulder cape be longer than the other, or one hip dip and the other remain stationary in the skirt yoke.

Hooded coats, especially for evening, are picturesque. There is an effort to imitate some Russian national headdresses in the hoods of capes to be pulled over the coiffure.

Velvet cassocks over slips of satin are slightly different from the poloniase style, but give the same long-coat effect.

GARDEN PREPAREDNESS

THIS is the time for people who believe in preparedness to get ready for next year's flower garden.

The iris, Madonna lily, Oriental poppy and peony should be transplanted now; in fact, any of the plants that have flowered and are now resting can be safely moved at this time.

For early spring pansies plant seeds late in the fall. Use light soil, water thoroly before sowing, cover lightly, shade until the seeds are up. Dust with flowers of sulphur and keep moist. Transplant to frames or sheltered beds, where they may be wintered over. Try a frameful under a double-glazed sash and you can have blossoms most of the winter.

SPEAKING OF SUITS

HAVE you noticed how long some of the suit coats are becoming? Some are fairly as long as the regulation top coats, which range from three-quarter to full length this year.

Also have you perceived that some of the suits for winter are to be of satin? And liberally fur-trimmed?

The photo is a very good example of this type of suit. The satin emphasizes

one of the season's highlights, for satin is the material par excellence this year.

Fur bandings are used on almost every suit that has a claim to dressiness. The materials used in this suit are a Russian green satin with bandings of seal. The shawl collar of seal is part of the coat, and the fullness is gathered in at a becoming waistline with a narrow ribbon of the satin. The small barrel muff of seal and ermine has been chosen to match the fur on the suit.

ANSWERS TO CORRESPONDENTS

New Combinations

Can you suggest some good-looking combinations for winter clothes? Straight colors have been worn so long that I would like some new idea, and the town where I live has not many large shops. Miss D. McB.

Prominent shops show such combinations as blue and yellow, blue and gray, tan and brown for blouses; green and black and blue and purple for suits, and let's follow their own will in the matter of color. Plum color and buff are popular, both by themselves and in combination, especially for suits.

The Rising Popularity of Topcoats

I am asking your advice in regard to purchasing a topcoat. Do you think it practical for this winter? Will they be worn? And what color would you suggest so that the coat could be used at night as well as in daytime? What material would be suitable? Would velvet do, or would it not be warm enough? Mrs. M. L. J.

The materials that seem to be in most demand this year are principally velour in all colors, duvetyne, bolivia cloth, plush, especially for evening coats; "kitten's ear" and broadcloth. Velvet is being worn also. The coming coats are to be made on loose lines, and many of them are to be long-waisted. Velour or plush would be wearable, worn at night and in daytime, but broadcloth and the others are in almost equal demand. Select a bright blue, a mustard color or one of the burgundy or plum shade.

The hour of 8 o'clock this event will present at the Palace theater, when the curtain rises on the opening scene of grand opera, "Faust," an audience that will fill the theater and will represent the society and music lovers of the city on the alert with anticipation. It will be a pity that all who love music for its own sake, will not be able to be present. There are to be many disappointments, for not everyone who tries will be able to get a dollar seat at the "rush." And that number will include, in many instances, the genuine lover of music—those who would be willing to stand in line for hours provided there was a certainty of getting a seat. And there will be many who go who have pinched in order to get tickets and who will not be in evening gowns or dress suits, but they will enjoy looking at those who are so clad and whose appearance will contribute to the brilliancy of the audience and convey to the singers that Fort Wayne is some town. For grand opera must of necessity be on a magnificent scale and its patrons must of necessity have wealth, so that the two are thus associated. And as the performance begins at 8 o'clock, perhaps everyone will break the record and be seated at that time.

Mr. and Mrs. George Bailhe entertained about seventy friends at a musicale last evening at their home in Lakeside and during the time discussed the opera "Faust" and illustrated it musically. Mr. Bailhe's sister, Mrs. Harry Walker, of New York city, a splendid pianiste, played a Liszt rhapsodie, No. 12, and also illustrated excerpts from the opera as Mr. Bailhe analyzed it. Other musical numbers were piano work by Miss Leah Gardner, Miss Helene Spindler and Miss Jane Anderson and songs by Miss Margaret Plow, of Peoria, Ill. Mrs. Bailhe presided at the victrola with many excellent records from the opera. Following the program refreshment was served in the solarium with Mrs. Ferd Urbahns and Mrs. Page Varnelle presiding at the table and Misses Elizabeth Porter, Louise Tyger and Irene Jones assisting in serving. Pink roses formed a beautiful decoration and the informality of the gathering, after the lovely program, delighted everyone.

ROBISON PARK EMPLOYES ENJOY OUTING.

The employes of Robison park during the summer brought their summer "outing" to a close on Sunday by going to Swinney park for a dinner. Last Sunday was the day selected and the dinner was a basket one with too many good things to tell all about here. Games and a good visit were also a part of the pleasure. Those who attended were, reading from left to right in the picture: Frances Shore, Mrs. Nance, Miss Fuchshuber, Miss Fraime, Mary Shore, Mary Fuchshuber, Cleo Wilson, Helen Ott, Maude Fuchshuber, Nora Shore.

AT THE MAJESTIC

"RAMONA" GREATEST OF ALL.

"Ramona," the W. H. Clune cinema operatic spectacle reproducing for the theatre Helen Hunt Jackson's world famous romantic novel of the same name, is a striking example of the superiority of cinematography to the spoken drama in certain branches of the art of the theatre. More than fifty times great dramatic producers have attempted to transfer the matchless story from book to stage—and every one failed. Heedless of this ominous history of attempted adaptation Mr. Clune used the work for a quarter of a million dollar film spectacle with the original title and it has proved no less a successful venture for him than was his participation in the making of "The Birth of a Nation." "Ramona" will be seen at the Majestic theatre next week.

AT THE PALACE

THE KIDDIES SATURDAY.

Payne Children and Alice Teddy at the New Palace.

With the Payne Children and that ever lovable old she bear Alice Teddy on the bill, the New Palace holds forth a world of promise for the kiddies Saturday afternoon. The Payne youngsters are juvenile singers and dancers that will appeal alike to the children of their own age and the adults in an audience. They are clever kids who have had a natural aptitude for dancing sharpened by years of constant intelligent training. Alice Teddy, the big brown bear, is an institution with Fort Wayne youngsters, who have on several occasions enjoyed the bruin's roller skating, dancing, bicycle riding, etc.

On this same bill which will open Friday afternoon with no performance this evening, are DeLeon and Davies in their own songs and ideas about singing them: the darling singing comediennes, the Shirley Sisters: and Bell and Fredo, the singing laborers. The fun will be provided by the quaint little comedy sketch, "All Wrong," which is from the pen of Frances Nordstrom, famous alike for her skill as an actress and for the half score of successful vaudeville sketches she has written. She will appear in her own production.

Charley Grapewin Coming.

The vaudeville star of stars, Charley Grapewin is on the bill for the first portion of the coming week in the split-second-comedy, "Poughkeepsie," in which he is supported by Anna Chance.

The age of a Japanese woman is indicated by the character of her hairpins.

Mrs. Thomas Walter returned home Tuesday to Lagrange, after several days' visit with her sister, Mrs. John Washler, of Newville.

TO DARKEN HAIR
APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a 50-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.—Advertisement.

Donald Boice, who has been undergoing a severe siege of typhoid fever, is now convalescing nicely.

Twenty-one auto loads of tourists from our neighboring village of Harlan, Ind., invaded this village one day the first of the week to take in the Main street improvement. While here they paid their compliments to our townsman, S. D. Merchant and family. They came in such numbers Doc got somewhat "fussed up," but was able to welcome them.

In a desk calendar the dates are carried on a reel in such a manner that thirteen weeks are visible at a time and the background causes the figures for any week desired to appear more prominent than the others.

BOYS TO LEARN OF DAM ADVANTAGES

Proposed Structure Will Afford Camping Sites Near the City.

Hike of all boys in the city is planned by the Citizens' Dam committee in order that the lads may learn of advantages of the $50,000 dam to be placed in the St. Joe river, to afford swimming, skating, fishing and other acquatic advantages. The boys will meet on Oak Knoll for the tramp, it was decided at the Commercial club, Wednesday night.

Similar hike for older citizens will be carried out later. The people will be conducted to the site of the proposed dam. Depth of the water will be pointed out. Advantages of camp sites near the city will be shown.

John E. Lathrop, in charge of the city planning exhibit here this week, made an address before the meeting and lauded the plan of installing the dam. Pledge cards will be prepared and a campaign to raise money for the structure, by popular subscription, will be launched soon.

DRESSES, GLOVES, SILKS AND SUITS

Tells women how to dry clean everything with gasoline and save $5.

It is very easy and inexpensive to dry clean and brighten all the ribbons, laces, yokes, neckties, silks, net work, satins, shirtwaists, kid gloves and shoes, furs, children's clothes, suits, caps, woolen garments, fancy vests, Swiss, lawn, organdie and chiffon dresses, draperies, rugs, in fact, any and everything that would be ruined with soap and water.

Get two ounces of solvite at any druggist and put it in two gallons of gasoline, where it immediately dissolves. Then immerse the goods to be cleaned; rub a little and out they come looking bright and fresh as new. You will find nothing fades, shrinks or wrinkles, requiring no pressing.

These few moments' work saves any household five to ten dollars. Try it and you will find dry cleaning just as easy as laundering. Your grocer or any garage will supply the gasoline and the drug store will furnish the solvite, which is simply a gasoline soap. Then a wash boiler or large dishpan completes your home dry cleaning outfit. - Advertisement.

TWO MASHERS GET SEVERE SENTENCE

Judge Kerr Promises to Inflict Heavy Fine on Those Who Flirt.

Two mashers, a white man and a negro, were fined $25 and costs each, on charges of accosting women on the streets, in police court Thursday morning. The men were unable to pay their fines and will serve thirty-five days in the county jail. They were the first victims of the police order that flirting on public streets must stop.

"This order is going to be made impressive if I have anything to do with it," Judge Kerr said. "Chief Lenz is starting a fine movement when he orders that insolent fellows be taken from the streets. I will see that women are not bothered for quite a while by the men who are brought before me."

Ernest Johnson, 28, employed at the plant of the Western Gas Construction company, was the white man. He followed Joseph McConnel, 216 First street, and his daughter, Kathlyn, and a neighbor woman for several squares on Columbia street Wednesday night. He walked up beside the women.

"You had better turn back," McConnel told him.

"I'm goin' along," Johnson said.

McConnel called Patrolman Johnson when the party reached Calhoun street. The intruder had turned back. Johnson and McConnel went after him. He was placed under arrest and taken to the station. He pleaded guilty to the charge of bothering women.

"I had a few beers," was his excuse.

Other Masher a Negro.

Leonard Smith, 40, colored, who came here recently from Chicago, was the other victim of the anti-coquette campaign. He stood directly in front of two women and tipped his hat to them and offered friendly greetings Wednesday evening. Detective Sergeant Joseph Brennan saw him speak to three women on South Calhoun street.

"I was jes tryin' to be polite," Smith said in police court.

"Take your politeness, that bothers women, over to the county jail for a month," Kerr said.

Postponed His Decision.

Judge Kerr will render his decision in the case of Leonard Benward, 18, charged with malicious trespass, on Saturday. Benward is charged with entering a Nickel Plate railroad car and removing several articles belonging to workmen. The youth says he had been employed by the company and the goods belonged to him.

Other Police Court Cases.

Fines imposed on charges of public intoxication were: Edward Smith, $5; Patrick Welsh, $5; Albert Watson, $5; Frank Childs, Frank Crawford and John Miller were released.

Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation. If you write to me, Eugene M. Pullen, Carpenter, 94 C Marcellus avenue, Manasquan, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.—Advertisement.

WIERD PROMISES FOR FRIDAY, THIRTEENTH

Signs Are Bad for Candidates and Fort Wayne Citizens in General.

Friday, the thirteenth, will visit Fort Wayne on the morrow.

Coming as it does in the month of goblins, spooks and firey black cats, the signs are especially ominous. Light gray mists are already settling over the city to cover the shapes of witches, who will be abroad early this year because of the calendrical trick. The spirits will no doubt wreak their displeasure on all who start on any sort of venture on Friday.

We would not be surrised if fireballs bounded on to of the court house on the ill-fated thirteenth. Dire calamity is promised all "mashers" and auto drivers who turn to the left and folks who step from street cars backward. Brooms may sweep the wrong way for housewives, chimneys echo the plaintive calls of long forgotten ghosts and all babies born Friday, the thirteenth, are sure to be pigeon-toed.

Police Chief Lenz wants it understood that his birthday anniversary is not on this Friday. It is Friday, the twentieth. There is more than a week's difference in the dates, he believes. If he became a year older on the thirteenth he is sure that all policemen working under him would turn bald-headed; the court bailiff would break his gavel and the city clerk would mark "seventy-six every time he tried to make "twenty seven."

Two city firemen start their two weeks' vacation on the date, which was first marked with a blood-red pen. The men are Frank Stahlhut and Fred Shultz, chauffeurs at No. 1 station. They are sure that their dreams will be clouded by vivid pictures of seven-story buildings wrapped in flames or black fiends toying with the engines of the big trucks.

Cross-eyed candidates fear the day most of all. If their cigars fail to stay lighted on Friday they are sure to be outnumbered at the polls and old politicians say that if there is two feet of snow and water runs up hill and jitney drivers travel slower than fifteen miles an hour on Friday that Allen county may go republican.

Anyway the scourge of sprites and evil spirits will be abroad on Friday the thirteenth. Business men should buy their opal rings for sixty day Candidates should talk constantly until after November 7. Housewives should keep their fingers crossed. School children should be careful how they toy with figures.

For there may come the tugging at the left ear. The left shoe may be lost for forty-nine days. There is danger of becoming tongueless for seven years.

Fort Wayne, beware, Friday, the thirteenth!

TURNED OVER TO UNCLE SAM.

CHARLES BOHYER IS SLOWLY RECOVERING

Charles Bohyer, the man who took bichloride of mercury in the public comfort station last Wednesday, is going to get well. Slowly but steadily his system is overcoming effects of the blue solution, which he drank in a fit of love madness. He was able to sit up a while Thursday.

When assured by his physician that he would recover, Bohyer said:

"I am mighty glad of it. I do not want to die any more. I was foolish to act like I did. I want to get well and be a man. I let myself worry too much about Anna."

Anna is the wife who lives at 2508 Chestnut street. Bohyer wrote her a note before he drank the powerful drug. She has never called to see him since he was hurried to the hospital. Bohyer's sister, who lives on Montgomery street, has been constantly at his bedside since he made his first faint rally.

DR. C. C. KIMMEL IS NOT EXPECTED TO LIVE

Reports from the Lutheran hospital where Dr. C. C. Kimmel is a patient, are to the effect that the young physician will not recover from his illness. His condition has been serious for several days but Thursday morning it took a turn for the worse and late Thursday afternoon death was hourly expected. Everything is being done, however, to save the young man's life. Dr. Kimmel has been suffering from typhoid fever for the past two weeks and a few days ago pneumonia set in.

REMOVERS OF SHRUBS TO ANSWER TO BOARD

Thirty Citizens Accused of Taking Flowers Ordered Before Commissioners.

Thirty east end citizens have been ordered to appear before the park board members Monday afternoon to explain why they removed shrubbery and flowers from Hayden park two weeks ago.

Notifications to "answer for the removal of bulbs and valuable shrubs" were mailed to the persons accused of the act Thursday. Names of the citizens were taken from the list furnished the park board by police detectives. There are yet more people who assisted in looting the public park, detectives say, and more notifications may be mailed before Monday.

Police investigation followed the discovery one Saturday morning that the park had been robbed of several hundred choice flower slips. The theft was supposed to have been committed on the Friday night before, just at dusk. Police found the canna slips in a number of the back yards of the neighborhood, they reported, and turned in names of citizens they believe to have been implicated in the act.

Prosecution may follow the hearing on Monday. The attitude of the citizens who are guilty of taking the bulbs and shrubs will determine action to be taken, park board members say. It is understood that several people took the slips thinking they were entitled to them.

ASPHALT WENT ASTRAY.

Material Sent From Trinidad Finally Found in Yards at Defiance, O.

Two carloads of asphalt went hopelessly astray in the long journey between the island of Trinidad and Fort Wayne. They were to have been used on Monday in finishing paving of Rudisill boulevard. They had left the island mountains three weeks before.

The several tons of black gum had passed the port of Newport, R. I., safely it was learned. But they could not be located in the network of railroads that cover the eastern states. A checking clerk discovered them while he plied his humble art in the B. & O. railroad yards at Defiance, Wednesday night. They were hurried on to Fort Wayne and arrived here Thursday.

The boulevard sizzled and steamed Thursday afternoon as barrels of the tar were poured on its stony surface. The boulevard should be completed in a week.

NO HEAVY HAULING.

Neat Wooden Signs Have Been Put Up Along Rudisill Boulevard.

Neat wooden signs reading "No Heavy Hauling," are to be stationed along Rudisill boulevard, the new park drive which is nearing completion. The signs are now being prepared and will be placed along the driveway on Friday.

The boards are to be set at all intersections of paved streets and the boulevard. They will be in the center of the drive at Piqua, Fairfield, Broadway and Calhoun streets. The smooth park drive will be especially attractive for teamsters but structure of the boulevard will not permit continued traffic of excessive loads if the surface of the beautified roadway is to remain smooth.

Arrests will follow if the boulevard is used by men who haul timber and other heavy loads after ample warning has been served.

WOULD PROVIDE OUTLET.

Resolution to Extend Schillings Avenue to Be Presented Works Board.

Resolution to open Schillings avenue, from High street to Osage street, will be before the board of public works, Thursday night. City Engineer Randall will present the resolution. He thinks there should be a direct outlet from Osage street to Spring street. Board members are expected to act favorably on the measure.

The board will also consider the resolution asking extension of the protection curb along St. Joe boulevard, from Lake avenue to the Columbia street bridge.

WILL ACT ON RESERVOIR ROOF.

Mayor Hosey and members of the board of works, spent Thursday morning at the Reservoir park, formulating plans for the roof to be placed above the reservoir basin. They were accompanied by William Rogers, roofing engineer. Rogers gave his views on the proper construction of the covering.

Architects are to be called in soon to give their figures on the proposed roof. It is hoped to let the contract as soon as possible and have the big basin covered by next spring. The large roof will be cone shaped and made of steel, it is expected.

TO HEAR DECISION.

City Attorney Guy Colerick will go to Bluffton, Friday, to receive the decision of Judge Eichhorn in the case of Emery Jamison against Police Chief Lenz, other Fort Wayne police and the Rurode Dry Goods company. The plaintiff, who asked $10,000 for false imprisonment, was granted $400 by a Wells county jury three weeks ago. Attorneys for the defense asked a reversal of the decision. Judge Eichhorn will deliver his finding Friday.

Complete St. Joe Wall.

The four-foot protection curb, winding along the St. Joe river on Spy Run avenue, was completed Thursday. Work of building the heavy cement wall has been carried on for the past three weeks by the Grace Construction company.

Replanting Trees.

Park Superintendent Getz is overseeing the replanting of trees along driveways of the city. Complete rows of trees are to be set out on Rudisill boulevard, from Hanna to Piqua and on Anthony boulevard, from Rudisill to Pontiac. All dead trees are to be replaced by nursery sprouts in the Driving Park region, east of State street. Many new oak trees will be set out on Nutman avenue and several red oaks on Dayton avenue.

Grade Boulevard Approaches.

Approach to Rudisill boulevard, from the south, on Fairfield avenue, is to be graded back for 100 yards. This will furnish an easier grade leading to the boulevard. The approach is to be coated with crushed rock. Like grading will be carried on at the west end of the boulevard at Broadway.

New Heating System.

New heating system for No. 1 fire station, to cost $1,000, is to be installed as soon as possible. The board of works will receive bids on the heating plant as soon as City Controller Baade arranges for use of the city funds for that purpose. A large boiler will be placed in the basement of the engine house and the building heated by hot water. Removal of the fire horses and incapacity of the present boiler makes a new heating plan necessary. Engines of the motor trucks must be kept at a moderate temperature if prompt action is to be insured.

MUCH INTEREST IN BIG RALLY FRIDAY NIGHT

Will Be Staged Under Auspices of Young Men's Democratic League.

The officers of the Young Men's Democratic league today expressed their gratification at the wide interest and enthusiasm aroused by the big general rally to be held in Fort Wayne Friday evening.

"Democrats in general," said Harry Muller, county captain of the league, "seem to be looking forward to the rally as one of the big events of the campaign and we are sure that they will not be disappointed. It will be the biggest thing yet staged by the Young Men's Democratic league.

The list of speakers is headed by Ed Shields, "the livest wire in Michigan politics," and himself a former democratic national committeeman. Mr. Shields is a brother of James L. Shields and is well known to a large number of Fort Wayne people. There is no doubt that Mr. Shields will prove a big factor in making for the success of the rally.

Bowman Elder, of Indianapolis, state president of the Young Men's Democratic league, will also address the meeting. Bowman Elder is a young man who has already made a big mark both in his business and in politics and his great genius for organization has a great deal to do with the state-wide growth of the league.

The democratic chairman of Marion county, John Werr, a politician of very wide experience, will come to counsel the young democrats in their efforts in behalf of the party.

The vice presidents of the league will act as the directors of the occasion, and the officers request that they be at the democratic headquarters early. The vice presidents are as follows:

Byron Hayes, Ed Bresnahan, James Shields, Glenn Smiley, L. M. Bane, Jay Brown, Dave Erwin, Erwin Schlebecker, Justin Gladieux, R. Petgen, Frank Rainey, Elmer Springer, Edwin Lindenberg, Ed Auth, Wm. Horstmeyer, J. C. Fell, Roy A. Scherer, Louis A. Wilkie, Henry Branning, jr., Claren Squires, Wm. Cushman, Art Lamont, Carl Suedhoff J. W. Dobler, Clem Berg, Myron Parrot.

The speaking will be preceded by an automobile parade starting from democratic headquarters. A large number of machine owners have already promised to be present. The various clubs in Allen county, outside of Fort Wayne, are to be represented in full force, and the local organization feels that it is up to local democrats to allow Fort Wayne to be outshown by the visitors. They especially request every good democrat having a machine to get out a flag or two and line up at headquarters at 7 o'clock Friday evening.

Pole Raising Tonight.

The Young Men's Democratic club, of Jackson township, which from its very start has been a very live organization, will hold a pole raising this evening on the Townsend farm two and one-half miles east of Zulu. The principal speakers will be Congressman Cyrus Cline, Attorney Phil Colerick and L. H. Dunten, who will address the gathering. The Jackson township democrats confidently expect a big crowd and an enthusiastic rally.

DISCOVERY DAY IS OBSERVED IN CITY

Anniversary of Columbus' Landing is Given Due Recognition.

Discovery Day, the 424th anniversary of the landing of Christopher Columbus and his crew at San Salvador, was observed in Fort Wayne, Thursday. It is a national holiday and business was partially suspended. The banks were closed and many a person bumped his nose when the door labeled "Sample" refused to swing.

Business everywhere was slow, which in a way signified that the day was a holiday. The public and parochial schools of the city observed the day in some special manner. Programs were rendered in several schools while in others the teacher told the story of the discovery of America.

The teacher told of the hardships which Columbus underwent before he secured means to make the trip into unknown waters. The discoverer had advanced the theory of a round world and set out to find a new route to the East Indies. Instead he discovered a new world. The little fleet composed of three ships began its long journey on August 3, 1492, and after losing two of the ships, landed at San Salvador on October 12, 1492.

BIG REAL ESTATE DEALS.

Several large pieces of real estate were sold during the past week by Monroe W. Fitch & Sons. The C. A. Friends' suburban home on the Lincoln highway was sold to Mr. and Mrs. Burchard for $9,000. The Weaver estate north of the city was sold to H. G. Schaefer for $10,000. A Weil and the Fitch agency purchased two tracts of land which lie between the Huntington road and Taylor street just south of the Wildwood park.

Miss Hope Chenoweth was operated upon at Hope hospital yesterday for an affection of the eyes. She passed through the ordeal in a most satisfactory manner, and will soon be able to return to her home.

BIG CONVENTION HALL MEETING FRIDAY NIGHT

Citizens Wakening to Realization of Importance of the Project.

With the realization that Fort Wayne must have a municipal convention building if it is to keep pace with the growing cities of the middle west, the people of Fort Wayne are awakening to the necessity of certain action in favor of the project. The open meeting announced for Friday night at the assembly room of the Commercial club promises to attract large numbers of interested citizens representing various organizations and interests who will "talk it over" and discover the best ways of working together to bring out a large and decisive vote for the project on election day, November 7.

Ladies Are Invited.

A special invitation is issued to the ladies to attend. "We want the women back of this undertaking," says Maurice C. Niezer, chairman of the citizens convention hall committee. "The project is for Fort Wayne, the betterment of conditions for the boys and girls who are to be the men and women of the future. We know that the building of this convention hall will mean much for the improvement of Fort Wayne and making it a better city in which to live. Therefore, the women are interested, and we want to see them at this meeting."

Grand Opera Every Year.

The coming of grand opera to Fort Wayne this week for the first time in years, has aroused much interest in the convention hall project among music lovers in every circle of Fort Wayne society—the humblest iron worker as well as the members of the Morning Musical. It is realized that with the establishment of the convention building will be the means of making grand opera a great annual event in Fort Wayne at popular prices, and that Fort Wayne will thereby become a recognized musical center.

Chairman Niezer states that Mr. Bachelder, the advance representative of the Boston-National Grand Opera company, told him some time ago that the appearance of the company in many of the smaller cities had proved to be a great incentive to the building of convention halls and that thereafter the company had been enabled to return and fill engagements at prices which enabled all to hear them. The convention hall has been a great benefit to many cities in this way. Toronto has found the establishment of its Massey Music hall to be a great developer of the musical spirit.

"Our hall has been a great benefit to Toronto," writes Norman W. Withrow, manager of the institution, to Charles L. Biederwolf, secretary of the Fort Wayne Commercial club. "It has made the city the convention and musical center of Canada. I might mention a few societies that have sprung into existence on account of the hall being located in Toronto. The most famous is the Mendelssohn choir, Dr. Vogt, director. Other societies are the National chorus, the Schubert choir, the People's Choral union, the Oratorio society and the Toronto Symphony orchestra. Among the notable events of last year, under our management, were John McCormack, Tetrazzini, Tetto Ruffo, Melba, Kubilek, Clara Butt—in fact, all the high-class artists that visit America come to Toronto. All of the conservatories here advertise that students who study here have the benefit of exceptional advantages in hearing the best music."

For the Widest Use.

In order that the municipal convention hall may be of the widest good to the people of Fort Wayne, those who are investigating the experiences of other cities are united in the belief that the building should be used practically without charge by all who need it for those occasions which are for the general good of the community. Those occasions which require the renting of the place for events for which an admission fee is to be charged, will, it is believed, take care of the maintenance and allow of the free use of the building at other times, except possibly the cost of janitor service, heat and light.

How Detroit Views It.

The manager of the convention bureau of the Detroit board of commerce, writing to Mr. Biederwolf concerning the proposed convention hall here, says: "We want conventions to come to Detroit because they advertise our city. I have known more than one man to attend a convention in Detroit and then return here and invest money. Some of the most prosperous men we have were drawn to Detroit in this way. And then, the more the visitor talks about Detroit the more the name of the city spreads."

Fort Wayne people realize the truth of this assertion as it applies to this city, and will show their convictions when they have a chance to vote on the convention hall project next month.

AFTER PAROLE VIOLATOR.

C. E. Bowles, officer from Mansfield reformatory, Mansfield, O., came to Fort Wayne Thursday to recover Edward McDowell, 18, wanted at the reformatory for violating his parole. McDowell was arrested in the Wabash railroad yards on Monday. He was taken to the station and examined because he acted strangely. He was found to have served time in the Mansfield reformatory for burglary, from Cleveland, three years ago. He violated his parole when he left the state of Ohio and came to Indiana.

NO MOTIVE FOUND.

Mrs. George Schultz, 2026 Broadway, discovered that the two front wheels were missing from the baby carriage when she started to run the conveyance from the back porch Thursday morning. She called the police. Why take just the front wheels of a baby carriage? is the question which worries detectives.

Mother-Made, Quick Acting Cough Syrup

Should be Kept Handy in Every Home—Easily Prepared and Costs Little.

Mothers, you'll never know what you are missing until you make up this inexpensive, quick-acting cough syrup and try it. Children love its pleasant taste and nothing else will loosen a cough or chest cold and heal the inflamed or swollen throat membranes with such ease and promptness. It's equally as good for grown-ups as for children.

This splendid cough syrup is made by pouring 2½ ounces of Pinex (50 cents worth), into a pint bottle and filling the bottle with plain granulated sugar syrup. This gives you a full pint—a family supply—of much better cough remedy than you could buy ready-made for $2.50—a clear saving of $2.

The moment it touches the inflamed, cold-congested membranes that line the throat and air passages, the healing begins, the phlegm loosens, soreness leaves, cough spasms lessen and soon disappear altogether, thus ending a cough quicker than you ever thought possible. Hoarseness and ordinary coughs are conquered by it in 24 hours or less. Excellent for bronchitis, whooping cough, spasmodic croup, bronchial asthma or winter coughs.

Pinex is a highly concentrated compound of genuine Norway pine extract, combined with guaiacol and is famous the world over for its quick healing effect on the membranes.

Beware of substitutes. Ask your druggist for "2½ ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

ANOTHER APPROACH FOR HARRISON HILL

The completion of the paving of Rudisill boulevard has added another approach to Harrison Hill, the beautiful new addition located in the angle of Calhoun street and Rudisill, and motorists are now enjoying the long stretch of paving out Fairfield avenue, east on Rudisill boulevard to the entrance of Harrison Hill, south along Harrison boulevard, and then around Cornell and Seminole circles. This drive is without a doubt the longest uninterrupted stretch of paving in the city and passes through the better class of residential districts all the way. The opening of this approach is but another step which will eventually make Harrison Hill the select residential section of Fort Wayne. For further information concerning this addition see Hilgemann and Schaaf, North American Building.—Advertisement.

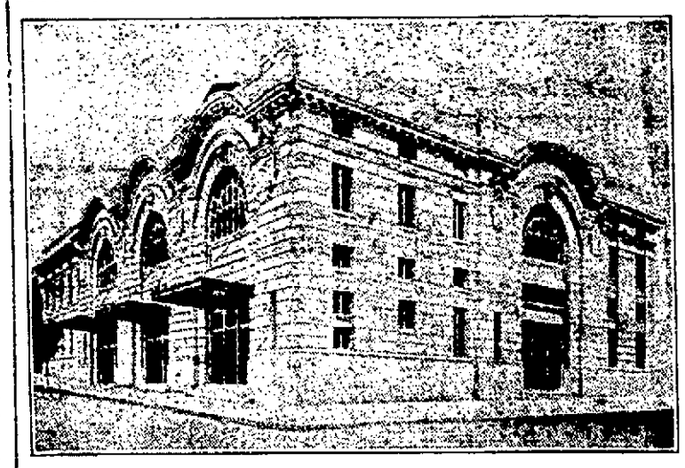
CONVENTION HALL IN A CITY SMALLER THAN FORT WAYNE.



Evidently the south is waking up with a vengeance. The above view is that of the municipal convention hall built by the city of Raleigh, North Carolina, which, according to the last census report, had a population of 19,218. The state legislature, acting upon a request of the city council of Raleigh, allowed the city to issue bonds to the amount of $125,000. This was in the fall of 1909. In October, 1911, the building was completed and turned over to the city. The building, in addition to its auditorium, capable of seating 5,000 persons, contains also the city offices. While Fort Wayne needs a larger auditorium than that of the Raleigh convention hall, the enterprise of this southern city, less than one-third the size of Fort Wayne, is an inspiration to go ahead and do things along this line.

SLATIN MOST UNIQUE FIGURE OF WORLD WAR

Not Man Without Country, But Man With Two Countries Instead.

Stockholm, Sweden, Sept. 25.—(Correspondence of The Associated Press)—There came to Stockholm a little while ago one of the distinctly unique personalities of the great world war—a man who had lived by the sword almost from boyhood, but who in the sudden turn of events in 1914 found himself, not a man without a country, but a man with two countries—two countries arrayed against each other in the bitterest of all world combats.

He had served under the Austrian crown prince and had been aide to Kitchener of Khartoum. He had gone into Egypt when Kitchener was there as a lowly subaltern. For twelve years he was a prisoner of the fanatical Mahdi, and the wild Dervish tribes who threw back, for the first time in centuries, the ever advancing frontiers of civilization. Escaping from the clutches of the barbarians he won the opportunity of participating in that remarkable march across the desert and the wonderful campaign along the upper reaches of the Nile which has brought civilization back to the Sudan and won for Kitchener his first great fame.

He came to Stockholm from Vienna unannounced and to all intents and purposes "incog." There were few who recognized him as Rudolf Carl von Slatin, baron of the Austrian empire, Pasha of Egypt, lieutenant general of the British army, and six times the recipient of the coveted British orders, from Companion to Bath to Knight Grand Cross of the Royal Victorian order, all won by distinguished service. He was inspector general of the Egyptian forces under General Sir Francis Wingate when the crash of war in 1914 brought a new crisis in his already eventful life.

When the parting of the ways came in 1914 Slatin found his love for Austria was still strong although most of his life had been devoted to Britain and her wards in Egypt. He had become essentially a part of the English military machine. But he could not fight against his fatherland, nor could he serve in any way against the country which had meant so much to him and which had lavished honors upon him.

So Slatin regretfully met the issue. He resigned his English and Egyptian commissions, sheathed the sword which had been part of his very life, and passed into comparative security in the very midst of war. Slatin felt, however, there was one service he could render with all propriety. He returned to Vienna, attached himself to the Austrian Red Cross, and now is doing all he can to better the condition of prisoners of war, not alone in his own country, but as part of a plan to bring about reciprocal agreements among all the nations in arms. Slatin suffered sufficiently himself as a prisoner in the Sudan and has the widest possible sympathy with any sort of captive.

It so happens that this very unique personality of the war now has come into more or less direct relationship with America. His mission in Stockholm was to meet here a representative of the American embassy in Petrograd to discuss further means of relief for the hundreds of thousands of Austrian war prisoners now in Russia, as well as the immense colonies of Austrian civilians interned in various sections of the big northern empire. The Austrian government, he said, was ready and anxious to co-operate in any possible way to better the condition of prisoners generally and would gladly reciprocate for anything Russia might do. He also expressed the appreciation of the Austrian government for the relief work already accomplished under the direction of the American embassy at Petrograd. Slatin, who devoted his life to militarism, speaks now of war only from the standpoint of humanity.

"I would like so much to be able to say when it is all over that I had done something to help the sufferers in this tremendous war," he said somewhat wistfully, to a correspondent of The Associated Press.

What Thin Folks Should Do To Gain Weight.

Good Advice for Thin, Undeveloped Men and Women.

Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs who, having tried advertised flesh-makers, food-fads, physical culture stunts and rub-on creams, resign themselves to life-long skinniness and think nothing will make them fat. Yet their case is not hopeless. A recently discovered combination of assimilative agents has made fat grow after years of thinness, and it is also unequalled, judging from reports, for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable preparation is called Sargol. Six strength-giving, fat-producing assimilative elements of acknowledged merit have been combined in this preparation, which is endorsed and used by prominent people everywhere. It is absolutely harmless, inexpensive and efficient.

A few weeks systematic use of Sargol should go far to produce flesh and strength by correcting faults of digestion and by supplying nourishing fats to the blood. If not, every druggist who sells it is authorized to return the purchase price. Increased nourishment is obtained from the food eaten, and the additional fats that thin people need are thus provided. Meyer Bros. Drug Co., Dreier Drug Co., D. & N. Pharmacy. The Family Drug Store and other leading druggists supply Sargol and say there is a large demand for it.—Advertisement.

ENVIRONMENT GUARANTEED IN LAFAYETTE PLACE

Few additions in this section of the country which are selling at the prices put on Lafayette Place lots are guaranteed the environment which is assured this tract by the restrictions that have been placed upon it. No building may be constructed in any part of this addition costing less than $2,500 and in certain portions of it homes may not be constructed for less than $3,500, and in still other parts the minimum cost is placed at $4,500. These restrictions, together with the restrictions referring to building lines on each and every lot, and the elimination of all features which might lower the character of a neighborhood, promise homes of a high quality for Lafayette Place, and as a consequence the addition is proving exceedingly popular. For further particulars, see the Wildwood Sales Company, Shoaff building.—Advertisement.

Mothers Organize Own Police Force to Protect Girls

New York, Oct. 11.—"We're going to help girls keep straight!"

That will be the primary duty of the mother police, according to Mrs. Rose Kelhoffer, first chief to this unique constabulary just established in New York.

Under Chief Kelhoffer there are to be about 5,000 patrolwomen and each will wear an official police badge and carry a whistle.

This addition to New York's police force has been a development of the girl police force. The mothers hope to handle pressing evils of the East Side that their daughters couldn't.

"I'm going to help girls who are in places that I want never to see my own girls enter," said Chief Kelhoffer.

"If girls can go to a woman—a woman who is a mother—and tell their troubles, they will keep straight.

"Many of our cases will never go to court. We will have private hearings in the municipal court on Sunday afternoons."

The mother police force is being organized like the regular force, with captains, lieutenants and sergeants. All will be from the East Side, familiar with the problems of the neighborhood. Each patrolwoman will have one block for her beat and will have full power to make arrests.

DREAM RATTLER A REALITY.

Altoona, Pa., Oct. 12.—George Meritts, of Franklinville, Huntington county, tossed in the throes of a frightful nightmare and dreamed of rattlesnakes. In bed with Meritts was Samuel Alley, of the same place.

When Meritts came to himself he still believed himself dreaming, for a hideous rattle sounded in his ears. Alley also heard it.

The frightful whir maintained a steady cadence, and both men were then aware that a rattlesnake was in their room. Having no light handy, the men were imprisoned in their bed for some time.

Finally a match and lantern were procured. The snake, more than three feet long, with seven rattles and a button, was coiled in the center of the floor. It was killed. A window near the ground had been left open and the reptile had gained access to the room through this aperture.

British Honduras is a natural greenhouse, where almost anything will grow, but there is little or no agricultural industry, the natives importing nearly all their food.

FRATERNITY BOYS PLAY DAD TO LITTLE YOUNGSTER.

Clarence Eckberg, "Son" of Sigma Nu, and some of his "dads."

Seattle, Wash., Oct. —Playing daddy to homeless waifs is the newest stunt of University of Washington fraternities.

It started with Clarence Eckberg, 5, adopted by the Sigma Nu "frat" in a burst of big brotherly sentiment.

They found Clarence in a children's home, took him to the Sigma Nu chapter house, washed him, fitted him up with new clothes, gave him the squarest meal on record and made him about the happiest kid alive.

At dusk the sleepy, contented youngster smiled at his twenty-five "fathers and brothers in one" and informed them that he was used to going to bed at eight.

About fourteen helped him into his nightie and tucked him into his own bed in a corner of the large airy room.

As the lights were turned out a plaintive, boyish treble began to recite, "Now I lay me down to sleep."

And big "Si" Noble, four years a "football roughneck" and noisiest in the frat, looked thoughtful for the first time in his life.

Pledges were made that "Son" would be given a proper bringing up. And the spirit of these pledges, carried out rigidly and tenderly, has wrought a revolution in fraternity chapter house life.

Prof. Edward M. Meany, Washington's venerable historian and a member of Sigma Nu, said of the adoption: "It is one of the finest things I ever heard of. I believe this act really means a big step toward new and vital service in the lives of collegians."

When "Son" sings "Bow Down to Washington," the U. of W. campus song, the smoke of their pipes is very apt to get in the eyes of his twenty-five "daddies."

ECZEMA ITCHED AND BURNED CONSTANTLY

Used Resinol—Soon Entirely Cured

Mar. 10.—"I had itching eczema for almost four years. My shoulders, neck, arms and just below the knees were affected. It was simply a constant itching, burning, smarting sensation. The part below my knees was frightful. It would itch so, and with the least scratching become so sore, I could hardly stand it to bend them. I could not possibly sit down because I would naturally have to bend my knees, and that I could not do. I could hardly do any housework. I had tried different soaps, ointments, salves, liniments, etc., all too numerous to mention—all to no avail. At last I learned of Resinol Ointment and Resinol Soap and used them according to directions. That night was the first time in many that I slept in peace, and in a short time I was entirely cured." DRIVE TRUCK, SAYS JUDGE.

Don't Seek Boiled Shirt Job, He Tells an Unemployed.

New York, Oct. 12.—"I'll guarantee that I can leave the bench and in ten minutes secure a job that will keep me at work steadily six days a week," said Magistrate John Kechendorfer in the Jamaica police court, to Joseph Stevenson, 22, of Ridgewood, whose 18-year-old wife Ethel charged him with failure to support her and their child. Stevenson had just told the court he was unable to obtain work.

"I have mighty little sympathy with a husky young man who says he cannot get a steady job," added the magistrate. "The trouble is you young men want boiled shirt and high collar jobs. Go drive a truck."

Stevenson was put on probation.

MOTHER CHURCH OVER SEAS SENDS GREETING

English Bishop Addresses Annual Convention of Episcopalians.

St. Louis, Mo., Oct. 12.—Greetings from the mother church to the Protestant Episcopal church of the United States were presented by representatives of the Church of England with impressive ceremonies at a joint meeting of the two houses of the convention of the American church in triennial session here today.

The Right Rev. Huysche Wolcott Yeatman-Biggs, bishop of Worcester, England, said that even with the shadow of war hanging over England, members of his church are intensely interested in the work of the American church. Funds saved in the mite boxes by thousands of American Episcopalian women in the last three years to be devoted to the support of women missionaries were collected today at the "united offering service" of the Woman's Auxiliary holding sessions simultaneously with those of the general convention.

Following a communion service, the money which previously had been placed in the hands of the sixty-eight diocesan and the twenty-one missionary district officers of the church, was presented at the altar in a golden alms basin. The amount obtained was to be announced at a meeting in the afternoon. Stories of the work of women in the mission fields were to be told at the mass meeting by the Rt. Rev. Charles Henry Brent, bishop of the Philippines, the Rt. Rev. Logan H. Roots, bishop of Hankow, China; the Rt. Rev. Arthur S. Loyd, president of the board of missions and the Rt. Rev. Paul Jones, bishop of Utah. Meetings of the several committees appointed at the last general convention held in New York in 1913 to investigate religious, social and economic problems and report to this year's convention were held today preparatory to presenting their reports.

In conjunction with the convention an open social service forum was inaugurated today. The Very Rev. Bernard I. Bell, of Fond du Lac, Wis., spoke today on "What Is Social Service," asserting that social service and religion must go hand in hand.

COLLEGE HEADS NOW INVITED TO ASSIST

Systematic Training of Reserve Officers for Army Desired.

Washington, Oct. 12.—Presidents of nineteen colleges and universities have been called in conference by the war department—preparatory to establishment of systematic methods for training reserve officers for the United States army in those institutions. They will meet at the army war college here Tuesday, Oct. 17.

It has been estimated that the army must maintain a corps of 50,000 partially trained junior officers to facilitate organization of an adequate military force should the nation have war with a power capable of attempting invasion. The main source of supply for these officers would be in institutions with approved military courses where military training under army officers is part of a student's work.

National guard organizations composed entirely of college students have been mustered out of the federal service so those men may compose the first increment of reserve officers to be drawn under the new plan.

Among officials expected to attend the conference are Dr. J. G. Rayeroft, Princeton; A. Lawrence Lowell, Harvard; Arthur Hadley, Yale; H. B. Hutchins, University of Michigan; Edmund J. James, University of Illinois; W. O. Thompson, Ohio State university. Dr. Grenville Clark and J. Lloyd Derby, officials of the military training camps association of the United States, also attend.

MR. HUGHES TOURING OLD KAINTUCK TODAY

Pikeville, Ky., Oct. 12.—Charles E. Hughes spent today in Kentucky. His second appearance as a presidential candidate in this state was here this forenoon. His program called for a day of short speeches, rear platform talks and an address at the Phoenix hall at Louisville tonight. Mr. Hughes spent half an hour here. It was the longest stop of the day. His program also provided for addresses during the day at Prestonburg, Paintsville, Louisia and Ashland. The nominee's train is due at Louisville at 8 p. m., and he will leave three hours later for Springfield, Mo., where he will speak tomorrow afternoon.

DEMAND OF ALLIES ON GREECE A BROAD ONE

Control of Mail, Railroads and Telegraph Included With Fleet.

Paris, Oct. 12.—Details of the demand made on the Greek government by Admiral d'Artige du Fournet, commander of the allied naval forces at Piraeus, which have been made public here, show that the ultimatum was much more comprehensive than was understood at first. In addition to her fleet, Greece was required to permit allied control of her naval powers, mail, telegraph and the railroads.

The ultimatum set forth that such was necessary in order to render impossible the use of the navy, the railroads and so forth, to the detriment of the allies. Admiral du Fournet gave the Greek government until 1 o'clock Wednesday afternoon to comply with his demands and stated that failure to do so would result in his taking the necessary steps himself.

FOUND DEAD IN BED.

O. H. Green, Formerly of Fort Wayne, Dies Suddenly at Howe.

O. H. Green, a tailor, and for many years a resident of Fort Wayne, was found dead in his bed at Howe, Ind., Wednesday morning by his wife when she attempted to awaken him. He left Fort Wayne thirteen years ago but was well known here. The deceased was born in Elmira, N. Y., and when a young man came to Fort Wayne, where he entered the tailor business. He is survived by the widow and a brother, Charles Green, of Dryden, N. Y.

LODGE CELEBRATES IN HONOR OF NAMESAKE

J. J. Joyce Speaks at K. of C. Banquet Given at the Anthony.

In honor of their namesake and in observance of the 424th anniversary of the discovery of America by the same personage, the Fort Wayne council No. 451, Knights of Columbus, gave a banquet at the Anthony hotel Wednesday evening. J. J. Joyce, of Kokomo, was the speaker of the occasion and those who assembled there for an evening's enjoyment listened attentively to his address.

One of the features of the program was the showing of the moving picture film, "Discovery of America." The picture was one of historical truth and showed the various episodes in the life of Christopher Columbus, preparatory to his first great voyage. It showed his trip across the unknown seas and finally saw his triumph when he landed on dry land with his crew.

Charles M. Niezer served as toastmaster and the program of musical numbers and recitations was enjoyed. Several out of town delegations were present, and included those from Decatur, Huntington and Garrett.

CHAUFFEUR SAVES LIFE BY JUMPING

Paul T. Glaser Has Narrow Escape When Auto is Struck by Train.

Paul T. Glaser, driver on an auto truck, who tried to beat the second section of the Pennsylvania westbound Manhattan limited over the crossing at Fifth avenue, a mile east of Clarke Junction, Wednesday afternoon, made it in safety himself, but failed to get the machine through and it is a total wreck. Glaser "lost his head" and realizing that he was in danger of losing his life he sprang from the auto when it reached the tracks and escaped injury. The engineer of the train saw the autot coming and felt that a collision was imminent, so he tried to stop and was going very slowly when the engine struck the automobile and rolled it over and over for a distance of twelve or fifteen feet, completely wrecking it. Conductor George Arnold had charge of the train and Engineer C. Rogers was at the throttle.

TROOPS RETURNING EAST.

First Squadron Cavalry Rhode Island Guard Going Home.

The First squadron cavalry of the Rhode Island national guard, which left El Paso, Texas, Monday night, passed through Fort Wayne en route home at 5:30 o'clock this morning. Their train, which consists of seven tourist cars, one standard Pullman car, three stock cars, six box cars and five flat cars, was split into two sections. The Wabash received the cars from the Iron Mountain at St. Louis and turned them over to the Nickel Plate at New Haven. The latter line will deliver the trains to the West Shore at Buffalo. Ocasional stops are being made to give the horses the required rest.

SUGAR BEET BUSINESS GOOD.

G. R. & I. Compelled to Put Switch Crew in Service.

The sugar beet factory at Decatur, whose business is now just starting, will have the greatest rush in its history this season. To handle the cars at the factory the G. R. & I. is preparing to put a switch crew and engine in service tomorrow, to remain two or three months. The beet factory did a big business last year, but is expecting a greater business this season. It usually requires about three months to work up the season's crop.

ADDING TO SHOP FORCE.

A number of new employes were taken on at the General Electric works yesterday. Among them were M. G. Johnson, late of Warren, in the finishing department; H. J. Ogden, shears operator, in the punch press department; Miss Julia Knoll, clerk in the shipping department; Henry Birkenbeul, machinish in the small motor department; the Misses Zella Wagner, Laveta Hosler, Golda Smith, Hazel Bradberry, Rose Wagner and Jean Lehmon, winders in the small motor department; L. P. Tieman, formerly of the Studebaker automobile works at Detroit; Frank Clark, from the Warner Gear company of Muncie; Julius Mauinger, formerly of the Wolf Bedding company, and Edward Schnurr, from the farm, in the hand screw department under Foreman E. W. Lankenau.

VINCE HAD TIRE TROUBLES.

Vince Dawson, file clerk at the Pennsylvania motive power offices, did not get a great distance from the city when he started in his automobile for Muncie yesterday. Aggravating tire trouble developed and he turned about and came home, where heavy repairs were made. This morning he embarked again, with prospects of being more successful. Mr. Dawson is dividing his vacation term into several parts this year, taking two and three day automobile trips to towns within easy reach of Fort Wayne. The first trip was to Michigan.

SAW BOSTON-BROOKLYN GAME.

Machinist L. M. Dunten, of the General Electric works, a baseball player and a most enthusiastic "fan," has returned from a business trip to New York and Brooklyn. While in the latter place he attended the third game of the series between Boston and Brooklyn, in which Brooklyn won. Mr. Dunten resumed work in the factory this morning.

EYLENBERG HAVING GOOD TIME.

Postcards from Operator John E. Eylenberg, of the Wabash master mechanic's office, who is taking a ten days' vacation, states that he is having a fine time. He is at Kansas City this week and will return here Tuesday and go to Buffalo, Niagara Falls and Albany, N. Y., to spend the remaining days of the vacation term. Mrs. Eylenberg is with her husband.

MEMBERSHIP LIST GROWING.

At 10 o'clock this morning, Loren Klingman, chairman of the membership committee of the Electro-Technic club, said that the two captains in the contest had a toal of 250 members. The roll is growing rapidly and will be several hundred larger when the first event of the season is pulled off next Tuesday at the Moose hall.

ON FULL TIME AGAIN.

All departments of the Pennsylvania shops are working full time—fifty-five hours per week. Notices to this effect were placed upon the bulletin boards yesterday. The shops had been on a forty-five hour weekly schedule. The increase in hours means a good deal more money for the shopmen.

SENT STRIKEBREAKERS HOME.

The fifty or more strikebreakers who had been working at the foundry plant of the Western Gas Construction company since early in July, were sent back east yesterday, there being no further need for their services at the local plant. The foundry department is now operating with its own men as before the walkout.

OPERA COMPANY SPECIAL.

The Boston Grand Opera company, which arrived in the city over the Pennsylvania at 2:40 this afternoon, from Alliance, Ohio, had a special train of fourteen cars. There were two parlor cars, one restaurant car, five coaches and six baggage cars in the train.

NEW FOUNDRY FOREMAN.

A change in the foremanship at the Western Gas works took place yesterday, when Charles Reiser received the appointment. He has been working at the plant for some time and is now bringing his family here from Cleveland.

INDUSTRIAL NOTES.

C. E. Schmidt, a Pennsylvania shop carpenter, is sick and off duty.

Ensign George, of the Pennsylvania blacksmith shop, is sick and off duty.

E. C. DesPrez, helper in the Pennsylvania erecting shop, is sick and off duty.

Carl W. Korte was enrolled yesterday as a new machinist in the Pennsylvania toolroom.

Peter Williams, a cab builder, and C. J. Rundol, of the Pennsylvania planing mills, are sick and off duty.

Division Storekeeper N. D. Porter, of the Wabash, is in Montpelier, Ohio, on business for the department today.

E. P. Kahoe, of the Pennsylvania erecting shop, failed to report for work this morning on account of sickness.

Machinist Gene Potter, of the General Electric works, is absent from the shop on account of the serious illness of his wife.

Frank Parrag and Frank Kovies, formerly of the Fort Wayne Rolling mills, took employment in the Pennsylvania boiler shop this morning.

George Jerome, who had an eye hurt while at work in the Pennsylvania erecting shop a week ago, returned to his duties this morning.

John VanBuskirk, clerk for Foreman Loren Klingman, of the transformer testing room at the General Electric works, is sick and off duty.

Joseph A. Romary, foreman of laborers at the Pennsylvania machine shop, was unable to show up for work this morning on account of sickness.

General Manager F. S. Hunling, of the General Electric works, arrived home this morning. He spent three or four days at Schenectady on busines for the company.

H. Bleckmann, a car doormaker at the Pennsylvania shops, had the end of the thumb of his left hand crushed yesterday, when he struck it with the hammer he was using.

Adolph Foellinger has resumed his duties in the hand screw department of the General Electric works. He and his bride returned from their honeymoon trip yesterday.

Machinist Ed White, who has been off duty for a month suffering from stomach trouble, has nearly recovered and this morning was able to resume work at his machine.

H. W. Stucks, who laid off with an injured hand, and C. A. Scott, off on account of injuries, returned to work yesterday. They are employed as machinists at the Pennsylvania shops.

E. B. Hodges, who resigned a position at the Pennsylvania erecting shop three weeks ago to take employment at the factory of S. F. Bowser & Co., returned to his old job in the Pennsy shops this morning.

Word from Lake James is to the effect that Fred G. Duryee, who is spending a week there in his cottage, is getting along nicely. It will be remembered that Mr. Duryee was operated upon for appendicitis three months ago and has not yet fully recovered. He is chief of the wire department at the General Electric works.

None of the car repair and section foremen of the Fort Wayne railroad have all the men needed to handle the work expeditiously and some are seriously handicapped by the shortage. Foreman Fred Austrup, of the Wabash car inspectors and repairmen, is among the ones who are short on help. He said yesterday that he had only about half a force.

HUNTINGTON KIND OF POLITICS IS HATED

Huntington, Ind., Oct. 12.—Lyman H. Jackman, prohibition-progressive candidate for congress from the Eleventh district, called John Q. Cline and his son, Claude Cline, secretary of the republican county committee, "infernal, damnable and abominable liars" in a speech here Tuesday night. He said both were in his audience and he was glad of it. Jackman declared they had said he was drunk within the last year, and he defied them to prove it. The elder Cline answered from the audience that he believed he had spoken the truth. Claud Cline and his father both arose, asking privileges to speak, but Jackman refused to hear them. Jackman also asserted the Rev. I. B. Wike had repeated the story on hearsay, but did not call the minister names. Jackman's son, Clifford E. Jackman, withdrew recently from the progressive ticket, on which he was nominated for United States senator, short term, and now is speaking for the prohibition party in the northwest.

DIVORCE COSTS TOO MUCH; WEDS WITHOUT

Chicago Man Explains Why He is Now Facing a Bigamy Charge.

Chicago, Oct. 12.—Two women were fascinated by the charms of John G. Niebel. Both loved and married him. One is still loyal, but the first wife, Mrs. Anna Niebel, 1750 Ballou street, became angry at his desertion and had him arrested yesterday on a charge of bigamy.

Niebel, it is said, left her a year and a half ago and eloped with another woman to Crown Point under the name of John C. Scherman. He has since been living in Downers Grove with his second wife.

When Detective Sergeant Timothy Sullivan appeared with the warrant for his arrest, yesterday, he fled from the eighth floor of the railroad company's offices where he was employed to his home in Downers Grove.

There he found that a mesage to the chief of police had preceded him. He was brought back to Chicago and admitted frankly that he was guilty of bigamy.

"My home life wasn't happy, so I took another chance at Crown Point," said Niebel. "We were very happy, too.

"I would have got a divorce, but that means lawyers and they cost money. She's after me now, I guess. I'm a fugamist. Let it go at that."

He was locked up.

Society

Mrs. Grace Cavins is now located in Ypsilanti, Mich. Her daughter, Miss Ruth, is attendingthe State Normal in that city, studying domestic science and art. Miss Gladys and Master Paul are attendants of the high school and all are much pleased with their new home.

Mrs. A. N. Houk and sister, Mrs. D. C. Stout, have gone to Huntington to attend the state convention of the W. C. T. U. and before returning home will go to Markle to visit their brother, E. E. Yonse, who is a lumber merchant in that city.

One of the recent happy events was the celebration of the twenty-fifth wedding anniversary of Mr. and Mrs. J. D. Collins at their country home near Valparaiso. Mrs. Collins was formerly Miss Kittie Polhamus, of this city. About fifty guests spent the day with Mr. and Mrs. Collins and had a delightful time. Guests from Fort Wayne were Mrs. A. H. Polhamus, A. Z. Polhamus, Mr. and Mrs. W. H. Polhamus, J. G. Polhamus, Albert G Polhamus, Harry Polhamus, Miss May L Polhamus, Miss Helen J. Polhamus and Miss Cora Blue.

Conrad—Meehan.

The beautiful wedding of Miss Antoinette Meehan and Mr. Eugene Conrad that took place in St. Andrew's church at 9 o'clock Thursday morning was attended by many friends. Rev. George Horstman officiated. The sweet looking bride wore a very pretty gown of white taffeta and georgette crepe with handsome trimming of pearls on the bodice. A veil made into a cap for the hair had a wreath of rosebuds around it and the veil fell to the hem of the gown. The bride held a bouquet of bride roses made with a shower of roses and swansonia. Miss Lorretta Hoevel, bridesmaid, was gowned in yellow taffeta with tunic of yellow crepe and the bodice trimmed beautifully with tiny yellow rosebuds. Miss Hoevel wore a large velvet hat with bird of paradise ornament and her bouquet was a colonial one of Ophelia roses. Miss Hilda Lanternier, also a bridesmaid, looked very well in a beautiful green faille silk with flounces of silver lace. Silver lace enriched the waist. Miss Lanternier also wore a velvet hat with a tiny bird for ornament. Her flowers were Shoyer roses. Miss Mary Meehan was flower girl and she was exceedingly attractive in a dainty frock of pink Jap silk long waisted and ruffled skirt with pink ribbons and shoes and stockings, all of which combined in the beauty of Miss Mary's appearance. Messrs. Cletus Meehan and Elfred Meehan were groomsmen and Messrs. Clance and Ralph Meehan were ushers. The flower child carried a basket of roses and a lily that held the wedding ring. The church was decorated in palms, ferns and white chrysanthemums. The wedding breakfast was served at the home of the bride's parents and in the afternoon an informal reception was held to intimate friends. The house was tastefully decorated with roses, smilax, a wedding bell over the table, the colors of yellow and white predominating. A number of young women who assisted during the reception were Misses Monica and Florence Beuter, Eva Smith, Bertha Lonshire, Eileen and Ruth Lanternier. After a few days' trip Mr. and Mrs. Conrad will begin housekeeping in a newly furnished bungalo at 2419 Winch street. The bride has had a round of beautiful parties previous to her wedding and her popularity among her friends is equalled by the high regard held by friends and acquaintances of Mr. Conrad. The bride is a daughter of Mr. and Mrs. John Meehan, of 2712 Maumee avenue. Mr. Conrad's parents are Mr. and Mrs. Casper Conrad.

FIRE AT CRAWFORDSVILLE.

Crawfordsville, Ind., Oct. 12.—The plant of the Pioneer Box company here was destroyed by fire early today. The blaze started in the office of the factory. The damage was estimated at $50,000. Insurance was said to cover the greater part of the damage.

Columbia Court of Honor, No. 242, will give a euchre party at 209 East Main street Friday evening.

THRILLS OF GUNPLAY INVADE BUSY STREET

Man at Indianapolis Fires Twice at His Former Employer.

Indianapolis, Ind., Oct. 12.—The busy wholesale district on Maryland street, between Delaware and Pennsylvania streets, got a Mexican-border-like when two men stepped from an automobile and one opened fire with a revolver on the other yesterday afternoon. When the smoke of battle cleared away shipping clerks, pedestrians and drivers of vehicles in the crowded block emerged from their places of safety to find that Albert Knuckols, 55 years old, 225 West Twelfth street, had shot twice at Michael Glenn, former owner of the notorious Elite Cafe, 339 Indiana avenue. The bullets went wild. Knuckols is a former manager of the Elite Cafe, having been employed by Glenn.

Traffic Policemen Barge and Ross, stationed at either end of the block, closed in on the men and took the revolver from Knuckols. He was arrested on charges of shooting with intent to kill, shooting in the city limits and carrying concealed weapons. Knuckols was released when a $1,000 bond was provided.

Trouble Over Locket.

Barge said that he saw Glenn and Knuckols as they passed his corner, at Pennsylvania and Maryland streets, driving east on Maryland street. At that time they did not seem to be engaged in an argument, the policeman said. The shooting occurred a short time later in the middle of the block.

According to Knuckols, the trouble was about a $35 locket which Glenn gave him last May. He said that Glenn met him at Illinois and Washington streets and boarded his auto. Glenn demanded the return of the locket or payment for it. The argument grew more heated, Knuckols said, as they drove east on Maryland street, and Glenn attacked him. Knuckols declared that Glenn drew a knife and threw it away before the police arrived. A search was made for the knife by the police, but none was found.

Glenn's version of the affair was somewhat different. He said that he had demanded payment for the locket and Knuckols agreed to write him a check. It later developed, Glenn said, that Knuckols did not intende to write the check, but agreed to drive Glenn to th epolice station when the former Elite owner declared that he would have Knuckols arrested.

"Knuckols killed his engine at the place the shooting occurred," Glenn said, "and we got out of the machine. The next thing I knew he had drawn a revolver. I ran and dodged behind an auto as he fired twice."

MILLIONS MORE TO BE SPENT AT GARY

Steel Men Disclose Big Plans of Corporation on Witness Stand.

Chicago, Oct. 12.—Gigantic plans for the expenditure of millions for the further development of Gary, Ind., as the greatest steel center in the country, were told by executives of subsidiary companies of the United States Steel corporation yesterday on the witness stand in Valparaiso, Ind.

E. J. Buffington, president, and G. G. Thorpe, of Chicago, president and vice president of the Illinois and Indiana steel companies, and W. P. Gleason, general superintendent of the Gary plant of the latter company, outlined the projected improvements before Judge Crumpacker. Trustees of the Mandel estate had brought an action to cause the corporation to restore the Grand Calumet river to is original form to connect with Gary harbor. The steel corporation contends it was necessary to move the river to build its plants and that use of the harbor for general commercial purposes is impracticable.

The Gary plant is having its furnaces increased from eight to twelve, and a new Bessemer duplexing mill and other additions are being added. It now employs 8,400 men, a like number being on the rolls of the other subsidiaries. There are to be five additional blast furnaces erected at the Gary plant, according to Mr. Buffington.

This will make seventeen stacks—the largest single group in America.

New construction now under way at the Gary plant will cost between $15,000,000 and $20,000,000, and employment will be given to several thousand men upon its completion next year.

The plans for the National company, for which the Steel corporation authorized an expenditure of $25,000,000 for the first units, call for four blast furnaces, ore docks, Bessemer mill and auxiliaries. Ultimate plans call for fourteen blast furnaces. Construction work has not been started as yet.

Plans are now being forwarded for the American Locomotive company's plant and for the plant of the American Car and Foundry company, both of which are to be located in Gary, according to President Buffington. These concerns have purchased sites in Gary.

MAN ENDS LIFE WHILE WIFE IS SEEKING HIM

Greenfield, Ind., Oct. 12.—While Mrs. Frank L. Lindon, of Knightstown, drove frantically about Greenfield in an automobile in search of her husband, who had informed her by telephone that he intended to commit suicide, Lindon swallowed poison and ended his life on a bank of Brandywine Creek a short distance from the city. Boys who were fishing found his body. Lindon, who was 50 years old, had been engaged in the insurance business at Knightstown, but came here to pursue his work several weeks ago, his wife and 4-year-old son remaining at Knightstown. His business did not prosper and he had become discouraged. When he telephoned to his wife that he would "end it all" she engaged an automobile and hastened here to hunt for him.

So highly inflammable are some of the glittering trimmings now used on women's dresses that the New York fire department has suggested that they be condemned.

GIRL, PARALYZED TEN YEARS, CAN SWIM LIKE A FISH.

DOROTHY NEVIN AND HER CHUMS.

Chicago, Ill., Sept. 18.—Dorothy Nevin, 14, paralyzed in her legs for ten years, takes a daily dip in Lake Michigan and swims as gracefully as a mermaid.

Dorothy is wheeled to the beach in a chair by chums, carried to the water's edge and helped into the water. She swims with a crawl stroke, in which the legs are not used, which she learned from her brother. She also dives from a kneeling position, as boldly as other divers.

"It's wonderful to feel that I can move again all by myself after spending ten years in an invalid chair," says the invalid.

CHINESE FRIENDLY TOWARD AMERICANS

It's Greatest Asset of U. S. in China, Says Commercial Attache.

BY JULEAN H. ARNOLD
Commercial Attache to American Embassy at Peking, China.

Seattle, Wash., Oct. 12.—America greatest asset in China today is the friendship of the Chinese people.

No other people on the face of the earth occupy such a warm place in the hearts of Chinese as do Americans.

Just before leaving Peking recently, President Lee Yuan Hung asked me to convey for him and his people to the people of the United States a message of friendship, and to state that American capital, brains and material are wanted to help build a new China.

But how is America availing herself of this position of vantage? While China's import trade has increased fourfold in the past twenty-five years, her imports from the United States have not even doubled in that period.

In fact our trade with China during the past ten years has been about stationary. What we have lost in piece goods and flour, we have gained in kerosine and steel products.

The great mistake made by American manufacturers, exporters and bankers today in regarding China as a field for activity is their failure to consider the China of ten and twenty years hence rather than the country today.

The reason American trade has lagged behind that of other nations in China is that American financiers have not participated in Chinese loans.

British, German, French and Japanese capital have gone into China in a big way. But American capital, though extended on especially cordial invitations, has remained shy.

In spite of China's revolutions and rebellions, her floods and plagues and catastrophes, foreign interests have been protected and they have been indemnified against all direct losses.

Today the new China is rapidly forcing out the old. We shall make no mistake in responding to the generous invitation of the Chinese nation for our capital, brains and materials.

YOUNG STUDEBAKER TO HAVE OPERATION

Skull Fracture Feared in Case of Wealthy South Bend Student.

Cambridge, Mass., Oct. 12.—Clement B. Studebaker III., 22-year-old son of Clement Studebaker, of South Bend, Ind., the automobile manufacturer, passed a restless day at the Copp hospital in this city, where he was taken with serious injuries received when his racing car collided with another machine at the junction of River street, Arlington, and the Myste Valley parkway.

His physicians fear a probable fracture at the base of the skull and internal injuries and are awaiting a favorable time to operate. The young man's parents are at the Hotel Touraine, Boston, having come from their summer home at Rye Beach, N. H., when notified of the accident. They passed the day at their son's bedside.

Young Studebaker is a student at the Masaschusetts Institute of Technology, where he is preparing to enter the Studebaker firm in South Bend, Ind.

WILL WORK FOR EICHHORN.

Delegates from the local order of Red Men to the great council meeting at Indianapolis Oct. 16, 17 and 18, have been instructed to lend their support to Judge Eichhorn, of Bluffton, who is a candidate for great junior sagamore. The local delegates are Great Chiefs Kleckahmp, McNamara, Howard, Millhouse, Drummond, Miller, Bernheimer and Habecker. At the regular meeting of the order Wednesday evening plans were made for a big campaign this winter. There will be progressive pedro and refreshments for all members and their paleface friends on Wednesday evening, Oct. 25.

Rev. J. F. Connelly, pastor of the St. Joseph's Catholic church at Lebanon, was in Fort Wayne Thursday calling on his brother, Thomas Connelly, deputy county treasurer.

RELIGION, TEMPERANCE AND HEALTH

Recalling the Past.

We suppose there are few, if any, who ever recall the past without more or less of regret and even of pain. And if we could rewrite its history—oh, if we only could—how many paragraphs would we erase—how many entire pages would we tear out and destroy? But, alas, the past—is past, and its history more unchanging than if engraved in stone or steel. No power, even that of Infinite, can erase one word—one single word of that which we have written, whether with baby fingers or the strong hand of maturity!

It is not that we have been guilty of real crime perhaps—of real, deliberate sin, against God or man, but we have all been weak, so weak and ignorant that, in our weakness and want of knowledge and experience, we did that which left an immovable blot on the page which might otherwise have been so fair. Some of these we call sins of omission—the failure to do that which we should have done and might have done. We are inclined to think of these as minor in character and yet in many cases they are tremendous in results. In many cases they involve the issues of life. In our selfish preoccupation or indifference, we fail to see what we might do for others or ourself—we fail to heed the personal warning of coming ill, or to reach out the helping hand to one in need, and that need is often great. How many times we might save—even life itself and many more times we might save tears, heartache, and character in those whose lives are tangent to our own and whom even a slight conserving influence might move to safety and peace.

But the pain that comes to the thoughtful and conscientious, in recalling the past, is only healthful in the measure of its effect. To weep over a day we have darkened, a life we have saddened or blighted and then to forget is worse than weakness—it is a sin! The only good is to warn us against that which we regret and turn us to right endeavor. The present will soon be—the past, and unless we change from that which marred the record of the past, we will have more and yet more to pain us in the years to come. The dark record will lengthen out and perhaps grow darker, for without amendment there is always retrogression.

Our confidence may have been often abused and our kindness received with ingratitude, but we have never regretted a single worthy act or impulse on that account. We looked not for reward other than that of our own heart and this we never failed to receive. We never gave a penny or a dollar to one in need that we regretted but we often regret that we did not give more!

Doubtless the most poignant regret that comes to any one in recalling the past is when the omission of helpful kindness, or real wrong was against the peace or happiness of some one really dear to our heart, and who have since passed into the unseen. All that longing love can now do is vain. The flowers with which we deck the grave may express our pain, but bring no relief to the saddened soul. And our best and brightest hope is that, perhaps hovering above us on viewless wings, they may mark our tears, and hear the sighs that break from our burdened spirit. Or, failing this, that somewhere, somewhere we shall meet them again and receive assurance of forgiveness for all that is past.

But all this, and all else that fancy might suggest cannot do away with the shadows that overhang the past—the sad pages in the annals of our life. Repentance is always good, but no repentance is real, substantial unless it brings about a change in the life. And since we cannot express our fond regret to those that are gone and can, in no measure atone to them for any pain inflicted by mere neglect, or positive wrong, our only proof and mode of repentance must be in the exhibition of that kindness to others we would fain bestow on those who have passed away.

Let us lay the lesson to heart today, for all about us are those to whom we may minister. Not only the poor, the sick or the sorrowful, may be brightened and comforted by our ministration, but even the jeweled woman in the fullness of health, or the millionaire, over whom, so far as the eye can see, no storm is brooding—even these may be made happier—better by a word, or a smile—in due season.

How Closing of Saloons Worked

Mr. M. W. Purcell, District Attorney of the Fourth Judicial District of Colorado, says that the closing of saloons in that district "has been beneficial in the highest sense of the term." He continues:

"The buildings formerly occupied by saloons now contain prosperous business concerns engaged in grocery, clothing, jewelry, and other lines of business, and property values have not depreciated, but in many instances have increased. Merchants are not only doing a better business, but find no trouble in the collection of their accounts, and men to whom they would not extend credit last year are welcome credit customers today if they want to use their credit, which is seldom necessary, as they always have the cash to pay, and men are spending their time now with their families in newly-purchased automobiles bought with the money formerly frittered away in treating and petty gambling in saloons.

"Crime has decreased to such an extent that thousands of dollars formerly expended in court costs in State cases are now being set aside to be used for building roads and other improvements in the various counties.

"Police court and justice court cases have decreased about 60 per cent on an average and in some localities have been entirely eliminated. Savings accounts in the cities and towns of the district have increased about 30 per cent and all business men report a better tone to their business than ever existed before."

GOD BLESS THE GOOD-NATURED.

We have all known radiant people
Whenever they came into the house
They came in like a burst of sunshine
It might be joy outside or it might be stormy, but whenever those people came in it was just like a burst of sunshine. What a blessing such a people are to any community and to any home!

God's word tells you just how to be that sort of a person. The verse tells you how "They looked unto him, and were radiant." (R. V.) You know God is the sun, and if you and I have time for communion with Him, we become sunny, too.—R. A. Torrey.

Dr. Torrey's Advice.

Dr. Torrey, the noted evangelist, gives this advice to converts:

"First—Keep looking at Jesus. Don't look at any man—look at Jesus. If you are troubled about your sins, look at Jesus on the cross and know all your sins were settled there. If you are tempted to sin, look at Jesus on the throne and know that he has power to keep. If you are puzzled as to what to do, look at Jesus, and ask what he would have you do.

"Second—Keep confessing every opportunity you get. The more you make of Jesus, the more he will make of you.

"Third—Keep studying your Bible, at least fifteen minutes every day.

"Fourth—Keep praying. Pray the first thing in the morning before you meet any one else. Pray the last thing at night. Pray when you are tempted. Every time you feel like it, pray! Every time you don't feel like it, pray!

"Fifth—Go to work. The working Christian is the strong Christian. Jesus has saved you, now go out and try to save some one else."

"PROVE ME NOW HEREWITH."

If any Christian who has never tried tithing will make the experiment, following it through to the end in prosperity and adversity, we predict for him two surprises: First, he will be astonished at the increased amount which by this method he is enabled to give to the Lord; and, secondly, he will be astonished at the increased spiritual and temporal prosperity which the Lord will give to him.—A. J. Gordon.

A CHEERFUL SPIRIT.

One of Haydn's friends once asked him how it happened that his church music was almost always of an animating, cheerful and even festive quality. The great composer replied: "I can not make it otherwise. I write according to the thoughts I feel. When I think upon God my heart is so full of joy that notes dance and leap, as it were, from my pen; and since God has given me a cheerful spirit, it will be easily forgiven me that I serve him with a cheerful heart."

ARE YOU THIS KIND OF A PRISONER?

(From the Los Angeles Herald.)

Power of the Word.

"I ran away from home when I was eleven years old," remarked a gray-haired man, grimy with sweat in the shop. "I never knew much about my people. I wandered over the country, was up and down the Mississippi several times. It was easy to drift and of course I learned to drink, and became a drunkard. I learned a trade, that of printer, but drink made it impossible to hold a job long. At last I determined to get away from the city and took to the farm, where I would work for two or three months at a time, and then go to the city to deposit my earnings.

"But I was sure to meet with some old pal, and would wake up the next morning with a big head and an empty pocket. Not a cent had reached the bank. No new clothes had been purchased. This continued for two or three years.

"About that time, when I was now twenty-five, a revival meeting was held nearby, and I finally went though the crowd I had trained with, had always sneered at religion. And I had been taught in the saloon that it was so much hypocrisy and sham. But I heard the testimonies, became impressed, and went to my room and dug up a little testament a sister had given me years before. I began with the first page and read it right throug. It was that little book that changed my life and made me settle down. And now I have a nice home and my family grown, an honor to their parents and useful in the world." "Thy word shall not return void."—Rev. W. H. Jordan, in the Christian Intelligencer.

SAVED BY PRAYER.

A life-boat went out on a dangerous coast to the relief of a ship-wrecked vessel. The waves ran high and threatened to swamp the boat. At last the captain said: "Mates, shall we turn back? We are going to certain death. The ship has sunk, and doubtles all hands have gone down with her." There was a moment's hesitation, and then one man cried out, "No, let us go on. As I ran down the beach I passed two ladies on their knees praying for the lives of the men in yonder wreck. I believe God will hear them. I believe we may yet find some alive." His words had such an effect on the crew that they plucked up courage and rowed on amidst the breakers. They picked up five poor fellows, one by one, clinging to wreckage, and otherwise supporting themselves. The prayers of those two ladies had saved those lives.—Bombay Guardian.

A CONDITION OF SUCCESS.

We have to repent of and relinquish individual and national sins before we can hope for any real advance. Among these is the alcoholic crime which is exhausting national resources in money and food and men, and preventing military success. Britain will never achieve a decisive victory till the infamous drink traffic is prohibited.—Irish Presbyterian.

How to Escape Winter Colds.

Many make the mistake of wearing heavy suits of outer clothing in winter in addition to heavier underwear. They have in mind the very few hours they are in the open, when, as a matter of fact, they are indoors twenty or twenty-two of the twenty-four, the temperature often being as high as 80 and 85 degrees.

This is worse than summer heat, for with the windows closed the fresh air available in summer is lacking. Under these conditions perspiration is apt to be free and then the exposure on going outside to a temperature often 50 or 60 degrees lower, creates the ideal condition for taking cold.

The more sensible plan is to wear the same weight of outer clothes in winter that we do in summer, relying upon the overcoat alone for protection when outside.

For the success of this plan you should wear either mesh or woolen underwear and not cotton. Those who have adopted this form of winter dress know the comfort and decreased frequency of colds that result, and it would be difficult to persuade them to return to the old practice.

It is almost necessary to have both a heavy coat or ulster for the severe weather and a light coat for spring and fall use. The ulster might be uncomfortable at the later seasons, whereas there are many days when it is unwise to go out without an overcoat of some sort.

The wearing of "chest protectors" is condemned. Quite the opposite of protecting they weaken the chest and render the wearer a much more easy prey to colds and other infections. The reason for this is that they make the chest more sensitive to cold. The best "chest protector" is a cool sponging of the chest every morning followed by vigorous rubbing.

Ever hear of the "American Posture league?"

It is made up of a group of people who are trying to educate the masses to realize the importance of a correct posture in preventing many of the ills and deformatories to which the body is suspectible.

They point out the harmful results of incorrect posture as most apparent in the growing period of life. It is at this period that the boys and girls must be taught the importance of avoiding incorrect attitudes, whether at work or at play, since the later result in ill health and even in deformity.

The priacipal cause of these conditions is the tendency of the young of both sexes to assume slouching positions. They sprawl in a chair rather than sit upright in it. They rest the weight on one leg, allowing the spine to become twisted or sit with stooped shoulders, when they should be sitting erect.

The "debutante slouch," so fashionable a few years ago, was one of the chief causes of ill health among young women.

The old school seat fashioned from one mold to fit all sizes and conditions of children is a potential cause of trouble.

One of the commonest examples of faulty posture is that of round or stooped shoulders. It is usually brought on by the slouching attitude previously spoken of, and is first noticed because it is unsightly. Slouching attitudes result from fatigue and may be the first sign that the child is working or playing beyond his strength.

DO YOU KNOW THAT—Soap and water, sunshine and fresh air, thoroughly applied, are the best disinfectants after disease, and the best preventives before?

* * *

By infection is meant the entrance into the body of living agents capable of multiplying and causing disease.

The symptoms of such infectious diseases are developed by the toxins or poisons produced by the invading germs. If these are strong enough to overcome the resistance which the normal body attempts to raise, severe illness or even death results. But the toxin in any case cannot multiply itself and the disease cannot be communicated from person to person without the living agent which manufactures that toxin. In these days a specific infective cause has been found for each of a large number of diseases.

We speak of pathogenic micro-organisms or microbes, or disease-producing organisms which can be seen only by the aid of the microscope. There are other pathogenic germs which the microscope has as yet been unable to reveal. These are termed ultra-microscopic.

Many infectious germs may be found upon the skin and mucuous membrane and produce no disease in the individual. In this way the germs of diphtheria, pneumonia, influenza and various other pathogenic micro-organisms may be found on the surface of the body. They produce disease only under favorable conditions, when the bars of local or general resistance are let down.

"CHRIST ALL AND IN ALL."

(By Rev. G. L. Powell.)

Wonderful conception! We are indebted to Paul for it. The same apostle said, "For me to live is Christ and to die is gain." The scientist professes to trace back the endless variety of activity and service which he observes all about him to some one motive force, but Paul discovered behind the force a glorious personality. He found that underneath all true service there is love as a mighty incentive, and he goes farther back and asks for the origin of that love, and finding it growing in force and taking possession of his whole being, he exclaims, "The love of Christ constraineth me."

That is the secret of it all—the love of Christ; the love that found its expression in His life of suffering and death of shame. That was the one thing that made it impossible for Paul to be inactive; it was the power that impelled him to labor; it was that which converted every duty into a privilege, every task into a joy. Christ was at the heart of it all. Paul was the Christian philosopher, if you will. He did for the church what the scientist is trying to do for his school—for there is a yearning in the heart of man, however variously expressed, to realize that at the center of the endless varieties of beings and operations there is one controlling, governing principle. Paul found that, and more. He discovered that at the center of all not only one force, but one loving Almighty Person. He, therefore, saw no confusion in creation, but that "Christ is all and in all," and that life was no uncertain, restless thing, "for to me to live is Christ." He believed and taught that at the center of everything there is a loving, living Personality—Jesus, the Savior of men. And He is not only the center but the circumference also. "Christ is all and in all." In Him all differences are lost, since in Him all diversities meet.

"Christ is all and in all" in the lives of His followers. Mr. Spurgeon illustrates this thought with a legend: A certain man had a garden that produced nothing but weeds, till he met with a strange, foreign flower of remarkable vitality and fructility. By chance he sowed a handful of the seed in his garden and went away and left it alone. When he returned he was astonished at the sight, for he found that the plant had covered the whole garden, exterminated every weed, and from wall to wall, he could see nothing but the beautiful colors of the rare plant, while its sweet aromas filled the air.

Christ is that "plant of renown." If He be sown in the soil of the heart, he will gradually displace and exterminate the ill-weeds and root out the poisonous plants of sin and evil, till the heart becomes filled with His presence and the life made fragrant with His Spirit. Then we can say with Paul, "Christ is all and in all," "for to me to live is Christ." Our inspiration comes from Him, and whatever victories we gain we must recognize as His and His only.

SEVEN LAWS OF FRIENDSHIP.

The seven laws of friendship are: (1) Moral sincerity. (2) Likeness of personality—that is, much overlapping of tastes. (3) Complimentary personality, sufficient unlikeness to give a zest and flavor to friendship. (4) Community of experience. What friends have lived through together is a bond that holds tight. (5) Growth. Friendship is not static. It must be woed afresh every day. (6) Loyalty. Not only a faithful recognition of the bonds already established, but also a sincerity and an absence of pretense. There must needs be a succession of growing comradeships for every growing life. It is folly to blow the ashes of a dead fire and pretend to be warmed. (7) Independence of personality.—Edward Howard Griggs.

DISAPPOINTMENTS ENDED.

Many earnest Christians live disappointed lives. They are constantly expecting blessings, encouragements, victories, in their personal experience which do not come to pass. Then one day one of these habitually disappointed Christians enters wholly into "the life that is Christ;" and what a change! Instead of disappointments, each day is brimming over with unexpected surprises, supernatural blessings and victories; until, as one is borne on and on in the New Life, it seems as though heaven itself could not be much better than this "more than conquering" fellowship with Christ. The reason for it is because one's whole attention is now centered on Christ, not on self or on circumstances. And Christ never disappoints. He always more than satisfies. The "Victorious Life" is not "satisfied" in the sense of desiring nothing more; for one rejoices in the privilege of growing in grace every day and every hour. But disappointments are ended,—because He is our whole life and our only life.—Sunday School Times.

A COMMON SENSE POLICY.

Kansas is the first state to bar the drinker from holding public office. The civil service commission, at the suggestion of Governor Capper, incorporated this ruling in the new law. "Most of the big corporations and other large employers have adopted the policy of not employing drinking people," said the Governer in his letter to the commission. "In my judgment a state can well afford to follow in such footsteps."

One need not be much of a seer to predict that civil government all over the country, national as well as state and municipal, will soon "standardize" its business system in like manner. Even the anti-prohibitionist can recognize the value of total abstinence as a business asset.

GOD'S BUILDING MATERIAL.

God is prevented from doing what He wants to do with our lives when we give Him too much material to work with. He cannot use any of our "self"; it is wholly wrong material for His use. "God made the world out of nothing. Unless you are nothing but a sinner saved by grace, God cannot do much with you." He can work His "new creation" miracle in men when He has the same material that He used when He created the universe—nothing but His own power. He cannot use our self-life; but He can crucify it, replacing it with God the Son; and then the miracle of the Christ-life begins in us. So there is tremendous virility in the old hymn that has been mistakenly counted weak— "Oh, to be nothing, nothing." It is only when we are ready to be nothing that Christ can make Himself our all.

CHRISTIANITY IN THE HOME.

There is no such school of Bible religion in the land as a happy, God-fearing home; no church so effective for restraint from evil, and for growth in all Christian graces, as "the church in the house." There stands the domestic altar. There is felt the influence that molds character from the cradle to the judgment seat; such a home on earth is the surest preparation for the home eternal. Of this "church in the house," the parents are the God-ordained pastors. The conversation of the fireside, the books selected for their reading, the amusements chosen for their recreation, the society that is invited and the aims set before them, all bear in one and the right way. It is in the power of every parent to help or to sadly hinder the salvation of the offspring. May God help all parents to fulfill their high and holy trusteeship.—Cuyler.

I MEANT TO.

"I meant to," but he put it off.
"I meant to" is echo of Regret.
"I meant to" means "it's too late."
"I meant to" is the poorest of all poor excuses.
"I meant to" acknowledges that he could, but did not.
"I meant to," but put it off—sad news in a sorry season.
"I meant to" will not feed and clothe and care for the needy.
"I meant to" will not buy an easy chair for indigent old age.
"I meant to" will not satisfy the mortgage and save the home.
"I meant to" will add thorns and thistles to many a dying pillow.

"It Was Drink That Bought Me Here."

"Dorothy Dix" tells in the New York American of a talk with a young girl who sat in Assistant District Attorney Smith's office in New York. She was a witness in the recent "white slave" scandal. The district attorney's investigation brought to light that girls in the tenderloin were stripped, put on the block, and sold for a dollar a pound.

"Tell girls for me," said the girl, "not to drink. It was drink that brought me here. It was drink that brings almost every girl here who comes to this end.

"There's a lot been said during this vice investigation about the men who prey on young girls, 'doping' the drink that girls are given, or putting 'knock-out' drops in their liquor. Believe me, every drink that a girl takes is dope. Every drink is a knock-out one for her.

"It doesn't need to have drugs put in it. The liquor is enough of itself, for when a girl takes a drink I think her guardian angel takes leave of her.

"They say a woman can't stand alcohol. I believe it. Drink goes to a girl's head, and it goes to her heart. It excites her emotions and makes her do foolish things that she would be incapable of doing when she was cold sober.

"I have never met a girl who had taken the wrong turn of the road who didn't tell me that she had done it when she was so befuddled with liquor that she didn't know what she was doing, and I've never heard a man discuss whether a girl was good or bad that he didn't begin by stating whether she drank or not.

"I was not a drinking girl, but one night I went to a party where there was much wine and many toasts were drunk; and when I woke up the next morning I thanked God that my mother was dead.

"Tell girls for me that the only girl that is safe is the girl who never drinks anything stronger than tea or coffee. The devil may have tempted Eve with an apple, but he uses a cocktail now, and ruin and disgrace lie in the bottom of every glass.

"If you could keep girls from drinking there would be few such as I. It is drink that sends us to the gutter, and to the potters field after it has robbed us, in a few short years, of youth and health and beauty and the respect of our fellow creatures and of all that makes life worth having."

COLUMBUS DAY SEES BIG CROWDS AT FIELD

Thousands Take Advantage of Holiday to See World Series Game.

Boston, Mass., Oct. 12—The anniversary of the discovery of America by Columbus, observed as a holiday here, coincided today with the fifth game of the world's series between the Brooklyn Nationals and the Boston Americans. Thousands of persons, freed from their labors by the holiday, took advantage of the opportunity to go to Braves' field. The result, in the opinion of club officials, before the game was likely to be the greatest crowd in the history of baseball.

Braves' field, although holding the record for attendance of 42,300 in the series last year, has not yet been taxed to capacity.

It was a last trench which the Brooklyns prepared to make against the Red Sox. Three of the four games already played had gone against them by the force of Boston batsmen's strength or the sureness of the service of Red Sox pitchers. Only one game lay between the Boston team and another world's championship.

While thoughts of the players turned in part to the money end of the series, those of the prospective spectators remained fixed on the players and play. Batteries came in for first consideration.

Today the element of uncertainty in this connection was largely removed in the minds of the fans. It will be Smith for Brooklyn and Shore for Boston, nearly all agreed, as they exchanged opinions around the fires lighted beside the gate at Braves' field, where they went in the chill of the morning to obtain choice of bleacher places, the fans could figure on no other pitchers. Smith, because of his performance in the fourteen inning game which Boston won here on Monday, was held to be Robinson's best card. Shore, although uncertain in the opening game of the series which Boston won, was still held worthy of Manager Carrigan's faith, while Ruth, winner in the fourteen inning duel of Monday, was expected to be held in reserve for possible use to-morrow.

In the event that Shore slipped and Ruth failed, Manager Carrigan still held Leonard against the possibility of a last game fight for the title. The probable lineup for today:

Boston—Hooper, right field; Janvcrin, second base; Walker, center field; Hoblitzell, first base; Lewis, left field; Gardner, third base; Scott, shortstop; Cady catcher; Shore, pitcher.

Brooklyn—Myers, center field; Daubert, first base; Stengel, right field; Wheat, left field; Cutshaw, second base; Mowrey, third base; Olson, shortstop; Miller, catcher; Smith, pitcher.

The umpires were stationed as follows: Plate, Connolly; bases ,O'Day; left field, Quigley; right field, Dineen.

Hard Record to Lower

Sidney Hatch Trains to Lower Time for Century Jaunt.

Chicago, Oct. 12.—Sidney Hatch, winner of a score of marathon races, has started training for his 100 mile run from Milwaukee to Chicago, set for Oct. 17. Hatch hopes to set a new record for the distance, which has been covered in 18:07:00.

The veteran long distance runner will be accompanied by several automobiles with watchers. Arrangements will be made to have hot food and drinks at various towns along the course, to be picked up by the autoists and served to Hatch so as not to slow his progress.

The start will be made from Milwaukee at 8 o'clock at night. Hatch expects to finish in Chicago between 12 and 1 o'clock the following afternoon.

YOST DOESN'T AGREE WITH MAULBETSCH CONCERNING FORM OF DROP KICKING.

Ann Arbor, Mich., Oct. 12.—John Maulbetsch, star halfback of the University of Michigan football eleven, may be used as a drop kicker by Yost this season. Maulbetsch has been practicing kicking since reporting for fall training and while his method of holding the ball with one hand has not won Coach Yost's approval, Maulbetsch has shown some improvement. Michigan is in need of a reliable kicker.

Friar Squad Goes Back to Hard Work

The Friar squad will practice tonight for the first time this week, due to the fact that the team had no small job putting over a win on the Hammond crew. Another practice will be held Saturday afternoon and then the Friars go out to meet the tribe of redskins who have taken the warpath. The visiting aggregation will be practically the same team which represented Carlisle against Harvard and other rivals of the school last year. The warriors live in Detroit now, and sell their services to the automobile manufacturers.

It has been reported that when Evanston plays here they may have the same Frank Blocker, who played here last Sunday, on their front wall. Any time in the future that Blocker is playing here the Friars won't have to worry about the ticket sale.

At the Rotary club meeting yesterday noon the Friar football team was officially endorsed and declared to be of value to the city in the way of advertising. At this time the club members decided to attend the Thanksgiving game in a body and accordingly made arrangements for a block of at least 300 seats. The committee appointed to arrange for Rotary day consists of Harry Hattersley, W. M. Griffin, Charles Biederwolf adn Carl Suedhoff.

GOOD HEALTH NEEDED FOR BILLIARDS, SAYS CHAMPION GIVING POINTERS IN THE SENTINEL.

(The first of four articles in which the world's greatest billiardist tells how billiards will build up health, and gives pointers on playing the game.—Editor). (By Willie Hoppe, world's greatest billiardist).

Much has been said concerning the strides billiards has made in the United States in recent years, and my views on the subject may interest lovers of the game.

I believe there are more good players in the country now than when I first took up the game but I claim those in the front rank have not advanced beyond the standard set by Schaefer and Ives twenty-five years ago. Naturally, I except myself, though not in a boastful way.

My scores at 18-inch balk line show I am playing this style as well or better than Schaefer or Ives ever played the 14-inch game, and I take no special credit for my superiority over others now playing, for I claim my mastery over the ivories is, to a large extent, intuitive.

I claim I am a born player ,and that my present isolation on top is due to natural gift for the game supplemented by years of practice and careful training.

All old time billiard fans know neither Ives nor Schaefer ever took the care of themselves that is absolutely necessary for pre-eminence in a game in which nerves play so large a part.

Like the ball players of a generation ago, these old experts took life easy. I have always taken care of my physical condition.

I do not smoke nor drink and I take plenty of exercise. I walk a lot and take occasional workouts on ball fields. Golf has proved beneficial on the eve of important matches.

Football Yesterday

Navy, 14; Maryland State, 7.

Annapolis, Md., Oct. 12.—The naval academy eleven defeated Maryland state college of agriculture here yesterday, 14 to 7.

That the score was not a 7 to 7 tie was due entirely to the nervousness of the agricultural men in the opening plays. The initial score of the sailors was made only after two fumbles by their opponents.

Michigan, 54; Carroll, 0.

Ann Arbor, Mich., Oct. 12.—Carroll college, of Wisconsin, was helpless before the rushing tactics of the University of Michigan football squad yesterday and went down to defeat 54 to 0. The visitors made one first down two minutes before the final whistle blew, but otherwise were unable to ward off the Michigan offensive.

TALKS HIMSELF NEAR JAIL.

Alexandria Man Arouses Indignation of Judge Anderson.

Indianapolis, Oct. 12.—Orin K. Stuart, of the Sunlight Gas company, of Alexandria, almost talked himself into jail yesterday for remarks made to Judge Anderson in federal court. Action against Stuart was brought by the Prestolite company to prevent him from refilling the plaintiff's tank with a gas made by Stuart. After he had been told that he was breaking a contract in so doing Stuart asked permission to address the court. He then asked Judge Anderson if he were a stockholder in the company. The court said: "If I thought you knew what you were saying, I would send you to jail right now."

Judge Anderson's "pity for the ignorant" saved Stuart from a sentence for contempt.

GURLEY TAKES NO CHANCES.

Friday, Thirteenth, Too Much for Colored Republican Orator.

Richmond, Ind., Oct. 12.—Friday, the 13th, strikes fear into the hearts of some, according to negro republicans of this city, who have been compelled to postpone a mass meeting which was to have been held Friday. The postponement was brought about through the announcement of Gurley Brewer, a colored orator of Indianapolis, that he would not travel on Friday.

BIG YEAR FOR PLAYERS IN WORLD SERIES HAUL

Attendance Less But Gate Receipts Higher Than Last Year.

New York, Oct. 12.—Baseball statisticians figured today that $162,927, the players' share of the receipts from the present world's series, is the largest sum ever divided among the members of two clubs in any world's series. Sixty per cent of it goes to the winners and 40 per cent to the losers. If Boston wins the series, each of the twenty-six members of that club will receive $3,332.49 and each of the Brooklyns $2,715.41. If Brooklyn should win each of the twenty-four players of that club will pocket $4,073.10, which would net a new record for the amount won by the individual players in any world series. Should Boston lose, the players of that club would receive $2,506.53 each.

Although the attendance at the first four games this year has been nearly 3,000 less than last year, the receipts in 1916 were more than $33,000 higher than in 1915, the total for four days that year being $301,717. The best previous mark of four games was in the series between the New York Nationals and Boston Americans in 1912, when the total receipts were $275,282. The attendance that year was almost 17,000 more than this year, but higher prices for seats have prevailed in 1916. For the remaining games of the series the players will have no share in the receipts. Charles H. Ebbets, president of the Brooklyn club, in discussing his offer to sell his club, said today he had several offers for his stock, which is believed to be 51 per cent of the total. He would not say what price he set upon it nor whether any of the offers are near his demand. He said he was still enthusiastic over the game but tired after thirty-four years in the executive end of the sport.

CARROTS AND TURNIPS ARE SCARCE ARTICLES

National Holiday Seemed to Have Effect on the Local Markets.

Truckmen and farmers are alike in their opinion that the carrot and turnip crop this year is but little ahead of a flat failure. The hot weather this summer dried up the stalks and as a result there is but very little beneath the ground. The few that appeared on the city street markets Thursday morning were small.

The national holiday seemed to have an effect on the markets. As a rule Thursday is usually a very active day, but today there was nothing doing. Receipts were very small and prices in all departments remained the same as yesterday.

Wheat holds out at $1.52 a bushel and the old price on live stock is the same. Rye prices are up very high but no change has been made in the paying price for nearly a week.

New corn sold for 60c a bushel on the market Thursday, while the old grain of last year brought 82@84c a bushel. The city weighmaster weighed 22 loads of hay which sold for $10.00@12.00 a ton.

BABY BONDS MAKE A PERFECT SECURITY

First mortgages on local real estate are known to be the last word in investments as far as safety is concerned, and since Baby Bonds are secured by first mortgages, men who are qualified to advise small investors are quite unanimous in expressing their approval of this security as a saving method. Baby Bonds come in $10 denominations, are secured by first mortgages on local real estate, and bear six per cent interest. There are also similar bonds of $500 denominations, bearing the same rate of interest and secured in the same manner. For details regarding either, see the Wildwood Sales company, Shoaff building.—Advertisement.

TWO SPECIAL TRAINS BRING GRAND OPERA

277 People and Wealth of Setting for "Faust" This Evening.

Two special trains, bearing the 277 members of the Boston National Grand Opera company, which is to sing Gounod's opera Faust at the Palace theater this evening, reached this city today. The first train was composed largely of baggage cars and carried the scenery for Faust and a special crew of stage carpenters, electricians and property men. This train of nine cars arrived at an early hour this morning.

The work of unloading the Faust scenery, which is from the studio of the celebrated Viennese painter of stage pictures, Josef Urban, was begun at once and long before noon everything was in readiness on the scenic side for tonight's performance. Two baggage cars were left in Fort Wayne for the transportation after the performance of the settings. The other cars were sent on ahead to Indianapolis, where the Boston National gives a season of three days as a part of the Indiana state centennial celebration.

Second Train Arrives.

The second train, which carried artists, chorus, orchestra, ballet, musical director, conductors, the full mechanical and technical staffs, reached the city in the afternoon.

This train, too, carried five baggage cars with the scenery for operas, which are to be given elsewhere, and for the personal baggage and costumes of the artists who are to sing in Faust.

In addition to the five baggage cars this train was made up as follows:
One coach for the Ballot Russe.
One coach for the staff.
Two coaches for the chorus.
Two coaches for the orchestra.
Three parlor cars for the artists.

Prominent among the araists notw at the Anthony hotel resting for the performance tonight is Maggie Teyte, the English soprano, who is this year, as last, with the Boston National. Miss Teyte's Marguerite is one of the standard characterizations of grand opera. She has sung Marguerite at Covent Garden, London, at the Champs Elysees in Paris, and is an artiste whose triumphs in Paris, Berlin, London, as well as in this country, are matters of musical record.

Ricardo Martin, the Faust, is America's leading tenor. Mr. Martin is under contract this year with the Boston National and the Metropolitan Opera company, of New York. His contract calls for a certain number of performances with each organization. Martin created the role of Pinkerton in Madame Butterfly, when the Puccini opera was introduced in this country. He customarily sings in New York, alternating roles with Caruso.

Treat is in Store.

This city has a treat in store in the Mephisto of Jose Mardones, the great Spanish basso. Mardones is ranked by the critics as the world's greatest basso profundo. Mardones made his operatic debut in his native Madrid. Then followed sensational appearances in Lisbon, Rome, Turin and Buenos Aires. Then Milan, Paris, London and other world centers of operatic production claimed him. His American debut was made last season with the Boston National, after he had concluded an engagement with Alice Nielsen and Luisa Tetrazzini.

Managing Director Max Rabinoff of the Boston-National has provided, too, an eminent artist for the role of Valentine in the person of Auguste Bouilliez, the famous baritone from the Theatre-Royal de la Monnaie of Brussels. Bouilliez was a great favorite with King Albert after the sovereign had heard Bouilliez sing. It was at the direction of the king that Bouilliez was made leading tenor at the Royal theatre of Brussels. Bouilliez came to this country at the expiration of his service in the Belgian army as a lieutenant.

The cast in full follows:

Faust	Riccardo Martin
Mephisto	Jose Mardones
Marguerite	Maggie Teyte
Valentine	Auguste Bouilliez
Wagner	Giorgio Puliti
Siebel	Fely Clement
Martha	Elvira Leveroni

The full Boston-National orchestra of sixty-two musicians, the chorus of seventy-one and the Ballet Russe of more than forty dancing artists are employed in the Boston-National production of "Faust."

Managing Director Max Rabinoff of the Boston-National company, believes that each artistic factor should be carried to its maximum. Consequently, he not only had all of the "Faust" principals rehearsed in the summer in the Catskill mountains where at his direction they spent a large part of the summer, but where he also saw to it that chorus, orchestra and ballet underwent similar training.

Mr. Rabinoff presents with each opera a ballet. The ballet tonight which will be rendered with the full strength of the Ballet Russe is one which in Europe is always seen in important "Faust" productions, but which has not been given in this country with "Faust" until Mr. Rabinoff restored it to the score of Gounod.

This is the famous Walpurgis Night Ballet. In the opera it is a temptation of "Faust" devised by Mephisto to lull to sleep the conscience of Faust and to make him forget the Marguerite tragedy.

The setting is rich and atmospheric and from the studio of the Viennese scenic artist, Josef Urban.

All in all this city will see tonight a production of "Faust" which is in every respect opera precisely as presented in the big European centers of opera.

Chevelier Fulcenzio Guerrieri, who was knighted by the king of Italy, Victor Emanuel, for his attainments as a composer and a conductor, will preside at the conductor's desk during tonight's performance of "Faust," while Adolf Schmid, of Covent Garden, and the Champs Elysees, acts in a similar capacity during the Walpurgis Night Ballet presentation.

The heaviness of the production and the size of the orchestra as well as the large number of singers engaged made necessary certain alterations in the Palace theatre. Four rows of orchestra seats were removed to provide space for the musicians, while special lighting devices were installed on the stage by the Boston-National force of electricians.

The trains used by the Boston-National will take the company on a tour of the principal cities of the country—a tour which began at Boston and which will end on the Pacific coast at the beginning of next summer.

For Indiana: Showers and warmer tonight; Friday partly cloudy.

For Ohio: Partly cloudy tonight and Friday, probably showers; warmer tonight.

For Lower Michigan: Partly cloudy tonight and Friday, probably showers; warmer tonight south portion.

WEATHER CONDITIONS.

An area of high pressure occupies the Atlantic states, and another high area is moving inland over the north Pacific states. A depression is centered over the upper Mississippi valley, and loops of this depression extend southwestward to Arizona. Except that local showers occurred in widely separated places in the south and west, the weather has been generally fair during the last 24 hours. Moderate temperatures prevail in western districts, but the weather is cooler than the seasonal average over an area extending northeastward from Georgia to the St. Lawrence valley, and local frosts occurred over a considerable portion of that area this morning. P. M'DONOUGH,
Local Forecaster.

Prince Frederick, a Swabian nobleman, was the first Hohenzollern to figure in history. Early in the fifteenth century the emperor of Rome sent him to subdue a revolt in Brandenburg.

MANY WOMEN BUY BABY BONDS

Since the issue of Baby Bonds many women stenographers, bookkeepers and others holding salaried positions have cultivated the habit of saving a part of their earnings by investing in this security, and now a large percentage of this class are coming back with additional savings and increasing their holdings of Baby Bonds. Baby Bonds are particularly [illegible] as they are sound beyond all question, being secured by first mortgages on local real estate and bear six per cent interest and come in $10 denominations. There are also larger bonds in $500 denominations having the same security and bearing the same amount of interest. UNCLE SAM TEACHING FARMING TO FARMERS

350 County Agents Under Smith-Lever Bill Doing Fine Work.

(By F. W. Kerby.)

Washington, D. C., Oct. 12.—For two years the United States department department of agriculture has been engaged in the biggest school-teaching job ever conceived in the world's history.

On May 8, 1914, the Smith-Lever agricultural extension act became law. It recognized a new class of pupils—grown men and women working all day to make a living on the farm—as well as farm boys and girls, and proposed to take to the average farmer all the information developed by the experts of the states and the nation in every department of farm work and induce him to apply it to his individual farm.

Carried out, this policy would revolutionize agriculture. The act makes available more than $8,000,000 annually, and places the brains of the states and the nation at the disposal of the humblest farmer.

At least 95 per cent of the funds must be spent right out on the farms among the farmers.

The agricultural department and the state agricultural colleges have been working together to carry out the act Demonstrations are conducted by county agents—skilled agricultural leaders placed in each county to devote their entire time, thought and energy to the agricultural development of the locality.

Does a farmer want to know what kind of a crop to plant? He asks the county agent.

Does he want to know the best way to build a silo The county agent will tell him. Is he thinking of digging a new well? The county agent will advise him.

Up to the present time there have been assigned 1,150 men and 410 women county agents. These men and women have hundreds of department and state specialists always at their beck and call to consult on special farming problems. Under Secretary of Agriculture Houston, Dr. A. C. True, head of the states relations service, has charge of this work.

In the fifteen southern states during the past fiscal year direct demonstrations of some phase of farm work were made on 105,000 farms. Instruction was given 60,000 boys and 50,000 girls.

The county agents made about 500,000 visits to farms and directed building of 30,000 silos. About 13,000 pure-bred animals were purchased by their advice, 118,000 hogs inoculated with hog cholera serum in demonstrating the method to thousands of farmers, and 2,000 dipping vats were constructed in connection with educational work in the eradication of the cattle tick.

The agents showed thousands of farmers how to take out stumps to provide for better cultivating and advised on methods of draining 65,000 acres of theretofore useless swamp lands.

The women county agents organized work for women by demonstrating home conveniences, elimination of flies and mosquitoes, proper preparation of food, care of chickens and marketing of eggs.

Organization work in the northern and western states, more recently undertaken, has also resulted in great improvement.

The number of agents grew from 219 at the beginning of the last fiscal year to 350. These formed 875 local organizations; conducted 35,000 demonstrations with crops and live stock; visited 76,000 farms, and helped develop agricultural instruction in 4,500 schools.

More than 72,000 farmers and their families attended short courses or movable schools inaugurated by these county agents.

On their advice, too, 600,000 acres of tested corn, 280,000 acres of oats, 17,000 acres of potatoes, and 85,000 acres of alfalfa were planted.

In addition, a vast amount of other work, such as organization of all kinds of boys' and girls' clubs was carried on. In a few years the work under the Smith-Lever act probably will be the most extensive educational work being carried on anywhere in the world.

OLDEST WOMAN BORN IN WEST SAW MASSACRE

Idaho Octogenarian Recalls Days of Indian Uprising Long Ago.

Copyr[illegible] most interesting woman in the west" is the title given by pioneers to Mrs. Eliza Spaulding Warren, octogenarian, the oldest woman born west of the Rocky mountains. Mrs. Warren's home is here. Spry and hearty even at her advanced

Mrs. Eliza Spaulding Warren.

years, she recounts the days she spent as a child among the Nez Perce Indians in the Lapwai, Idaho, region. The only white child in all that country, the Indians made a pet of her and taught her many secrets of forest and stream. She learned to speak their language fluently.

Her parents, Rev. and Mrs. H. H. Spaulding, crossed the mountains with Marcus Whitman and his wife in 1836. The Whitmans settled in the district known as Walla Walla, and in 1837 was born a little daughter, the first white child to be born in the great west.

When she was nine years old her father decided that she should have some schooling, and sent her, in care of an Indian squaw to Marcus Whitman's home, where a small school had been established.

The next winter she went to the school with her father. It was while the children were in the schoolroom that the Indians went on the warpath, and looking out of the windows they saw their fathers fall. Mr. and Mrs. Whitman were killed before their eyes. Mrs. Warren's father was out of the settlement at the time, and so escaped the massacre. The pupils were brought downstairs and lined up against the wall, and each thought that his end had come.

"I saw one of the great war chiefs swagger in," said Mrs. Warren, "and when some one asked him if the women and children were to be killed he said, 'No, we won't kill the women and children, now!'

"They kept the women and children prisoners for three weeks, and during that time I had to be the interpreter. They kept me flying from one place to another, and not a day passed but in fear and trembling I went to the Indians and asked them when we were going to be killed."

Peter Skeen Ogden, chief factor of the Hudson Bay company at Vancouver, ransomed the women and children by sending boatloads of blankets and ammunition up the Columbia river in the dead of winter.

"I was two years getting over the frightful experience," continued Mrs. Warren. "With my head in my hands I lived those awful three weeks over and over again. Not a day passes yet that those awful cries do not ring in my ears. The fright was the real cause of my mother's death three years later."
